

# CONVERTS SLAIN BY THOUSANDS.

## BOXER HORRORS.

### Thirst for Human Blood Spreading—Chinese Capital Reeks With Carnage—Japan to Have a Free Hand.

The correspondent at Shanghai, telegraphing under date of Thursday, 12:10 p. m., says he believes that when official information comes regarding Peking it may include news of the outraging of English women and the torture of children. It may also be taken for granted, he asserts, that all the foreigners in Peking have been wiped out. These are the whisperings of startling rumors in native quarters and it must not be forgotten that the telegraph lines, over which alone the news can come, are solely in the hands of the Chinese. The native rumors are likely to have their source in a solid basis, and the native officials are believed to be preparing the way for the reception of news of the greatest crime of the century.

Prince Tuan is preparing an edict ordering the extermination of all foreigners. This is probably intended to prepare the public for the worst news. Chinese cumulative reports, which are generally believed, declare that all the foreigners in Peking have been massacred. The safety of all foreigners in North China depends upon Japan's prompt action. Japan has 70,000 troops ready, but is prevented from sending them to China by international jealousies.

Telegram dated Friday says: Recitals of further horrors in Peking are gathered by correspondents at Shanghai from Chinese sources, especially of the slaughter in the Chinese and Tartar city of thousands of native Christians, so that the capital reeks with carnage.

The ruthless thirst for blood is spreading in all the northern provinces, and wherever there are native Christians the scenes enacted in the capital are reproduced in miniature.

From these stories nothing further comes regarding the legation forces, except a repetition that they are all dead. The correspondents aver that if the Chinese officials in Shanghai wished to throw light on the real state of affairs in the capital they could do so, and, therefore, the worst reports are accepted as true.

Taken dispatches say an attack in great force is expected at any moment. The Chinese commanders are awaiting the arrival of more guns and reinforcements before making an effort to retake the city.

The Russian government announces that it will give Japan a free hand to apply military force in China.

Telegram dated Sunday says: Tien Tsin is still held pressed. A Chinese force, numbering from 80,000 to 100,000 men, estimated by reconnaissance, floods the country around Tien Tsin. Communication between which place and Taku is apparently possible by river only.

A Che Foo dispatch says the Russians have landed 8,000 men at Taku, and the Japanese have discharged several transports. The Japanese pushed on to Tien Tsin, leading in the subsequent attack upon the native city, in which their commander was killed. Ten more transports are engaged at Japanese ports. With 10,000 British Indian troops aloft and fresh Japanese contingents, it is quite probable that the allies will soon have 50,000 men ashore.

The disorders in the provinces appear to be increasing in violence. A Chinese army is within 40 miles of New Chungang, and the foreigners are preparing to abandon their homes.

## A MICHIGAN CLOUDBURST.

### Much Property Damaged but No Lives Are Lost—Celery Crop Probably Ruined.

A cyclone accompanied by a cloudburst and hailstorm swept over Kalamazoo Saturday and a conservative estimate places the damage resulting at \$100,000. In half an hour nearly six inches of water fell, completely inundating the city and doing untold damage in the lowlands where the celery raising industry is carried on. The celery crop may be completely ruined. Kalamazoo river is out of its banks, and is washing out the crops along its source and doing other damage. Specials from other cities in Southwestern Michigan report the storm general throughout that section of the State and immense damage done to crops and orchards.

## Much Property Destroyed.

Saturday the southwestern part of Winnebago county, Wis., was visited by a destructive tornado. A number of barns were wrecked. Lawrence Morrissey, who sought refuge in a barn, was hurled 100 feet and seriously injured. The loss of stock, horses and cattle is estimated at many thousands of dollars. John and Joseph Deyoe are missing, their team being found some distance from the hayfields where they were working.

A rain, hail and wind storm caused thousands of dollars of damage to crops and property at Oshkosh. A circus tent was blown down and one man seriously hurt. Several barns were demolished, a number of smokestacks blown down, and a portion of the city hall cupola destroyed.

## Explosion From a Spark.

A collision between a spark from a cigarette and an open box of gunpowder in the tent of the Pawnee Bill's Wild West show at Canton, O., Sunday, caused an explosion that nearly cost three men their lives. They were Homer Swigert, a cowboy, a rider named Moore, and a colored man, a native Filipino, whose name is unknown.

## Wrote His Name on an Egg.

Several months ago Robert E. Blakemore of Kennett, Mo., in a spirit of fun, wrote his name on one of a lot of eggs ready for shipment. He added that he was young, single and wanted to marry. A few weeks later he received a letter from Miss Emma Nicklas, of Pittsburg, Pa., and accompanying was her photograph. The correspondence was continued, and Saturday Blakemore departed for Pittsburg, where the marriage will be consummated on his arrival.

# LATEST NEWS NOTES.

### Good crop reports received from western States.

The extreme heat caused seven deaths at Pittsburg, Pa., Thursday. The grand jury of Cumberland, Md., has been recalled to investigate nine riot cases.

The department of agriculture will build a model road in Washington county.

Mrs. John Burke was fatally injured by a train at Piedmont, W. Va., losing both legs.

The Seoul and Chemulpo railway in Japan was completed and being operated Thursday.

The Turkish porte has promised to pay the American indemnity of \$100,000 in 90 days.

The Democratic National committee re-elected all its old officers, including Chairman Jones.

Leading iron and steel manufacturers confer in New York to end the demoralization in prices.

Mrs. Offie Rimmer, an inmate of the Mercer county, Pa., almshouse, is starving herself to death.

The mine owners at Belle Island put men to work Monday, the strike having lasted one month.

Saturday five firemen were killed in a Pittsburg, Pa., fire and nine others injured; loss over \$100,000.

Delegates to the National Educational Association are flocking into Charleston, S. C., on every train.

The body of Paul Shapleigh, 17 years old, who disappeared July 3, was found near Lock Haven Sunday.

President McKinley and Gov. Roosevelt met at Canton Friday. The crowd was large and enthusiastic.

General Wade will not start to the Rainy Lake region, in Minnesota, as the Indians have become peaceful.

Thursday the Standard Oil works at Bayonne, N. J., were damaged from \$1,000,000 to \$2,000,000 by fire.

Friday lightning struck many houses and played many pranks in Westmoreland and Mercer counties, Pa.

Coal prices are advancing greatly all over Europe and there is a big opportunity for the American product.

Four children instantly killed, three fatally injured and 18 more wounded by exploding fireworks in Philadelphia.

Gov. Stone has resituated Isaac Biriolo, the Tioga county murderer, until July 12. His counsel has appealed the case.

James Ruth, the eighth victim of Wednesday's disaster at Parkersburg, W. Va., died about 3:30 Friday morning.

Postmaster James Bell, of Gainesville, Fla., when found to be \$1,400 short in his accounts, was so affected that he died.

The Butler county courthouse and many other buildings at Butler, Pa., were struck by lightning Thursday night.

A human foot belonging to an unknown victim of the Parkersburg explosion, has been found in the middle of a field.

Fire Wednesday morning partially destroyed the Fostoria Glass Works at Mountsville, W. Va., the loss being \$30,000.

David Hallen and Isaac Braumfin were carried over a dam in the Schuylkill near Philadelphia Sunday and were drowned.

The tenth international convention of the Baptist Young People's Union meets in Cincinnati Thursday for a four days' session.

Louis Klopsch, recently from India, says famine victims increase 25,000 a day, and that 20,000 new cases of cholera are added weekly.

Henry Wade Rodgers, LL. D., late president of Northwestern University, succeeds E. J. Phelps, deceased, as law instructor at Yale.

The police prevented Bowser, of Chicago, from trying to shoot the whirlpool rapids at Niagara Falls in his 20-foot boat, the "Fogol Killer."

When John Farrell thought he had a bear hypnotized in the New York Zoo he thrust his hand into the animal's cage and had it almost bitten off.

Commander Booth-Tucker, of the Salvation Army, in New York commissioned 43 young men and women as captains, lieutenants and apostles.

A quarrel between Antonio Soso and Jose Vasquez in the San Pedro valley, Arizona, which resulted fatally for both, has resulted in a feud between the cowboys of the two men and serious results are feared.

The British chancellor of the exchequer reports that, for the quarter ending June 30, the revenues showed a decrease of £1,203,144 compared with 1899.

In Washington it is believed that regulars being presumably sent to Manila to relieve volunteer soldiers are in reality going to convenient cable ports in China.

Failure to receive tidings from the whaling fleet has caused great anxiety in San Francisco and the revenue cutter Bear is hastening to the whaling grounds.

A Spaniard named Rivera, formerly a Puerto Rico tax collector, was arrested at Havre on the steamship Olinde Rodriguez on complaint of the United States government.

The new Government battleship Alabama and the Russian cruiser Variag were not damaged in the fire in Cramps' shipyards Sunday, and other work will be but slightly delayed.

The Pope has excommunicated J. Rene Villate, at one time head of the old Catholics of this country, for consecrating as Bishop an Italian ex-priest known as Don Miraglia.

David and George Gregory, of Pymatuning township, Mercer county, Pa., were badly injured by the bursting of a cannon which they had made from a gas pipe to celebrate the Fourth.

Emil Markenberg, an aeronaut, fell 500 feet from his balloon while making a Fourth of July ascension at Santa Ana, Cal., and was crushed to death in the presence of thousands of people.

Martin Hulen, of Aspen, Col.; T. B. Gedine, of San Francisco, and James Crawford, of Benson, Ariz., have cleared up \$200,000 in gold dust in the new placer gold field in Lower California.

It is probable that within the next month three regiments of United States infantry—the First and Second and either the Fifth or Eighth—will leave Cuba. This will leave only two regiments of infantry in the island.

# MANY KILLED IN A STREET CAR.

## GREAT TROLLEY DISASTER.

### Car Jumps Into a Deep Ravine While Loaded With Passengers—More Than Three-score Injured.

Thirty-six men, women and children were killed and 65 were injured—at least nine fatally—in the wrecking of a trolley on the outskirts of Tacoma, Wash., Wednesday.

The excursionists—104 of them—boarded a trolley car at Edison, a suburb, at 8:30 o'clock. They were en route to the city to view the civic parade. The car bowed along at a good speed. Where the tracks turned from Delin street the car suddenly lurched and left the rails. The motorman was powerless to check its speed. A gulch 120 feet deep yawned below. Only a slight rail of wood ran along the edge of the precipice. This was shattered like a reed. Frantic screams filled the air as the panic-stricken passengers were borne to certain death.

Half way down the side of the gulch projecting rocks stopped the car for a moment. Such was the force of the impact that its timbers were wrenched apart and those inside were crushed into a mass. When the car struck the bottom of the gulch only those in the center of the car were alive.

The bodies of the dead are shockingly mangled. Most of the injured were almost beyond recognition because of frightful cuts about the head and body, from which the blood ran in streams.

## SIX PERSONS DROWNED.

### Pleasure Yacht Wrecked on Lake Erie During a Hurricane.

The pleasure yacht Idler, the property of Capt. James Corrigan, one of the most prominent vessel men along the great lakes, was wrecked off Cleveland harbor at 2 o'clock Saturday afternoon. When she went down in the hurricane which passed over the city, she carried with her six persons, the wife, three daughters and the grandchild of the owner, and the daughter of his brother, John Corrigan.

The crew of the yacht were saved. They were picked up by the Effie D. and the Smith. None of the Corrigan bodies have been recovered.

The stories of the crew rescued from the Idler and the crew of the boats which rescued them do not agree. It is claimed that the crew of the Idler made no attempt to prepare for the storm until it was upon them.

## STREET CARS COLLIDE.

### Mortorman Killed and Ten Persons Hurt Near Scranton, Pa.

Two open cars on the Scranton (Pa.) Railway Company's Durycia line collided head on at 10 o'clock Sunday morning at Old Forge, killing one and injuring 11.

Mischievous boys, it is supposed, tampered with the switch signals and both cars ran into the same block. Midway between the switches is a deep hollow, its sides forming a sharp angle. A curve 100 feet up the northerly hill obstructed the view of the opposite hollow. The two cars plunged into the hollow and met in the dip.

The northbound car with five passengers aboard telescoped the other which had 62 passengers and ploughed through its front as far as the third seat.

## Business Done by Railways.

The interstate commerce commission reports that in the year ending June 30, 1899, 16 railroads were placed in receivers' hands and 39 removed. The total single track mileage was 189,294, an increase of 2,898 for the year. Total mileage of all kinds of track was 252,364.

Railroads in 1899 employed 928,924 persons or an increase of 54,366. The amount of railway capital outstanding was \$1,033,954,898. The amount of capital stock paying no dividends was \$3,275,599,181. The number of passengers carried was 323,176,598. The freight weighed 959,763,583 tons. The railways' gross earnings were \$1,313,316,618, an increase for the year of \$66,384,497. The number of persons killed was 7,123, and the number hurt was 44,620.

## Havana's New Charter.

Telegrams from Havana, dated Sunday, say: The new charter of the city of Havana will go into effect immediately after its publication, this week. The powers of the recently elected officials are greatly increased. They are given authority as to the widening, grading and cleaning of streets, but in charge of water supply and given supervision of the sanitary arrangements. Neither the central nor provincial government can intervene in such matters.

Gen. Wood will probably pay a short visit to the United States, leaving on Saturday, to consult with Secretary of War Root regarding the coming constitutional convention.

## Filipinos Are Enlisting.

The war department has been informed of the organization of a squadron of Philippine cavalry by Lieutenant Colonel Wilber E. Wilder, Forty-third infantry, U. S. V., consisting of four troops of native scouts, having a maximum of 120 men to a troop, engaged to serve until June 30, 1901, unless sooner discharged.

The barracks at Calocan have been designated as the rendezvous of the squadron.

## A Grave Situation.

Secretary John D. Long, shortly after his arrival at his home at Bingham, Mass., from Washington, in speaking of the situation in China, said: "The situation is a very grave one. There has been no official news from there, and even a message that we got from Kempf came by runners. The purpose of the American government is to protect American lives and American property, and not aggrandizement." He said the government would not send any more warships to China at present.

# WAR'S TERRIBLE RECORD.

## British Lost Over 3,000 Last Month—Eoers Release Prisoners.

While the news from China continues to completely overshadow events in South Africa, these have by no means ceased to be worthy of record. When it is understood that the last month's casualties, from June 5 to July 5, amounted to over 3,000, including 1,200 deaths, it will be realized that the later chapters of the war, though comparatively unheralded, have been terribly grim.

"When is it going to end?" is the question heard on all sides. The measure of the organized Boer resistance is evidently no criterion of what the cost will be to Great Britain in previous lives.

Unless Lord Roberts is planning some move of which the news is carefully kept secret, it seems there is to be many weary weeks of guerrilla fighting ahead of the British forces.

The officer commanding at Ladysmith reports that 200 British prisoners, members of the Yeomanry, the Derbyshire regiment and the militia, have been put over the Natal border by the Boers, who evidently found the prisoners much of a tax on their resources. No officers were with the prisoners.

## ARMY TO BE INCREASED.

### More Than Six Thousand Regulars Ordered to the Far East.

The military force of the United States in China will probably be increased to 11,000 men. As a result of a thorough consideration of the subject by the secretary of war, Lieutenant General Miles and Adjutant General Corbin, orders were issued by the war department Saturday afternoon for the dispatch of 6,254 regular troops to the Philippines, with a view to their utilization in China in case it is found necessary to divert them to that country. These troops are intended primarily to relieve the volunteers in the Philippines, and will only be diverted to China in the event that circumstances demand it.

The force is made up of two battalions each of the Fifteenth, Second, Fifth and Eighth infantry, two squadrons each of the First and Ninth cavalry, one squadron of the Third cavalry and a company of engineers.

These troops will be forwarded as rapidly as transportation arrangements can be perfected, and the entire fleet of transports at San Francisco and New York will be employed in the work.

## ANOTHER WEEK OF BLOODSHED.

### Americans Lost Eleven Killed and Sixteen Wounded—Many Insurgents Killed.

The past week's scouting in Luzon resulted in 11 Americans being killed and 16 wounded. One hundred and sixty Filipinos were killed during the week and eight Americans who had been prisoners in the hands of the rebels were surrendered and 100 rifles were turned over to the United States officials.

The enemy ambushed a wagon train between Indang and Naic. The Third infantry lost nine men while on an expedition to punish the Ladrones in the Delta of the Rio Grande.

In the Antigua province of Pannay a running fight of three hours' duration resulted in the killing or wounding of 70 of the enemy. There were no casualties among the Americans.

The insurgents are slowly accepting the amnesty provisions. In some instances the Americans are suspending operations in order to give the rebels an opportunity to take advantage of the decree.

## Col. Pettit Convinced.

The court-martial convened for the purpose of hearing the charges against Col. James S. Pettit, of the Thirty-first volunteer infantry, who was accused of violating the 62nd article of war in making arrangements with President Medill, of Zamboanga, for the capture of Juan Ramos, who was afterward transferred to Medill and killed, has brought in a verdict of acquittal.

The acquittal, it is announced, restored Col. Pettit to duty in his regiment. It is understood that the war department has given its unqualified approval. Col. Pettit's brother officers rejoice at the expected termination of the case.

## Big Coal Land Deals.

A block of about 2,000 acres of coal in West Finley township, Washington county, Pa., has been sold to Fayette parties, and payments will be made as soon as title abstracts are ready. Most of the land is optioned at less than \$15 an acre. It is remote from railroads and will be held as an investment. In North Strabane township, near Canonsburg, the coal under the farm of the Quail estate and the Rasel farm, adjoining about 500 acres all told, was sold this week to the Pittsburg Coal Co., through L. A. Russell, at \$100 per acre.

## LEGACY FOR SALVATIONISTS.

### Property Valued at \$20,000 Left to the Army by Findlay, Ohio, Woman.

The will of Mrs. C. T. Dondore, filed for probate in the superior court, at San Diego, Cal., bequeaths a piece of property in Findlay, O., valued at \$20,000, to Ballington Booth or his successors in the Salvation Army. The property comprises a 15-acre farm, located in the city of Findlay. Electric car lines run to the place. Two years ago Mrs. Dondore refused an offer of \$20,000 for the property.

Another of Mrs. Dondore's philanthropic acts was the leaving of \$1,000 a year to the poor of Findlay for a period of 20 years. This money is derived from the rent of a storeroom in Findlay. The money is especially for the widows and orphans. In addition to this Mrs. Dondore bequeathed the rent of another storeroom, amounting to \$300 a year, to the public library of Findlay.

## Gunboat Sails Homeward.

The United States gunboat, Machias, which has been watching United States interests on the Isthmus of Panama and at the Colombian ports for the past seven months, sailed Sunday from San Juan for Hampton Roads.

## CABLE FLASHES.

Japan wants to purchase the battleship O'Higgins from the Chilean government.

The czar has prohibited the playing of baccharat in his dominions under heavy penalties.

Dr. A. Donaldson Smith, an American explorer, has found four new native tribes in Africa, and made other valuable discoveries.

Hurricanes, cloudbursts and thunder storms have caused scores of deaths and thousands of dollars' worth of damage throughout Germany recently.

## Chased a Chinaman.

A crowd of angry German farmers, living in and about Niles, seven miles west of Evanston, Ill., in order to avenge the death of the German ambassador in China, attempted violence on a Chinese peddler. They chased the man with pitchforks and other agricultural implements, but he escaped into the woods. The place was surrounded by the pursuers, but after an hour's search the pursuit was given up.

# EXPLOSION TORE BODIES TO ATOMS.

## TERRIBLE SPECTACLE.

### Long List of Injured and Death Rate Expected to Reach 20—Parkersburg, W. Va., the Scene.

The most disastrous accident that ever occurred at Parkersburg, W. Va., happened near the Ohio River railroad shops about 7:30 o'clock Wednesday morning. A tank car, containing 6,000 gallons of naphtha, was struck by an engine, knocking a hole in the car, which caught fire. Every effort was made to move the car from the track and the fire department was called out. General Supt. Hamilton, with nearly every official at the roundhouse, went out with a crowd of men, and all were around the car when it exploded, sending 6,000 gallons of blazing oil into the air, and scattering death and destruction. The car was torn to pieces, part being thrown into the freight house, 300 feet down the track; then down 1,000 feet toward the roundhouse, and part among the houses of the roadside. Crowds of men and boys standing around were literally torn to pieces and the remains of several were entirely missing. Shreds of flesh and bone were picked up on the roadbed and in the corn field, which was blackened for 200 feet on each side of the track.

## DEPUTY MARSHAL KILLED.

### Four Handed Shooting Affray in Kentucky. Two Others Will Die.

In Mariba, Menifee county, Ky., a four-handed shooting affray occurred Sunday between Deputy United States marshals and desperate mountain men, in which one man was killed and two mortally wounded.

Marshal J. Howard Wilson received a bullet through his heart and was instantly killed. Typton Day, accused of murder and robbery in Cumberland Gap, and a fugitive from justice, and a friend named Bush were mortally wounded.

Wilson had heard that Day was in hiding in Menifee county, and accompanied by William Stamper, set out to arrest him.

The officers rode up to the place and found the men in front of the house. Day was first to open fire and then the fusillade became general. When the smoke cleared away Stamper, with his revolver chambers empty, saw Wilson dead upon the ground and Day and Bush fatally wounded. Wilson was at one time deputy revenue collector for the Sterling district and was a daring raider of moonshiners' stills.

## JAPAN'S TRADE.

### Many Thousand Dollars' Worth of Oil Well Machinery Purchased.

As an evidence of what Americans think of the oil fields in Japan, the steamship Hudson sailed for Yokohama Monday morning from Philadelphia with 5,000 tons of the latest pattern oil well machinery aboard. The Standard Oil Company is shipping this material, which was nearly all manufactured in and about Pittsburg, Pa. The consignment is worth \$400,000 and will be used by the big trust in developing its own territory.

Heretofore what little foreign machinery for oil well drilling has been used by the Japs was procured in England and Germany. The Hudson's cargo is the first going from this country, but undoubtedly not by any means the last. K. Okasachi, of Tokio, representing one of the largest native importing houses in Japan, was in Pittsburg for two weeks in June and purchased a good many thousands of dollars' worth of oil drilling machinery.

## REVIEW OF TRADE.

### Trade Agencies Discuss the Various Business Conditions—Wheat Crop Improved in Northwest by Rains.

R. G. Dun & Co.'s "Weekly Review of Trade" says: Failures in the first half of 1900 were 5,362 with liabilities of \$100,570,134. There were 20 failures of banks and financial corporations for \$25,822,682, leaving 5,342 commercial failures with liabilities of \$74,747,452. Had it been predicted that the vast iron industry would be thrown from unprecedented activity into great depression, with many works closed and prices reduced fully a quarter, it would have been thought impossible. The six failures in that department for the last quarter were in all for \$28,935, though Bessemer pig has fallen from \$25 to \$18 and plates from 3.1 to 2.5 cents, and the average for iron and steel products has declined just 25 per cent. since January 10. Some further decline is now expected before things are adjusted for another active season, and efforts to arrange wages are progressing.

The crop year for grain is over and the outward movement of wheat has not been stopped, although somewhat diminished by the vagaries in prices. While exact figures for the year will not be known for some days to come, they differ very little from 400,000,000 bushels of wheat and corn together, which was almost exactly the quantity exported last year, while in 1898, it was slightly larger. It is now asked by the most conservative whether Indian corn has not at last crept into such favor in place of other grain that a larger quantity of it will be required hereafter, lessening the strain in this country when wheat is in short supply, and without curtailing the supply to the world's needs or the sum due to this country on balances. A single moderately short wheat crop might change all calculations in this respect for the future.

Bradstreet's says that business failures in the United States for the week number 146, as compared with 185 last week; 130 in this week a year ago, 241 in 1898, 213 in 1897 and 219 in 1896. Business failures in Canada number 25, as compared with 18 last week.

Lord Roberts and several co-operating columns are still out within striking distance of DeWet.

## Drilling Ceases in Indiana.

The Standard Oil Company has notified its workmen to stop drilling in the Indiana fields. The order caused a panic among the independent producers, as they have invested heavily in wildcat territory and have developed a large number of wells that yield from 200 to 1,000 barrels per day, and when the crude oil was worth over \$1 a barrel they could work at a profit. When the Standard Company cut the prices to 90 cents they were compelled to operate at a loss. The action of the Standard Company will throw thousands of men out of employment.
