SECURITY.

A penny earned, a penny saved;
A knowledge of true living;
An every day content, that comes
Through gaining and through giving.
We get with the school savings bank
An understanding action
That makes the life of boy or girl
A smiling satisfaction.
We get security in full
Against the pauper's station.
Our policies read "Thrifty lives
To benefit the nation."

A SECRET WORTH KNOWING.

I used to think a nickel small,
And scarcely kept a penny.
In fact, I wasted, spent them all,
And surplus had not any.
A year ago school savings banks
Were opened for scholars,
And I've a good deposit, thanks,
Of one and twenty dollars.
I've caught a secret, too, and see
That thrift and money growing
Make habits fair, and industry
Is worth familiar knowing.

At the meeting of the Shakespearean Society Friday the following officers were elected: President, Alice Evans; vice president, Frances King; secretary, Ethlyn Winslow; editor-in-chief of BULLETIN, Fred Smith; assistant editor, Golda King; local editor, Thomas Nolan. The Bravery of Woman

Was grandly shown by Mrs. John Dowling, of Butler, Pa., in a three years' struggle with malignant stomach trouble that caused distressing attacks of nausea and indigestion. All remedies failed to relieve her until she tried Electric Bitters. After taking it two months she wrote: "I am now wholly cured and can eat anything. It is truly a grand tonic for the whole system as I gained in weight and feel much stronger since using it." It aids digestion, cures dyspepsia, improves appetite, gives new life. Only 50c. Guaranteed, at H. Alex. Stoke's drug store.

Stockholders' Meeting.

There will be a meeting of the stockholders of the Reynoldsville Water Company at the office of its secretary, M. M. Letter to D. R. Cochran.

Reynoldsville, Pa.

Dear Sir—As a painter you probably use lead and oil, and would naturally object to Devco lead and zinc. Let us have a few words on the subject.

Painters say a good lead and oil job will last three years, and they say a house ought to be painted once in three years.

We take them to mean that their work is good for three years, no more and no less, or not much more and not much less.

Do you want your work to last longer? What do you say to six years. You'd have to have twice as much work, you know, or you'd be losing money.

Consider the case of your doctor. You call him in. Is it better for him to get your child out of bed to-morrow, or keep him sick for a month?

You prefer a quick doctor. So does every one else in your town, and county, and state. We are all alike; we all want our doctors quick. A doctor that gets his patients up quick, is the doctor that gets the patients—gets rich too, if he isn't run to death.

It's about the same with a painter isn't it? Suppose you paint Devco, and your competitor objects to Devco; your work lasts six years and his work three. You cost your customers half; he costs double. Who'll get the business; and who'll go to Texas?

Devco lasts six years—not exactly—we know of its lasting seventeen—and it never wears out in less than three, so far as we know. On a windy, sandy seaside house, it lasts three years. Lead and oil lasts one year there.

Devco lasts two or three times as long as lead and oil; and its going to paint your town. Do you want to be in it?

Yours truly,

F. W. DEVCO & CO.
