Stories in The Youth's Companion.

In the 52 issues of the year The Youth's Companion publishes more than 200 stories, yet so carefully are they selected that they prove inexhaustible in variety, unending in the power to delight. The stories already in hand for The Companion's 1901 volume show that this feature of the paper will be as strong as ever.

Among the groups of stories will be one of "Old Settlers' Day Tales"—stories actually told at some of the gatherings of pioneers in the West. There will be four stirring "Tales of Our Inland Seas," picturing the adventures of the sailors on the Great Lakes; and there will also be four "True Tales from the Zoo," told by famous keepers and trainers of wild beasts. And this is only a beginning.

Illustrated announcement of the volume for 1901 will be sent free to any address, with sample copies of the paper. All new subscribers will also receive The Companion for the remaining weeks of 1900 free from the time of subscription, and then for a full year, 52 weeks, to January 1, 1902; also The Companion's new Calendar for 1901, suitable as an ornament for the prettiest room in the house.

Letter to E. Neff, Esq.,
 Reynoldsville, Pa.

Dear Sir: You own several houses. Your reason for painting Devco lead and zinc should be several times as strong as the man who owns but one.

Lead and oil was good enough paint till the merits of zinc were found out. It was profitable to paint lead and oil—it was then—but not now.

The addition of zinc to lead makes Devco lead and zinc last twice as long and costs no more; costs less—a trifle less, not much. Lead and oil is mixed by hand; Devco lead and zinc by machinery. Might as well make one's shirts by hand as mix paints. Say it costs \$100 a house to paint lead and oil; and it lasts three years.

Say it costs the same for Devco; which lasts six years—it will last ten years, in favorable conditions, unless you want to repaint to change the color. The costs: lead and oil about \$30 a year; Devco \$15—probably less.

Yours truly,
 F. W. DEVCO & CO.

Zinc and Grinding make
 Devco Lead and Zinc Paint wear twice as long as lead and oil mixed by hand.
