August Flower.

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headache and general bad feeling from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at H. Alex. Stoke's drug store. Sold by dealers in all civilized countries.

Letter to J. V. Young.

Reynoldsville, Pa.

Dear Sir: When you build a house you want a good paint next the wood—it goes a long way in taking care of the wood. The paint that has the best chance to be useful is this first coat: first two coats; first three coats. The first takes care of the wood; the second takes care of the first; the third takes care of the two. All three become one; and that one is to last forever. "Forever" means as long as the house lasts. The way to make the first painting last as long as the house is to follow it up with repainting often enough.

How often? Depends on the paint. Repaint while the paint is still waterproof. All the wear is outside; there is no wear on the under paint. This is how the first painting lasts forever; by keeping it covered; keeping it sound. And this is the cheapest way to take care of a house. But how often to paint depends on your paint. If you paint lead and oil, paint again in three years or less; if Devco lead and zinc, paint again in three years or more.

That less and more are about as one to two. Devco lead and zinc takes care of a house at half cost, because it lasts twice as long as lead and oil.

Yours truly,

F. W. DEVCO & Co.
