### **Pictures Were Fine**

The moving pictures of the famous Ober-Ammergau Passion Play shown in the Catholic church at this place Monday evening were excellent and

were highly appreciated by the large audience present.

# "China of To-day."

The above was the subject of the illustrated lecture given at Assembly hall last Friday by F. R. Roberson. The pictures were fine and Mr. Roberson is a good talker. Some in the audience did not think much of the lecture while there were others who were delighted with it and thought the lecture entirely

too short. Explosion of Gasoline.

Gasoline had been poured on a pile of brick in front of Stoke's new building at corner of Main and Fifth streets yesterday morning to melt the snow and ice off the bricks. William Burge, jr., used a match to ignite the gasoline and the thing went off before Will could get out of the way. His face was badly burned.

# Bridge Washed Out.

On account of one span of the railroad bridge across Narrow Creek, near Sabula, being washed out Monday, passengers on Low Grade Division trains had to be transferred at that point and consequently trains were delayed Monday afternoon. By a force of men working all night a temporary bridge was ready for use yesterday morning.

# All Men Are Welcome.

At a meeting of the Reading Room executive committee on Monday evening, the question was asked, "What are we to understand by the phrase, young men, as applied to the reading room? Christmas Carnival-Rare Musical Treat. Hardly in the annals of Reynoldsville Schools has so much interest attached to any youthful project as gathers and centers around the presentation of the matchless Juvenile Infantine theatrical, "The Lilliputian Cantata Carnival." # August Flower.

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last ten years, I bave met more people having used Green's August Flower than any other remedy for dyspepsia, deranged liver and stomach, and for constipation, I find for tourists and salesmen, or for persons filling office positions, where headache and general bad feeling from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at H. Alex. Stoke's drug store. Sold by dealers in all civilized countries.

# SANDY LICK ON RAMPAGE.

Lowlands Inundated-Hard Work to Save Bridges at Foot of Fifth Street.

On Monday and Tuesday of this week the Sandy Lick creek spread out over the lowlands in its immediate vicinity, much to the annoyance and Inconvenience of those who reside near the banks of the stream. People living on "poverty flat" and west end of Jackson street were compelled to stay in their houses or come out on floats. It was feared that the foot bridge and township bridge across the Sandy Lick at foot of Fifth street would be carried away by the logs that rushed along on the bosom of the turbulent waters, but a number of citizens volunteered to assist in saving the bridges and their work was not in vain, for the stream has lost much of its bolsterousness and the bridges are intact. One citizen stepped on a slippery log and fell into the

stream and only by timely aid from men nearby was saved from being drowned.

U. G. Scheafnocker, Fred. Burns, Harry Burns and one or two others were up all of Monday night keeping the logs from gorging against the brigdes. The gas line to glass plant runs across the township bridge and had that structure been carried away the glass plant would have been compelled to shut down until another gas line could be laid.

# Window Glass Workers. The situation of the window glass

workers, especially those who are trying to form an amalgamation of the four trades, is in a very critical condition, and its success or failure seems to hang in the balance. Unless there is a change made by the flatteners by their voting to accept the proposition submitted (and there is every indication that they will not), the whole scheme of amalgamation may fall through, and while the Republican has no ax to grind it cannot help raising its voice in warning against too hasty action on the part of all concerned, and counsels moderation. Would it not better for all to make concessions rather than see the project of amalgamation fall through and the window glass workers disrupted as never before. It is not the present, but future conditions that should be looked into. So far as the wage scale for this fire is concerned, it is settled, and if the basis of settlement is not perfectly satisfactory at this time, it can be adjusted after amalgamation has been perfected. We see no reason for any one of the four trades having to make all the sacrifice. Let there be a proportionate sacrifice, if one has to be made, by all .-Kane Republican.

# People Not Thankful.

If the attendance at the Union Thanksgiving services in the years gone by is to be taken as evidence of the number of christian people in Reynoldsville who are thankful for blessings received, then there are comparatively few that have anything to be thankful for, as the attendance is usually small. This ought not to be. People who can possibly do so should attend the Union Thanksgiving services. One reason why a number of women do not attend these a number of women do not attend these services is because thay have to stay at home and cook a turkey dinner. When the people stop to consider the blessings received the past years, and then give evidence of their gratitude by attend-ing the Union services to-morrow, the M. In these plays the public get the worth of their money and at the same time the funds stay here to help our own people.
