

# HAIR WEALTH

Wealth of hair is wealth indeed, especially to a woman. Every physical attraction is secondary to it. We have a book we will gladly send you that tells just how to care for the hair.

If your hair is too thin or losing its luster, get **AYER'S HAIR VIGOR**

Growth becomes vigorous and all dandruff is removed. It always restores color to gray or faded hair. Retain your youth; don't look old before your time.

\$1.00 a bottle. All druggists.

"I have used your Hair Vigor now for about 25 years and I have found it splendid and satisfactory in every way. I believe I have recommended this Hair Vigor to hundreds of my friends, and they all tell the same story. If anybody wants the best kind of a Hair Vigor I shall certainly recommend to them just as strongly as I can that they get a bottle of Ayer's Hair Vigor."

Mrs. N. E. HAMILTON,  
Nov. 25, 1906. Norwich, N. Y.

**Write the Doctor.**  
If you desire all the benefits you desire from the use of the Vigor, write the Doctor about it. Address: Dr. J. C. AYER, Lowell, Mass.

Seven feet six inches is the greatest height known to be cleared by a horse.

**To Cure a Cold in One Day.**  
Take LAXATIVE BROWN QUININE TABLETS. All druggists sell them. If you fail to cure, E. W. GROVE'S signature is on each box, 25c.

Germany has an association of tobaccoists with a membership of 18,393.

Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

**An Overwhelming Thought.**  
Our sun is a third-rate sun, situated in the milky way, one of myriads of stars, and the milky way is itself one of myriads of sectional star accumulations, for these seem to be countless, and to be spread over infinity. At some period of their existence each of these suns had planets circling around it, which, after untold ages, are fit for some sort of human being to inhabit them for a comparatively brief period, after which they still continue for years to circle around without atmosphere, vegetation or inhabitants, as the moon does around our planet. There is nothing so calculated to take the conceit out of an individual who thinks himself an important unit in the universe as astronomy. It teaches that we are less, compared with the universe, than a colony of ants is to us, and that the difference between men is less than that between one ant and another.—London Truth.

The number of new books printed in France last year was 13,123.

## DO YOU FEEL LIKE THIS?

### Pen Picture for Women.

"I am so nervous, there is not a well inch in my whole body. I am so weak at my stomach and have indigestion horribly, and palpitation of the heart, and I am losing flesh. This headache and backache nearly kills me, and yesterday I nearly had hysterics; there is a weight in the lower part of my bowels bearing down all the time, and pains in my groins and thighs; I cannot sleep, walk, or sit, and I believe I am diseased all over; no one ever suffered as I do."

This is a description of thousands of cases which come to Mrs. Pinkham's attention daily. An inflamed and ulcerated condition of the neck of the womb can produce all of these symp-

medicine has such a record of cures, and no other medicine as good." Women who should insist upon getting Pinkham's Vegetable Compound they ask for it at a store, a letter to Mrs. Pinkham, Mass., and tell her all her advice is true.

### THE JEWELER'S OUTING.

Upon the deck he sat alone,  
The sky was sapphire blue;  
His cheeks took on a pearly pink,  
His eyes a topaz blue.

The hearty way in which he'd dined  
He vainly was regretting;  
"Alas!" he sighed, "I rather think  
My works must need resetting."

Out o'er the rail he leaned, beneath  
The hot sun's ruby flame;  
The emerald sea beneath him heaved,  
And he—he did the same.

—Jewelers' Circular Weekly.

### HUMOROUS.

Nell—He sent his proposal in a box of candy. Belle—How perfectly sweet.

Mrs. Buggins—The new cook seems very civil. Mr. Buggins—Yes; she must have passed a civil service examination.

Sillius—I was awfully downhearted before I got engaged. I married for sympathy. Cynthus—Well, you've got mine.

Hoax—He's making rapid strides in his profession. Joax—What is his profession? Hoax—He takes part in six-days walking matches.

Poet—Sir, my thoughts are couched in words that burn. Editor—Quite right. In fact, I watched some of them burn only this morning.

Tommy—Pop, what is a confidence man? Tommy's Pop—A confidence man, my son, is one in whom wise people place no confidence.

Mrs. Muggins (out shopping)—I'm buying some neckties for my husband. Mrs. Buggins—Gracious! Will he wear them? Mrs. Muggins—No; but I will.

"Billing and cooling may be all right in courtship," says the Chronic Bachelor, "but I have noticed that after a girl gets married she seems to forget all about the cooling."

"You are the thirteenth tramp that has asked me for something to eat today," said the woman, viciously. "Don't let that worry you, ma'am," replied the tramp; "I'm not superstitious."

"When I left," said the organist, "Miss Screech and Mr. Eavner were snubbing about which had the finest voice. Are they through?" "No," answered the sexton, "they're still comparing notes."

"Here is an article," remarked the star boarder looking up from his paper, "about a miser who had hidden away three pints of gold." "I thought gold usually came in quarts," snickered the fellow who had just paid his board bill, and thus felt himself to be a privileged character.

### SOME QUEER PRISONS.

All the Comforts of Home and Club Are Provided.

That portion of the new prison on the Port Royal boulevard, Paris, reserved for political offenders will be a delightful abode. Oak tables surmounted by mirrors, supplied with electric lights, ornamented with green shades, are more suggestive of the boudoir than the prison; nevertheless, they will be found there. The conversation room, exclusively reserved for the prisoners and well supplied with books, newspapers and easy chairs, will certainly tend to make the Sante prison more popular than the clubs, especially as, in addition to a splendid bath room, the prison benefits of a garden planted with beautiful shrubs, which will be illuminated during the summer months by electricity, and perhaps the French government will provide a military band as well.

The prisoners on the occasion of the riots last year in Italy did not have an altogether bad time, on the whole. They occupied the same large chamber, and, when not discussing various questions of the day, or reading or writing letters, each took turns at composing a novel, the length of each separate contribution being one paragraph.

The Finnish prison for debtors at Helsinki is a cheap and pleasant boarding house until the last day of 1896, when it was closed, it having occurred to the ratpayers who did not habitually use it that it was an expensive luxury. Most of the inmates who were committed for three years preferred to stay there rent free, and devote their funds to having a good time rather than pay their debts and go free. Recherche dinners were brought in—if the debtor could pay for them—with wines, spirits and tobacco; and, if they wished to return any hospitality, their friends outside the jail could come in for the purpose of enjoying the same. Of course, in this ideal prison, the inmates could go out of its precincts when they wished, but by a cruel legal enactment they had to be accompanied by a warden, who had, however, to don plain clothes on these occasions, so that the prisoner's social standing should not be imperiled by being seen in the company of an odious jailer.—Cleveland Plain Dealer.

### Influence of Hunger on the Mind.

A French scientist, M. Lassignardie, has been investigating the influence of hunger on the mind, and finds that when it is prolonged the mental condition resulting approximates that produced by alcoholic intoxication. In the early stages there is merely an increased mental activity and stimulated imagination, but if the deprivation of food continues too long sleeplessness, frightful visions and murderous impulses appear. Many of the symptoms of disease are identical with those of hunger.

United States Ambassador Choate has made representations to the British foreign office on the subject of the Filipino junta at Hong Kong. The foreign office is investigating the matter and will reply as soon as the reports of the authorities at Hong Kong are received.

### TRADE REVIEW.

All Departments of the Iron and Steel Trade in Healthy Activity—Sound Business Conditions Prevail.

R. G. Dun & Co.'s "Weekly Review of Trade" says: With reasonable promptness business is recovering both activity and tone, and fortunately without the sharp rise in general prices which was seen in the spring, and which was followed by a sudden and serious transition to a more natural range. Business is not yet what it was on the top of the wave of industrial prosperity, but the working force is fast increasing. Recital of conditions in the iron and steel market has become a monotonous repetition. Each week there is the same record of activity so generally distributed that everything, from the raw material to the finished product, enjoys a share. There is also freedom from speculative accumulation in anticipation of fancy prices. Railroad companies compete for rolling stock. Export orders in some lines are filled with difficulty, owing to the unusual domestic demand for all forms of iron and steel products, but in no quarter is there any unreasonable inflation of prices, such as was seen during the meteoric ascent last year. In a few descriptions prices on export orders are shaded to hold the business.

Bradstreet says of grain: Cash wheat is slightly higher, partly on the belief that some real damage has been inflicted in Argentina, but mainly because the supply suitable for export is really limited at the seaboard. Corn receipts have been of generally low grade and the November option has cornered at Chicago. Better weather is looked for to improve volume and quality of receipts, and visible stocks are well down to minimum. Wheat, including flour, shipments for the week aggregate 3,827,297 bushels, against 4,062,020 last week; 3,688,677 in the corresponding week of 1899; 5,824,766 in 1898; 5,465,153 bushels in 1897 and 3,753,696 in 1896. From July 1 to date this season wheat exports are 75,301,387 bushels, against 85,468,542 last season, and 89,124,083 in 1898-99. Corn exports for the week aggregate 5,235,568 against 3,976,914 last week; 4,149,523 in this week a year ago; 3,993,846 in 1898; 2,866,705 in 1897, and 2,920,802 in 1896. From July 1 to date this season corn exports are 69,880,561 bushels against 92,170,488 last season, and 60,822,762 in 1898-99. Business failures in the United States for the week number 215, against 227 last week; 202 in this week a year ago. Canadian failures for the week number 31.

### She's Good Points.

A pretty girl, with a decided air of being aware of her charms, stood in front of the lion's cage at the Zoo Sunday afternoon, says the Washington Post. Two young men were near her, and her elaborate unconsciousness of their presence betrayed the fact that she knew they were looking at her.

"Pretty, isn't she?" said one young man in a low voice.

"She's a beauty," said the other, enthusiastically. The pretty girl's cheeks turned a trifle pinker, but she went on talking elegantly to the elderly man with her.

"Beautiful head to draw," commented the first young man. "Look at the way she holds it."

"Uh, hum," assented the other; "that shoulder's beautiful."

The pretty girl turned pinker still, and looked more pronouncedly unconscious than ever.

"Look at those muscles," said the first young man. "Look at the muscles in that leg. You can fairly count 'em."

And the pretty girl turned very red indeed as it dawned upon her that the two admiring young men were discussing the lioness in the cage.

### Poland Advances in Manufactures.

The great product of Poland is at present textiles of cotton and wool. The growth of the city of Lodz (pronounced as though spelled Looch), a manufacturing center, four or five hours' ride from Warsaw, is really wonderful, and quite American in its rapidity and present proportions. In 1835 Lodz was a small, dirty village of 10,000 inhabitants. To-day it is one of the busiest cities in Europe, with a population of 450,000 and a rank among the first as a manufacturing center. Lodz makes cotton, wool and chemicals, but particularly cotton and cotton fabrics. It is known as the Manchester of Russia.—Russian Correspondence in New York Post.

Children Employed, Wages Regulated. The New Zealand parliament at its latest session passed a law prescribing a minimum wage for children. No boy under 18 may now be employed in a factory or work room at less than \$1.25 a week, and no girl at less than \$1. The object of the law is to correct a long-standing abuse of the apprentice system, unscrupulous employers in dress-making and millinery establishments having been accustomed to take young girls into their employ, keep them for 12 months without paying them a cent in the way of wages, and then turn them adrift in order to take on fresh hands under the same conditions of non-payment of wages.—Public Opinion.

# PAIN OPENED HER SKULL

Mrs. Lasher's Remarkable Story—Dr. Greene's Nervura Cured Her.

The case of Mrs. Fred C. Lasher, Jr., a well-known woman of Westport, N. Y., is one of the most interesting on record. It is an actual fact that headaches caused her head to split.

"For thirteen years," she says, "I suffered from terrible headaches night and day, until the bones of my skull opened so that the doctor could lay his thumb right into the opening on my brain. Two doctors attended me and claimed that I was on the verge of insanity. I was under their care for nine years, but got no relief. Then I tried Dr. Greene's Nervura blood and nerve remedy, and inside of a year the bones of my head had taken their natural shape again."

That Mrs. Lasher's statements are true is vouched for by reliable men of Westport, and by a Justice of the Peace there. Dr. Greene's Nervura blood and nerve remedy cured Mrs. Lasher when all other remedies failed, and it cures thousands of suffering women every year. If your head aches, if you cannot sleep and are weak and nervous, remember that this great curative agent, Dr. Greene's Nervura blood and nerve remedy, will make you well and strong.

Dr. Greene's Nervura blood and nerve remedy is a physician's prescription, formulated from a discovery after years of investigation and experiment. Dr. Greene, 35 West 14th St., New York City, is the discoverer. He can be consulted free personally or by letter.

### Forestry—Its Need in This Country.

American forestry has not yet gone beyond the preservation of our old forests, for general reasons. Tree culture for profit, which forestry signifies in the Old World, is here not thought of—nor will it be while we have forests to burn. The artificial, hand-made forests of France, and especially Germany, supply most of the timber used in those countries. England depends on outside sources almost wholly for its timber. England paid about \$10,000,000 for foreign timber last year. Her bill is annually growing larger. But it is slow work to make a profit on timber planting. Thirty-five years is long to wait.—Meehan's Weekly.
