More Trolley Line Talk! RIGHT-OF-WAY WANTED BY AN-OTHER COMPANY.

Council Will Hold Special Meeting this Evening to Consider the Matter.

Prof. A. J. Davis, principal of the Clarion State Normal, appeared before the Reynoldsville town council last night and asked for a right-of-way through this borough for an electric railway. Council did not take action on the matter last night, but will hold a special session to-night to consider the request for right-of-way. We understand that the company back of Mr. Davis has one or two electric lines in operation now, and that it is their intention to build a line through from Clarion to DuBois, and eventually extend the line on east from DuBois and also connect Clarion and Franklin. Mr. Davis says the company will begin building the road as soon as they scenre the right-of-ways and the weather will permit.

Unless the company changes their present plans the line will be built direet to DuBois and will not run to Big Soldier, Sykesville and Eleanora, as our people had hoped a line would be built. Council will be slow about granting this right-of-way, as there is such a good opening here for something better for the town than the line Mr. Davis

Largest Banjo Ever Made

Reynolds Gorsline has beaten the world's record in having the largest banjo ever made. He has made the in-strument entirely by hand. The hoop is of ash and its diameter is ninety-three and one-half inches; entire length of instrument five feet three inches. The neck is of antique oak; key board and keys imitation ebony. It is a double bass banjo. The largest banjo in the world previous to this measured in di-ameter twenty-one inches and was owned by a native of Australia.

Business Men in Theatricals.

Business Men in Theatricals.

The New York Herold of May 8th said: "It's strange what strides the stage has made during the last five years, not to speak of a century. Business men have now taken a hand in the pie and find it a very profitable investment. Lawrence Barrett, during his grand struggle through numberless difficulties, was backed by some of the solid business men of Boston. Viola Allen, who has electrified this country and at the present time is the talk of and at the present time is the talk of the entire east, in "The Christian," was furnished the necessary funds by a large printing establishment in New York. And now a leading business man of Chicago has taken hold of the comedy farce, "A Wise Woman," and having engaged an extraordinary good company will appear in all the principal cities in a trip across the continent. Prior to their run in San Francisco they will take in some of the minor towns and thus make their journey to the coast with more ease. Theatrical managers, look sharp. The business man will crowd you out."

Died at New Bethlehem

Ready for the Visitation.

The committee having in charge the visitation report everything in good shape for tomorrow

After much hard work, the committee, into whose hands was placed the great undertaking of visiting every home in the town and district, is now about to realize their ambition. Every indication points to a very successful effort to-morrow. The readiness and enthusiasm with which the workers from the different denominations have taken hold of the enterprise must be especially pleasing to those who started the movement.

The general public is asked to kindly receive the visitors and render them all the assistance you can. Many of those who go forth are inexperienced persons and so may not do the work in as easy a manner as those used to such pur-poses. Nevertheless, they are on an important mission and the people on whom they call can assist them greatly by giving them as cheerfully the information they are after. Let the information they are after. Let it be understood that this is not a complete census of the people for that has already been done by United States officials. It is not even to find out how many Methodists, Baptists, Presbyterians, Catholics, or Lutherans, etc., there are in the city; each church has its own roll of members. These workers are simply going forth to make a neighborly call, to extend a cordial invitation to those not identified with any church to become so, but in no case to specify a particular church, and find out where particular church, and find out where the pastors of each denomination will do the most good. No one, either tomorrow or later, will be bored by fre-quent calls of church workers. No class quent calls of church workers. No class is to be singled out, for the home of the saint as well as the sinner is to be visited. Let the church preference as given to the visitor be such as each person will stand by. This will cause no confusion to pastor or people later.
