

Sure Cure for Colds

When the children get their feet wet and take cold give them a hot foot bath, a bowl of hot drink, a dose of Ayer's Cherry Pectoral, and put them to bed. They will be all right in the morning.

Ayer's Cherry Pectoral

will cure old coughs also; we mean the coughs of bronchitis, weak throats, and irritable lungs. Even the hard coughs of consumption are always made easy and are frequently cured.

Three sizes: 25c., 50c., \$1.00.

If your druggist cannot supply you, send us one dollar and we will express a large bottle to you, all charges prepaid. Be sure and give us your nearest express office. Address, J. C. AYER & CO., Lowell, Mass.

A King's Fear of Woman's Beauty.

Charles XII. of Sweden feared only one power in the world, the power of beauty; only a handsome woman could boast of making him quail—she put him to flight. He said: "So many heroes have succumbed to the attractions of a beautiful face! Did not Alexander burn a town to please a ridiculous courtesan? I want my life to be free from such weakness; history must not find such a stain upon it." He was told one day that a young girl had come to sue for justice on behalf of a blind octogenarian father, maltreated by soldiers. The first inclination of the king, a strict disciplinarian, was to rush straight to the plaintiff, to hear the details of the misdemeanor for himself, but suddenly stopping, he asked, "Is she good-looking?" And being assured that she was both very young and unusually lovely, he sent word that she must wear a veil, otherwise he would not listen to her.

WHY MRS. PINKHAM

Is Able to Help Sick Women When Doctors Fail.

How gladly would men fly to woman's aid did they but understand a woman's feelings, trials, sensibilities, and peculiar organic disturbances. Those things are known only to women, and the aid a man would give is not at his command. To treat a case properly it is necessary to know all about it, and full information, many times, cannot be given by a woman to her family physician.

Mrs. G. H. CHAPPELL.

She cannot bring herself to tell everything, and the physician is at a constant disadvantage. This is why, for the past twenty-five years, thousands of women have been confiding their troubles to Mrs. Pinkham, and whose advice has brought happiness and health to countless women in the United States.

Mrs. Chappell, of Grant Park, Ill., whose portrait we publish, advises all suffering women to seek Mrs. Pinkham's advice and Lydia E. Pinkham's Vegetable Compound, as they cured her of inflammation of the ovaries and womb; she, therefore, speaks from knowledge, and her experience ought to give others confidence. Mrs. Pinkham's address is Lynn, Mass., and her advice is absolutely free.

Compressed Air for Canal Locks.

On the Erie canal at Lockport, N. Y., a pneumatic balance lock is being substituted for a light of old-fashioned stone locks, says the Youth's Companion. The new lock consists of two steel chambers, one for ascending and the other for descending boats. Each chamber is divided into two parts, an upper one containing water to receive the boats and a lower one containing compressed air on which the upper chamber floats. When a boat has been run into the upper chamber it is either lowered or raised, as may be desired, by filling or exhausting the air chamber beneath it.

English Races Lead in Politics.

If we except the provinces of the Netherlands, the Swiss cantons and such tiny city states as Monaco and San Marino, which retain their ancient institutions, there is not a nation on earth, making any pretense to freedom and civilization, which had not a constitution in great measure copied, within the present century, either from England or from the United States. Thus, whether willingly or not, does the civilized world confess the primacy of the English race in matters political.—Atlantic Monthly.

It has been estimated that the approximate total production of rubber annually is 57,500 tons. Of this amount 21,000 tons are taken by the United States and Canada; 21,000 by the United Kingdom, and 15,500 by the rest of Europe. The Amazon district produces 25,000 tons and East and West Africa 24,000 tons; parts of South America other than the Amazon district, 3,500 tons.

The natural gas wells around Iola, Kas., are reported to be rapidly falling. The Rockefeller and Standard Oil people, it is said, will be heavy losers.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure it, they proved that it was not a local disease. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O., Sold by Druggists, 75c.

Hall's Family Pills are the best.

A woman has built a house with her own hands near Fountain Ferry Park, Ind. It is a one-story wooden structure of four rooms with a stone foundation.

Best For the Bowels.

No matter what ails you, headache to a pain, you will never get well until your bowels are put right. CARBARET help nature, cure you without a gripe or pain, produce easy natural movements, cost you just 10 cents to start getting your health back. CARBARET Candy Cathartic, the genuine, put up in metal boxes, every tablet has U.C.C. stamped on it. Beware of imitations.

Russia absolutely forbids the employment of children under 12 years of age in industrial establishments, whether conducted by the state or private individuals.

Headaches and Nervous Depression are quickly relieved by using Garfield Headache Powders, which are composed entirely of herbs and are harmless.

The intemperate use of tea and coffee produces results as real as those of drunkenness. Total blindness is often the result of excessive coffee drinking.

Dyeing is as simple as washing when you use PUTNAM FADELESS DYES. Sold by all druggists.

Ohio's cities and towns gained 486,021 in population during the last 10 years, or 702 more than the increase in the rest of the entire State.

Your Storekeeper Can Sell You Carter's Ink or he can get it for you. Ask him. Try it. Car loads are sent annually to every state in the Union. Do you buy Carter's?

Breakage of propeller shafts at sea costs an immense sum annually in salvage.

Fits permanently cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. \$2 trial bottle and treatise free. Dr. R. H. KLINE, Ltd., 151 Arch St., Phila., Pa.

Korean paper is so strong and dense that it can be used to cover umbrellas.

Frey's Vermifuge For Worms Has many imitations. Get the genuine, made by E. & S. FREY, BALTIMORE, MD.

Electricity is coming more and more into use in the tanner's business.

To Cure a Cold in One Day. Take LAXATIVE DRUGS QUININE TABLETS. All druggists refer to the money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

One hundred yards has been run in 10 seconds, but 50 yards never covered in 5 seconds.

The stomach has to work hard, grinding the food we crowd into it. Make its work easy by chewing Beeman's Peppin Gum.

Champagne to the value of \$1,307,000 was imported into this country last year.

I do not believe Plao's Cure for Consumption has an equal for coughs and colds.—JAMES F. BORZA, Trinity Springs, Ind., Feb. 15, 1900.

Silk dresses were worn in China 4,500 years ago.

Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

Canada expects a population of 6,000,000 in its census returns next year.

For fatigue of mind and body take Garfield Headache Powders; they bring immediate relief and no reaction follows their use; they are made from herbs.

Exports of cotton piece goods from Great Britain last month decreased 59,391,400 yards from September, 1899.

The Best Prescription for Chills and Fever is a bottle of GROVE'S TABLETS. It is simply iron and quinine in a tasteless form. No cure—no pay. Price 50c.

One gaslight gives out as much carbonic acid gas as two sleeping persons.

"TAKE THIS!"
My Bilious Friend,
said the doctor, "it is the best laxative mineral water known to medical science."
A glass of **Hunyadi Janos** will do more for a disordered stomach or a torpid liver than all the pills in the world.
IT CURES CONSTIPATION AND BILIOUSNESS.
Dose: One-half glassful on getting up in morning, or grocer will get it for you.
Name, "Hunyadi Janos." Blue label, red centre panel.

Another point which the cook should know is the difference between simmering and boiling. This is readily tested with a cook's thermometer, when boiling point will be found at 212 degrees, simmering only demanding 180 degrees. Roughly speaking, it is easy to see the difference between the two. When a liquid boils at full pitch its surface will be closely covered with bubbles, and the whole surface, will, so to speak, rock and swell with the heat, in which condition it very quickly boils over. When it simmers, however, the surface of the liquid will simply ripple like a pond into which a stone has been thrown, the water keeping all the time at a gentle shiver. This rippling is called by French cooks the *sourire* or smile of the water. If you allow meat or anything that the cookery books say should be simmered to boil up and bubble, the substance in question will harden and become stringy, giving out all its goodness to the liquid in which it is cooked, said liquid being only too frequently thrown away via the sink. But if in your zeal to keep it at the side of the stove, where the liquid never reaches "smiling" point, the substance in question may heat, but it will only steep, not cook.

Trade Review.

A Quiet Improvement—Business is Progressing Along Conservative Lines—No Great Speculative Activity is Shown.

R. G. Dun & Co.'s "Weekly Review of Trade" says: Business is progressing along conservative lines. It is without excitement and without great speculative activity, but with a confident undertone, which is to be explained largely by the fact that leading concerns in most of the great industries have orders booked to employ their machinery at nearly full capacity during months when curtailment is usual. No net reduction in working force has appeared in the last fortnight and a readjustment of wages schedules in some branches of the steel trade is affected without trouble. Prices of commodities are generally steady and holiday trade is brisk at all points. There is no cause for alarm in the small volume of new business at iron and steel centers. With the first sign of higher prices there came forward such a flood of contracts that mills and furnaces booked orders sufficient to keep their full force employed for months. Hence there has been a more quiet condition, with less bidding for products. Fortunately, quotations were not forced up unreasonably during the weeks of greatest activity, and now there is no sign of depression. Bars are more firmly held, while many idle mills have resumed in this department, and sheetmakers insist on better terms. Other forms of finished material are steady and at most points pig is unchanged, although concessions are made for Bessemer at Pittsburgh. Numerous bridges are being erected by the railroads and a heavy tonnage of structural steel is taken. Other railway supplies are in active demand, with rolling stock urgently sought. For the first time in many weeks the cereals exhibited strength. Wheat was started upward by foreign markets and prompt response here compelled covering of contracts. Western receipts were 5,825,402 bushels, against 3,901,708 bushels in the previous week and 5,233,010 bushels a year ago. Exports at the Atlantic coast cities were only 2,214,409 bushels, against 3,359,677 bushels in 1899. More strength was shown by corn, which brought receipts of 4,669,166 bushels, against 3,450,774 bushels last year, but foreign buying was brisk at quotations, 7 cents higher than last year. Atlantic exports for the week aggregating 6,336,715 bushels, against 3,703,273 bushels in 1899. Failures for the week were 207 in the United States, against 221 last year, and 25 in Canada, against 33 last year.

Twenty-Six Corpses Found.

An explosion of dynamite at the mines at San Andres de La Sierra, Mexico, killed or wounded many miners. At the latest figures 26 bodies had been recovered. Fifteen injured persons, some of whom will die, were taken from the wreckage and are in ruins as thought to contain other victims.

Absorb Impurities.

No compound of gelatine or milk should be allowed to remain uncovered, as both absorb impurities from the air. A cut onion is a genuine scavenger in the same respect, and should never be used in cooking, nor should it be eaten, after it has been cut for any length of time. If only half of a large onion has been used the other half can be safely reserved for another occasion by wrapping it securely in paper.

Hints for Tea Makers.

The properties of tea depend chiefly upon the presence of a volatile oil that acts as a powerful stimulant. The fact that this oil is volatile and easily lost is the reason why tea should never boil or remain on the leaves after they are steeped. Green and black tea are made from the same plant, the only difference lying in the ways of curing, the green tea being made by much the quicker process. For a strong cup of tea a teaspoonful to a cup of water is the usual proportion, while one teaspoonful to a pint of boiling water makes a weak cup. Very hard water should be boiled thoroughly for five or 10 minutes before it is used, so that the carbonate of lime may be separated from the water, or on the other hand, it should be steeped four minutes longer boiling point, then used before the separation commenced. Green tea should be steeped four minutes longer than either Oolong or English breakfast tea.

A Suggestion for the Cook.

Another point which the cook should know is the difference between simmering and boiling. This is readily tested with a cook's thermometer, when boiling point will be found at 212 degrees, simmering only demanding 180 degrees. Roughly speaking, it is easy to see the difference between the two. When a liquid boils at full pitch its surface will be closely covered with bubbles, and the whole surface, will, so to speak, rock and swell with the heat, in which condition it very quickly boils over. When it simmers, however, the surface of the liquid will simply ripple like a pond into which a stone has been thrown, the water keeping all the time at a gentle shiver. This rippling is called by French cooks the *sourire* or smile of the water. If you allow meat or anything that the cookery books say should be simmered to boil up and bubble, the substance in question will harden and become stringy, giving out all its goodness to the liquid in which it is cooked, said liquid being only too frequently thrown away via the sink. But if in your zeal to keep it at the side of the stove, where the liquid never reaches "smiling" point, the substance in question may heat, but it will only steep, not cook.

Lima Bean Soup—Slice one small onion and brown in two tablespoonfuls of butter and one of boiling water, one bay leaf and one coffee-cupful of Lima beans; cook until beans are tender, press through a sieve into two coffee-cupfuls of boiling milk; add one-half teaspoonful of salt; cook until it thickens.

Oatmeal and Crumb Griddlecakes—Soak a half cupful each of rolled oats and bread crumbs over night in a pint of sour milk; add a half-teaspoonful each of salt and sugar and a half-teaspoonful of soda dissolved in a tablespoonful of hot water, a beaten egg and flour enough to make a batter; bake on greased griddle and serve hot with butter.

Nut Biscuit—Put through a food-cutter sufficient shelled nuts to measure one cupful, add two-thirds of a teaspoonful of salt, two teaspoonfuls of baking powder and one tablespoonful of butter and mix to a dough with sweetmilk; turn out on a floured board, knead for a moment, and roll two-thirds of an inch thick; cut into round or square biscuits, brush the top with milk, and bake in hot oven.

Molasses Cake—One cupful each of sugar and molasses and a quarter-cup of butter warmed together over the fire. Stir until the butter is melted, remove from the fire; dissolve a half-teaspoonful of soda in a half-cup of strong coffee and add to the other ingredients; beat in two whole eggs and two cups of flour and bake in square tins in moderate oven. Eat while fresh, not hot; tear apart with a fork into squares.

Gold Mount Potatoes—Add to one quart of sifted potatoes the beaten yolks of three eggs, one-half teaspoonful of salt, one-fourth teaspoonful of paprika, one tablespoonful of grated onion, one tablespoonful of minced parsley, two tablespoonfuls of melted butter; then add the stiffly beaten whites of eggs, mold on a buttered plate, score, brush with egg and bake 20 minutes. Slip onto a hot china plate when ready to serve.

MINISTER SAVED

Rev. Henry Langford entirely cured of Nervous Prostration by Dr. Greene's Nervura Blood and Nerve Remedy.

REV. HENRY LANGFORD.

Rev. Henry Langford, the eminent Baptist divine, of Weston, W. Va., has just escaped after nervous and physical prostration. He is pastor of four churches. "For ten years," he said, "I have been nervous and growing worse all these years. During the last four or five years I became so nervous I could scarcely sign my name so it could be read. I was so nervous that I could not read my own sermon notes after they had been laid aside awhile.

"I was unable to hold my head steady in the pulpit, nor could I hold or handle my books and papers without embarrassment, owing to the trembling and weakness of my hands and arms. I was so nervous that I could scarcely feed myself. In fact, my nervous system was wrecked.

"I tried many remedies recommended by physicians, but found no permanent relief.

"One day I was in the store of R. S. Ogden, at Saratoga, W. Va., and he said to me: 'You take two bottles of Dr. Greene's Nervura blood and nerve remedy, and if you say it don't help you, you need not pay for it.'

"I took two bottles of this medicine and found so much relief that I bought two more bottles, and now I am wonderfully improved in health and in strength. Dr. Greene's Nervura blood and nerve remedy did it. I can heartily and truthfully recommend it to the sick. Too much cannot be said in praise of this splendid medicine. I say this for the good of other sufferers from nervous and prostrating diseases who can be cured by this remedy. For myself, I am thankful to God that I found Dr. Greene's Nervura blood and nerve remedy, and for what it has done for me."

DR. GREENE'S OFFER OF FREE ADVICE.
Dr. Greene, Nervura's discoverer, will give his counsel free to all who write or call upon him at his office, 35 West 14th Street, New York City. His advice is from his great skill and experience and will shorten the road to health. Thousands come to him and write to him constantly. Do not put off getting the right advice, if you are ill.

The National Magazine, Edited by Joe Mitchell Chapple.

For a year if—

your 50c. reaches us on or before January 1, 1901. Think what this means! It places the cleverest, brightest and most up-to-date magazine in your hands every month for a year for **half the regular price!**—much less than it costs to publish it. The "NATIONAL" is thoroughly American, now in its 13th volume, full of just the reading you want from cover to cover.

Timely Topics, Washington Affairs, Bright Stories, Clever Illustrations.

Over 100 pages each month. President McKinley has subscribed for and read the "NATIONAL" for years. Send your 50c. to-day—while you think of it. Subscription price \$1.00 a year after Jan. 1. Address The National Magazine, 91 Bedford St., Boston.

A large Dublin manufacturer has a room entirely furnished with Irish peat. The carpets on the floor, the curtains at the windows and paper on the wall are made from this substance. For years he has experimented with the material, which is now very largely exported as fuel, and he has discovered that from it it is possible to procure almost any kind of fabric.

There are 1,100 Chinese pupils in Queens College, Hongkong, varying in age from 9 up to 23, and many of them have family cares in the shape of a wife and children at home. Each year sees a decrease in the proportion of married schoolboys, and the average age becomes less every year.

\$3.00 W.L. DOUGLAS SHOES \$3.50 UNION MADE

The real worth of W. L. Douglas shoes is \$3.00 and \$3.50 shoes compared with other makes is \$1.00 to \$1.50. Our \$4 Gilt Edge Line cannot be equaled at any price. Over 1,000,000 satisfied wearers.

WE USE FAST COLOR EYELETS

One pair of W. L. Douglas \$3 or \$3.50 shoes will positively outwear two pairs of ordinary \$3 or \$3.50 shoes.

FACTORY, BROCKTON, MASS.

Tied Up

When the muscles feel drawn and tied up and the flesh tender, that tension is

Soreness and Stiffness

from cold or over exercise. It lasts but a short time after

St. Jacobs Oil

is applied. The cure is prompt and sure.

Dr. Bull's Cough Syrup

Cures a cough or cold at once. Coughs, croup, bronchitis, grippe and colds, 50c.

DR. BULL'S SURE CURE FOR CONSUMPTION

Cures a cough or cold at once. Coughs, croup, bronchitis, grippe and colds, 50c.

W.L. DOUGLAS SHOES \$3.50 UNION MADE
