For the Housewife

Perhaps the dining table is getting old and shaky; if so, buy her a new one. We have an elegant line at the right prices. Maybe she has some Fine China, Silverware or Linen with no particular place for it. In this event present her with a China Closet, Sideboard or Chiffonier. Perhaps she would like a Writing Desk, a Carpet Sweeper or a Stove. We have a large line of these goods at prices that will appeal to all.

The Man of the House

May have a well selected stock of books that are becoming scuffed by not having proper accommodations, in which event one of our library cases or combination secretaries would be the proper thing. If this does not suit, we would suggest one of our easy chairs or rockers, or perhaps a couch, for when he is at home he likes to "take it easy."

The Youngsters

Appreciate wagons, sleds, shewflies, hobby horses and small rockers. The Baby requires, perhaps, a cradle, high-chair, or carriage.

For The Parlor buy a full suit, odd pieces, stands or rockers.

Ordinance No. 69.

AN ORDINANCE Granting to A. J. Davis, or his successors and assigns, the right to construct, maintain and operate an Electric Street Railway Line in the Borough of Reynoldsville, County of Jefferson and State of Pennsylvania:

Be it enacted and ordained by the Burgess and town council of the Borough of Reynoldsville, and it is hereby enacted and ordained by authority of the same: Section 1. That authority be and is hereby given to A. J. Davis, or his successors and assigns, to construct, maintain and operate a double or single track street railway over, upon and along the following named street in the Borough of Reynoldsville, to-wit: On Main Street from the west end to the limits of the Borough at the east end, provided the line be extended to Big Soldier and Sykesville and to Eleanor.

Section 2. That the said A. J. Davis or his successors and assigns shall have the right to enter upon, use and occupy a reasonable and necessary portion of said streets as set forth in section one of this ordinance, for the purpose of laying and constructing tracks, maintaining and operating an electric street railway thereon for the use and accommodation of the public.

Section 3. That in constructing said railway the said A. J. Davis or his successors and assigns shall use the least amount of private property and impede the use of streets as little as possible to public travel.

Section 4. The said A. J. Davis or his successors and assigns shall lay and construct the tracks of said railway of a standard width or gauge between the rails and in such a manner that the top of the rails shall conform to the surface of the road or street on which the track or tracks is laid. The rails to be used shall be of the best quality and shall do as little damage as practicable to pavements or other vehicles in passing over said track or tracks or rails.

Section 5. All rails shall be laid to conform with the surface of the street and so much of the road or street as may be between the rails and for twelve inches on each side thereof shall be put and kept in such good repair and condition as the same may have been when the laying of the rails was commenced. In case the street or any portion thereof shall be paved from curb to curb or otherwise improved at any time during the life of this ordinance, said A. J. Davis or his successors and assigns shall forthwith pay the cost of paving or improving said street in like manner between the rails, and for one foot on the outside of rails and shall keep the same in good order and repair as the remainder of the street as kept by the borough authorities. The space between the ties and for four inches on the top of the ties shall be filled, tamped and ballasted with good suitable gravel. The ballast in the center of the track shall be made up with the top of the rails and to the outside of all rails there shall be placed and kept sound white oak plank six inches wide and not less than three inches in thickness, firmly spiked to wedge-shaped blocks secured to all ties in such manner as to make an easy grade from the road or street to the top of the rails or track and at such an angle as the borough council may approve. Also all cross walks shall be kept in good order and repair at all times as may be directed by the town council.

Section 6. That the said A. J. Davis or his successors and assigns shall be and is authorized to have the right to decide where the track or tracks shall be laid in the center of the street or on either side of the street, which information shall be communicated to A. J. Davis or his successors and assigns within five days after a written request for such information has been filed with the Burgess of said Borough.

Section 7. That said A. J. Davis or his successors and assigns shall fully indemnify the Borough of Reynoldsville for all damages and costs which may be occasioned by carelessness of his or their employees in constructing, maintaining or operating said electric railway and in case of a suit against the Borough said A. J. Davis or his successors and assigns shall appear and defend the same when notified of such action or suit by the Burgess of the Borough. That if the said A. J. Davis or his successors and assigns shall at any time after the construction of said railway cease to operate the same and to run cars thereon for a period of three months at any one time, (except for unavoidable causes and necessary delays for repairs and alterations) then the said A. J. Davis or his successors and assigns shall forfeit the rights herein granted and shall remove said tracks and put the street in the same good condition and repair as possible as before, should the Borough council by ordinance so enact and upon default thereof the Borough authorities shall do the same at the expense of said A. J. Davis or his successors and assigns. That this ordinance shall be binding on the above named street for a period of ninety-nine years.

Section 8. That the said A. J. Davis or his successors and assigns, in consideration of this ordinance shall erect on and along the above named street herein named through the Borough of Reynoldsville at intervals of not more than 30 feet such lights as may be necessary to properly light the business of said street railway within the Borough limits and at such places as may be jointly agreed by the said A. J. Davis his successors and assigns and the Borough Council. That the said A. J. Davis, his successors and assigns, shall erect, maintain and operate a street passenger railway along said Main street as mentioned, within one year from the date of this ordinance, and from said eastern Borough line, to Rathmel, Big Soldier, Sykesville and Eleanor, Pa., within two years from the date hereof.

Section 9. That the said A. J. Davis or his successors and assigns shall have the right at all times to properly light the United States mail, receive, carry and deliver express packages, baggage and freight within the Borough herein mentioned.

Section 10. That in good faith shall commence and be completed one year from the date of this ordinance on said railway in the Borough of Reynoldsville and the railway from the said eastern line of said Borough to Rathmel, Big Soldier, Sykesville and Eleanor, shall be fully completed within two years from the date of this ordinance.

Section 11. In case the said railway is not completed within the time specified herein, then and in that case this ordinance and the franchise hereby granted, shall, at the option of the said Borough, be considered forfeited and become null and void of no effect. Ordained and enacted this 30th day of December, A. D. 1900. H. C. DEBLE, President.

L. J. McESTER, Secretary. Approved this 5th day of December, A. D. 1900. C. MITCHELL, Chief Burgess.
