Letter to Dr. S. Reynolds.

Reynoldsville, Pa.

Dear Sir: For your house, no matter what is the matter with it—it isn't human you know—a prescription:

Devce lead and zinc. Apply with a brush, from one to three coats—get a painter to do it.

Your state chemist knows all about DeVoe; has analyzed it; reports it pure; will analyze it occasionally. He buys it wherever he likes—it is generally in the best paint-store in town.

You know what the color and dryer are for; do you know what the lead and zinc and oil are for? Not being a painter, you may not choose to know; but we'll tell you.

Lead and zinc and oil combine to form a rubbery, waterproof coat to keep out dampness. That's the whole business.

The oil would do it alone; lead and oil would do it without the zinc; zinc and oil without the lead; but the three together are best because they wear best.

We say to you, "get a painter," as we'd say to him "get a doctor"—every man to his trade. Can't all be painters and doctors; don't want to.

You will be more successful in a prosperous looking house and he in good health. Take good care of one another.

Yours truly,
F. W. DEVOE & Co.
