

Stops Tickling

All serious lung troubles begin with a tickling in the throat. You can stop this at first in a single night; a dose at bedtime puts the throat at complete rest.

Ayer's Cherry Pectoral

The cure is so easy now, it's astonishing any one should run the risk of pneumonia and consumption, isn't it? For asthma, croup, whooping-cough, bronchitis, consumption, hard colds, and for coughs of all kinds, Ayer's Cherry Pectoral has been the one great family medicine for sixty years.

Recently an institution was opened in Belgium for the alleged cure of tuberculosis by the exclusive raw meat diet. After a trial of a few months the experiment was abandoned, as it was found that there was no efficacy in the Richet cure.

There Is a Class of People

Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new preparation called GRAIN-O, made of pure grains, that takes the place of coffee. The most delicate stomach receives it without distress, and but few can tell it from coffee. It does not cost over 1/2 as much. Children may drink it with great benefit. 15 cts. and 25 cts. per package. Try it. Ask for GRAIN-O.

Iowa almost from the date of its admission has been called the "Hawkeye State." Hawkeye was the name of a noted Indian chief, who, in the early days, caused no little trouble along the western border of American civilization.

Lane's Family Medicine

Sand Grass—Its Uses.

For many years the government at Washington has, through the bureau of agriculture, been investigating the nature of sand grasses. It has learned what other countries have accomplished with them. It has brought specimens from all lands and gathered them by the hundreds, representing every known variety growing wild in this country. It has studied their nature and habits, experimented with them under all possible conditions, and finally it has made a number of trial plantings in the sandy regions along the shores of Massachusetts, California and Florida. Other nations with greater deserts of sand in their territory than those of this country are watching the progress of these experiments. If they prove successful we may expect to see a gradual disappearance of such places in Europe which have for centuries stood as almost insurmountable barriers to the progress of civilization.—Pex. son's Magazine.

REVIEW OF TRADE.	
------------------	--

Good Reports on Business are Now Coming In—Broadstreets and Dunn Consider the Outlook Most Satisfactory.

R. G. Dun & Co.'s "Weekly Review of Trade" says: In most directions the condition of general business has improved slightly this week. Prices of staple commodities are steady, as are most manufactured goods. Orders to manufacturers are sustained in volume, and that pronounced easy money in the interior is still stimulating business is shown by bank exchanges at leading cities outside New York. Retail trade has not declined as much as usual since the holidays. Steadiness is the chief characteristic of the iron and steel industry. There is a notable lack of new contracts covering large operations, but many small orders are placed, and mills are well occupied on old business that in most cases will take months to complete, even if nothing further offers. On this account there is no urgency about securing orders and no concessions are made by leading concerns. Export inquiries are fewer, but manufacturers exhibit no concern on this point. Work is so vigorously prosecuted at the furnaces that demand for fuel increases and coke production in the Connellsville region expands. There is still some uncertainty regarding the proposed tube and sheet plants, and action by the Carnegie Company is awaited with interest. Failures for the week were 325 in the United States, against 242 last year, and 43 in Canada, against 40 last year.

Broadstreets says: Southern trade continues as a whole fair to good, and the outlook is regarded as a cheerful one. Another "readjustment" of refined sugar rates has occurred, with the result of a decrease of 10 cents per hundred pounds in the price of granulated. It has been a week of ebbing strength in the cereals. Argentine reports display an India rubber consistency, and this week has been devoted to stretching estimates of the export surplus from that country. Northwest wheat receipts have also been heavy, and the so-called Wall Street interest has been reported to have been liquidating. Corn receipts are also heavier and prices are lower, partly also in sympathy with the decline in wheat, which is now 4 cents off from the top of the January rise. Flour is dull, but the decline of 10 to 20 cents per barrel has tended to help export business.

Rebellion Fading Out.
Gen. MacArthur Monday cabled from Manila as follows: "Delgado, commander in chief of Hoilo, Panay province, surrendered to Brig. Gen. Robert P. Hughes with four officers, 21 men, 14 rifles. His command much scattered. Other surrenders expected during next few days; important; signifies end organized armed resistance in Hoilo province."

Military officials at Manila are becoming confident that the end of the insurrection is approaching.

THE DUTY OF MOTHERS.

What suffering frequently results from a mother's ignorance; or more frequently from a mother's neglect to properly instruct her daughter!

Tradition says "women must suffer," and young women are so taught. There is a little truth and a great deal of exaggeration in this. If a young woman suffers severely she needs treatment, and her mother should see that she gets it.

Many mothers hesitate to take their daughters to a physician for examination; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham and secure the most efficient advice without charge. Mrs. Pinkham's address is Lynn, Mass.

Mrs. August Pfalgraf, of South Byron, Wis., mother of the young lady whose portrait we here publish, wrote Mrs. Pinkham in January, 1899, saying her daughter had suffered for two years with irregular menstruation—had headache all the time, and pain in her side, feet swell, and was generally miserable. Mrs. Pinkham promptly replied with advice, and under date of March, 1899, the mother writes again that Lydia E. Pinkham's Vegetable Compound cured her daughter of all pains and irregularity.

Nothing in the world equals Mrs. Pinkham's great medicine for regulating woman's peculiar monthly troubles.

In June, 1900, the largest number of marriage licenses on record for any month in Chicago were issued—2,150.

NERVOUS WOMEN

THE ceaseless drudgery of household cares is more than the strongest man could endure, and it is no wonder that women show the effects of work and worry.

Thousands of women in offices, shops, and factories break down in health under the strain and become weak, tired, nervous, and debilitated, tortured with female complaints, or racked by headache, neuralgia, backache, and kidney trouble.

Here lies the great strain upon the nervous systems of women. They have little or no rest; their life is one continual round of work, duties here, duties there, duties without number. What wonder that such women go to bed at night fatigued, and wake tired and unrefreshed in the morning!

What women need is that great strengthener and invigorator of womankind, Dr. Greene's Nervura blood and nerve remedy—that remedy which rebuilds health and strength, purifies and enriches the blood, gives strength and vigor to the nerves, and the strong vitality and energy to the system which will enable women to do their work and yet keep strong and well. It is this great medicine they need. Nothing else in the world can do its work.

MRS. M. D. PERKINS, of 100 G St., So. Boston, Mass., says:
"I was completely run down and could not eat, for the sight of food made me sick. I did not sleep at night and was as tired in the morning as when I retired at night. My head and back ached all the time. I was completely exhausted if I tried to do my housework, and could not walk without being dizzy. I was excessively nervous and very weak."

"Then I began to take Dr. Greene's Nervura blood and nerve remedy, and I cannot say enough in its praise. I have not felt so well for years as I do at the present time, thanks to this splendid remedy."

"I can now eat and sleep soundly, waking mornings strong and refreshed. I do my housework, which is now a pleasure instead of a burden as formerly. My weight has increased about twelve pounds in the last two months. I would recommend any one afflicted as I have been to use this wonderful remedy."

Dr. Greene Will Advise You Without Charge.

The benefit of Dr. Greene's special advice is at the disposal of every sick woman, and it is well to write for it. Send for Dr. Greene's special advice in all cases, and no charge.
