

THE REALM OF FASHION.

New York City. — Whatever other garments may come and go the useful jacket is always in style, always in demand. The smart May Manton model

WOMAN'S JACKET.

shown includes all the latest features and is absolutely up-to-date. As illustrated it is of smooth-faced castor colored cloth, the revers and collar faced with white and banded with narrow black braid showing threads of gold.

The fronts of the jacket are fitted with single darts, and can be turned back to the waist line, making long, tapering revers, buttoned and turned back from the neck as shown in the small cut, or closed to the throat in Russian style as preferred. The backs include a centre seam and side-backs, and are joined to the fronts by means of under-arm gores. The sleeves are in bell style, and the neck is finished with the Afghan collar. The model is closed by means of small buttons and loops, but buttons and buttonholes can be substituted, if desired.

To cut this jacket for a woman of

inches wide, will be required, with three-quarter yard thirty-two or forty-four inches wide for plastron, collar and undersleeves.

Velvet-Topped Slippers.

Fascinating as well as fashionable is the little velvet slipper for house wear. It has a dangerously high heel, to set forth the beauty of an Andalusian instep. It has a flap which runs quite high, higher, indeed, than is necessary, over the instep. Velvet will stretch, and so the slipper is rounded out with points of patent leather at the toe and around the heel. The buckles used with velvet-topped slippers are rather large. Neither jet nor gilt nor rhinestone buckles are used with these. The silver buckle, looking as old-fashioned as possible, and called "Colonial," is preferred to any other decoration.

Evening Gowns For Girls.

Dance gowns for unmarried girls are to be worn shorter, but the more elaborate the gown the longer are the folds which take the place of the pointed train. Many flounces are popular, and satin is made with the shaped flounce much corded at the edge. Cordings, heavily massed or in groups of graduated width, are seen on silk skirts, but for evening wear fussy little frills are much more effective.

Three-Quarter Coats.

Three-quarter coats will enjoy a short lease of popularity for pleasant days. Their extreme plainness is rather trying to most figures, but the tailors manage to relieve this by cutting the revers rather broad, which breaks up the straight lines.

Infant's Long Dress.

Every mother takes delight in fashioning her baby's clothes. The charming little gown illustrated is simple of construction, at the same time that it is in every way adequate to the little

GIRL'S COSTUME.

medium size two and five-eighths yards of material forty-four inches wide, or two yards fifty inches wide, will be required.

Girl's Costume.

The open blouse and the tucked skirt combine to make as charming a little girl's costume as can be devised. The very excellent May Mantion model illustrated in the large drawing combines all the latest features and is universally becoming. As shown, the material is foudle cloth in Russian blue, with trimming of darker blue velvet, full vest and undersleeves of dotted silk, but Henrietta, cashmere and all light-weight wool fabrics are equally suitable, and color can be varied again and again. The pleated skirt has many advantages that are all its own. Being stitched flat it fits snugly at the upper portion, yet falls in ample folds at the feet and allows perfect freedom for young limbs. The foundation is a fitted lining that closes at the centre front. On it are arranged the back, the fronts and the full plastron. The back is smooth across the shoulders and drawn down in gathers at the waist line. The full plastron is attached permanently to the right lining front and hooked over onto the left. The fronts are smooth across the shoulders, but full at the waist, and are extended to form pointed revers. The right front edge is tucked over the full plastron, the left is hooked invisibly into place. The sleeves are double, and include the fashionable Paquin cuffs, which are attached to the lining, while the upper portions, turned back to form revers, are slipped over the whole.

To cut this costume for a girl of years of age four and three-quarters of material twenty-one inches wide, three and seven-eighths yards of material twenty-one inches wide, or three and seven-eighths yards forty-four

one's needs. As shown it is of French unalook, with trimming and yoke of fine needlework, but the same material of English make, Persian lawn, India linen, dimity and a host of other dainty white fabrics are suitable. The yoke can be made from tucking, all-over lace or needlework, the trimming can be lace or embroidery, as preferred, or flannel gowns can be finished with a simple hem or frill with fine tucks above.

The yoke can be square, round or pointed. The skirt is simply straight and full, the correct outline being indicated at the top for the application of all three yokes. The sleeves are in bishop style, with tiny folds at the hands, and the neck can be finished with a standing or turn-over frill, as preferred.

To cut this dress two and three-eighths yards of material thirty-six inches wide will be required, with one-quarter yard of all-over tucking

INFANT'S LONG DRESS.

or needlework, four yards of insertion, and three yards of wide needlework edging and one yard of narrow to trim as illustrated.

Yale and Harvard universities are negotiating with Cambridge and Oxford for an international athletic contest to take place in America.

It requires no experience to dye with PUTNAM FADELESS DYES. Simply boiling your goods in the dye is all that is necessary.

Salmon fry in Oregon are fed on canned heads and tails of salmon till they are old enough to be planted in the rivers.

WHEN WRINKLES COME.

Departing HEALTH and BEAUTY Called Back by

Dr. Greene's Nervura

and fascinate. It is within your power to do so, for it is within every woman's power to be well and strong, and hence look her best, if she will use Dr. Greene's Nervura to give her strong, vigorous nerves, pure, rich blood, a clear complexion, and thus restore the energies and vitality of sound and perfect health.

Good health means youthful good looks to every woman. and it behooves women to restore and maintain their health by taking that greatest and best of all health restoratives, Dr. Greene's Nervura blood and nerve remedy. It will build up the health, cleanse and purify the complexion, restore brilliancy to the eye, make rich, red blood and strong, steady, and vigorous nerves. Dr. Greene's Nervura will make you look and feel young and restore your energies, vivacity, and enjoyment of life.

MRS. KATE AUSTIN, 40 Jenny Lind Ave., Somerville, Mass., says:

"I had a pain in my side for seventeen years. I also suffered with terrible headache and neuralgia; such an awful headache, and I had not a bit of appetite. I cried with pain from womb trouble, and was as pale as a ghost. I was terribly nervous. I could not sleep for a long time, and had rheumatism in my shoulder and arm. I suffered everything; nobody but God knows how I suffered. I weighed 128 pounds. A friend recommended Dr. Greene's Nervura blood and nerve remedy, and I commenced to take it. I was so weak and run down that the first bottle did not do me much good, but I kept on, and the second bottle did me good and I began to gain. After taking the Nervura I never had a pain in my side, nor any headache, and I sleep well and have a good appetite. I don't believe there is any medicine in the world so good as Dr. Greene's Nervura. It did me good right off and I have had no return of my womb trouble. I had leucorrhoea, but since taking Nervura that has disappeared. I feel strong, and last summer was able to do the work for fourteen in a family, and I weigh 163 pounds. I was so weak before, nobody knows how I worked, but I had to work for my children. I sent two bottles of Nervura to my brother in Nova Scotia, and it did him lots of good. I recommend Dr. Greene's Nervura to every one."

Women have absolute confidence in Dr. Greene's Nervura, more so than in any other remedy, because it is purely vegetable and a famous regular physician prepares it, which is a guarantee that it is perfectly adapted to cure. As an additional assurance of cure, Dr. Greene, 35 W. 14th St., New York City, gives you the privilege of consulting him without charge or cost, either by calling or writing about your case.

YOUR mirror will tell you the bitter truth. Healthy women look younger than their age, but you look far too old for your years.

Time deals lightly with the woman in good health, but the wasting hand of sickness and disease spares neither your youthful looks, beauty, nor complexion.

The Creator has endowed every woman with beauty, and every woman in good health is beautiful and comely to look upon. A clear, fresh, wholesome look is the result of the possession of good health, and no woman can be beautiful and attractive without good health. The dull, dead, gnawing pain, the sense of nervousness, weakness, oppression, and discouragement, the tired, listless, languid feeling, the shooting pains, the aching head, the pain in the back, all these are symptoms of a disordered system, and all these are beauty-killers, producers of dull leaden complexions, unnatural flushings, dark circles under the eyes, humors, eruptions, blackheads, listless eyes, and other disfigurements which divest women of their natural gift of beauty.

Why be homely when you can be beautiful and attractive? Get good health and with it those looks and attributes which attract, please, and good health and with it those looks and attributes which attract, please, and good health and with it those looks and attributes which attract, please.
