CAPTAIN OF FIRE DEPT.

Capt. H. H. Thomson Advises the Use of Dr. Greene's Nervura.

This Wonderful Body Builder and Strength Re-storer Should Be Used Now.

CAPT. H. H. THOMSON OF MINNEAPOLIS FIRE DEPT.

No occupation in the world requires more perfect nerve force and physical strength than is demanded of its members by a modern fire department. The members of this branch of the public service must be ready at all hours of the day or night, and in all degrees of heat, cold or exposure, to answer the call of the public, and protect life and property. At all times they must have bodily strength and a clear brain. Without this we would never hear of the wonderful feats of bravery and rescue performed by them. Nothing in the world will build up strength like Dr. Greene's Nervura blood and nerve remedy. Captain Thomson's strong statement, which we publish herewith, carries weight, and is echoed everywhere by those who rely on Dr. Greene's Nervura blood and nerve remedy, when disease attacks them, or they get run down in health which is so easy at this season of the year. There is no medicine in the world which will ward off attacks of the fatal grip, which is now so prevalent, and there is nothing which will drive it away so quickly or reinvigorate the body as well after the grip, as this famous remedy. Captain Thomson, whose address is 2406 Lincoln St., North East, Minneapolis, Minn., says:

"I am a great believer in the wonderful curative powers of Dr.

"I am a great believer in the wonderful curative powers of Dr. Greene's Nervura Blood and Nerve Remedy. It has been used in my house for years as a body builder, strength restorer and general family medicine. It never fails to give beneficial results. It strengthens the nerves and purifies the blood. As a health builder, I believe there is no medicine equal to Dr. Greene's Nervura Blood and Nerve Remedy."

Remember that Dr. Greene's Nervura Blood and Nerve Remedy is the prescription of a regular physician. Dr. Greene, who can be consulted absolutely free of charge either by mail or calling at his office, 35 W. 14th St., New York City. Consultation is absolutely free of charge. If you cannot call upon him at his office, write him a letter, telling all about your case, and you can be treated just as well at home as if you called in person. Remember his ad-ice is absolutely free.

Silence Reigns Supreme.

The most lonely highlands of our national territory are the sparsely wooded Sierras of Western New Mexico. The clank of the wood-cutters' ax echoes through the steepest glens of the European Alps and Southern Alleghanies, but in the Sierra Mesilla. west of El Paso, there are valleys where the moan of the wind in the branches of the rock pines is the only sound heard for days together. A kind of marmot is the only habitant of these solitudes, and rarely leaves its burrows before noon. Birds are extremely rare, though a silent vulture now and then floats across the sky, on its way to the cave labyrinth of the Gila valley.—Indianapolis Press.

There is a Class of People
Who are injured by the use of coffee. Recently
there has been placed in all the grocery stores
a new preparation called Ghain-O, made of
pure grains, that takes the place of coffee
The most delicate stomach receives it without
distress, and but few can tellit from coffee. It
does not cost over 1/4 as much. Children may
drink it with great benefit. 15 cts. and 25 cts.
per package. Try it. Ask for Ghain-O.

Decision has been rendered by the Iowa supreme court to the effect that a stock feeder who buys stock to feed and sell is not a merchant within the meaning of the code and cannot be as-sessed for taxation purposes in the same way that a merchant would be assessed. The case came up on an appeal, the lower court having held a contrary

A new law in New Hampshire pro-hibits the holding of property in that State by game clubs which are not lo-cally incorporated. It also provides that the State shall hold in trust for pub-lic use all natural bodies of water having an area of 15 acres or more.

f.anc's Family Medicine

Moves the bowels each day. In order to
be healthy this is necessary. Acts gently on
the liver and kidneys. Cures sick headache.
Price 25 and 50 cents.

Berrien county, Mich., on the record of 1900, claims to be the greatest peach-growing section in the world. The number of acres cultivated last year was 4.753 and the total yield of peaches was 140,092 bushels, being more than half the entire Michigan crop. Van Buren county came next, with 58,887 bushels.

A CHEERFUL OUTLOOK.

Better Foreign Demands for Our Breadstuffs Sent Export Business Up-Encouraging Reports From Retail Business.

Bradstreet's review says: Trade advices are rather more cheerful. This applies as much to current retail business, which has been enlarged by winter weather, as it does to spring trade, which finds stimulation in the general confidence felt as to the outlook for the coming year. Prices show exceptional strength, all things considered. Foreign demand for our breadstuffs been rather better, and this is reflected in heavy exports, particularly of corn. Specially cheerful reports come from the shoe and leather, the lumber and the the shoe and leather, the lumber and the iron trades, the strength of prices of the latter having been increased by the talk of pending consolidations, although the volume of business is restricted from the same cause. Failures are smaller than of late and current railroad earnings show large gains over good re-

turns of a year ago.

Boots and shoes are in rather better demand at all markets. Retail distribution of these and of rubber goods has been helped by current weather conditions. Good spring orders are reported at most markets. Despite the check to new business given by the talk of con-solidation a fair volume of trade is doing at all leading iron markets, and the ad-vances noted in these columns last week

are firmly held. Wheat, including flour, shipments for the week, aggregates 4.814.878 bushels, against 4.997.813 last week, 3.834.009 in the corresponding week of 1900, 2.454.771 in 1899 and 3.832.744 in 1898. From July 1 to date this season wheat expor-are 125,790,374 bushels, against 126,855. 361 last season and 159,055,930 in 1898-99. Corn exports for the week aggregate 4,760,422 bushels, against 4,171,440 (corrected) last week, 3,490,335 in this week a year ago, 1,560,845 in 1899 and 5,056,575 in 1898. From July 1 to date this season corn exports are 124,704,300 bushels, against 136,187,100 last season

and 104,840,115 in 1898-00.
Failures for the week in the United States number 226, as against 250 last week, 100 in this week a year ago, 160 in week, 109 in this week a year ago, 100 in 1899, 265 in 1898 and 325 in 1897. Canadian failures numbered 39, against 34 last week, 35 in this week a year ago, 20 in 1890, 38 in 1808 and 58 in 1807.

R. G. Dun & Co.'s Weekly Review says: News regarding the textile manufacture is less encouraging, despite the fact that calls of seal of the course.

fact that sales of wool at the three Eastern markets rose to 6.972.60. pounds, far exceeding all recent records, and showing a gain of 960,600 pounds over the same week last year. It was et this time in 1900 that the movement commenced to fall off and the depression began which has continued ever since.

Charles Carroll Mann, aged 72 years, a retired stock broker and Democratic politician of Philadelphia. Pa, committed suicide by shooting himself in the head. He had been in ill heath.

THE EDICTS OF FASHION.

New York City.—Simple, full waists are very generally becoming, and always mean a certain air of smartness, The May Manton bebe model illus-

WOMAN'S BEBE WAIST.

trated is adapted to all thin, diaphanous fabrics, to light-weight woolen materials and all soft, pliable silks. As shown, it is of dotted silk mull in pale pastel pink with edge and trim-mings of black velvet, and is made with low neck and short sleeves, but it can be made high and with long sleeves, as shown in the sketch, or with a separate guimpe, if so preferred. The advantages of a gown that can be made decollete or high by simply wearing or omitting a guimpe

medium size seven and three-quarta-yards of material twenty-one mohe-wide, or three and a half yards fifty. inches wide, will be required.

Walstcoats Are Much in Vogue. For visiting frocks and at-home toflets waistcoats are much in vogue. They are made without basques just like a man's waistcoat, but outlined more closely to the figure. They are built double or single breasted, and terminate exactly at the line of the waist, passing over the waistband of the skirt, which they conceal. They are made of velvet, cloth or satin, and are either of white or some light tone.

Jeweled Brooches. Jeweled brooches seem to have found some really practical excuse for their existence and are used to fasten collarbands at the back, to hold up stray locks of hair, and to fasten dainty little boleros in front. The fashion of pinning them on just anywhere entirely for show has passed with many other fads and fancies.

Pretty New Muslins.

Some of the pretty new muslins are printed in all-over designs with medallion effects, while other cotton fabrics show both cashmere designs and colors. As for the new batists they are prettier than ever, especially the embroidered varieties.

A Parisian Fad.

Writing with white ink on blue paper is said to be one of the ultra fashionable fads in Paris.

Woman's Shirt Waist.

The smartest, most fashionable shirt waists for morning wear are simple in the extreme, and somewhat severe. The attractive and serviceable May

EVENING WRAP.

it is worn the waist is suited to daytime wear, when it is omitted it be- all cotton and linen stuffs, for wash sleeves when added are exceedingly effective.

The foundation for the waist is a fitted lining that closes at the centre front. The short sleeves are slightly full at the outside of the arm, and are held by ribbon bands bowed at the lower edges. The bare sleeves fit smoothly and snugly to the wrists, flaring over the hands. When a guimpe is desired it is necessary to use an extra lining, facing with lace or other yoking to the line of the low neck, the full length sleeves being made to match the voke.

To cut this waist for a woman of medium size three and five eighth yards of material twenty-one inches wide, two and five-eighth yards thirty-two inches wide, or one and seven-eighth yards forty-four inches wide, will be required, with two and an eighth yards eighteen inches wide for voke and sleeves, or four and a half yards twenty-one inches wide, three and an eighth yards thirty-two inches wide, or two and five-eighth yards forty-four inches wide, with high neck and long sleeves when one material only is

Woman's Evening Wrap.

No wrap for evening wear is more thoroughly satisfactory than the ample cape. It slips on and off with ease. It is essentially comfortable, and it rumples the gown as little as any gar ment that has ever been devised. The May Manton model Illustrated in the large drawing combines all essential practical features. It is simple in form; it falls with sufficient ease and fulness to make fine folds, yet is not over full; it includes a generous hood, that can be drawn over the head or allowed to fall over the shouldders as occasion may demand; withal, it is elegant and emineutly smart. The original is made of satin-faced cloth in pale turquoise blue, and is trimmed with an applique of white, outlined with a silver thread, and lined with white peau de sole.

The cape is cut in two pieces, with 2 seam at the centre back. The hood is simply round and fell, drawn up to To cut this wrap for a woman of quired.

are fully known and recognized. When | Manton model shown includes all the latest features, and is adaptable for comes an evening bodice, and the short silks, for taffeta and fine Scotch and sleeves when added are exceedingly French fiannel. As illustrated, it is of mercerized Madras in dull blue and white, and is worn with a white collar, black tie and belt, and is unlined, but made from taffeta or fiannel will be found more satisfactory made over the fitted foundation.

The lining is cut with fronts and backs only, and is fitted with single darts, under-arm and centre-back seams. The back proper is smooth across the shoulders, with scant fulness drawn down in gathers at the waist line. The fronts are gathered at the neck and at waist line, where the waist blouses slightly at the centre. The front edge is finished with the regulation box pleat, and the closing can be accomplished by means of studs or buttonholes, as preferred. The sleeves are in bishop style, with narrow, pointed cuffs that lap and close on the upper side. The neck is finished with a high turn-over collar.

To cut this waist for a woman of medium size three and five-eighth yards of material twenty-one inches wide,

A SMART SHIRT WAIST.

form a occoming frill. The neck is three and a half yards twenty seven finished with a high storm collar, inches wide, two and a half yards which can be omitted, if desired, the thirty-two inches wide, or two yards od alone making a sufficient finish. | forty-four inches wide, will be re-
