# BEST SPRING MEDICINE.

## The Palm Given to Dr. Greene's Nervura.

### That Grand Jury, the People, Have So Decided.

Used by Hundreds of Thousands in Spring as a Blood Medicine.

Dr. Greene's Nervura blood and nerve remedy is indeed "The .. orld's Great Spring Medicine. It has come to be recognized by almost every oody as the best possible spring medicine to take, and hundreds of thousands of our people use it during the trying spring months, to tone up anew the relaxed nerves and re-invigorate and enrich the blood.

A spring medicine is a necessity if one wishes to keep in perfect health and vigor during the changes from winter to summer. This grand spring tonic, this perfect spring medicine, Dr. Greene's Nervura blood and nerve remedy, is exactly what the system needs at this season. It not only purifies, but makes rich, red blood; it not only strengthens and invigorates the nervous system, but re-energizes and revitalizes the nerves by feeding them with renewed nerve force and power. It is not only an aid to digestion, but it creates a regular, natural and healthy action of the bowels, liver, kidneys, which in the spring are always sluggish and inactive.

In fact, it is just what people need to make them well and keep them well during these months, so threatening to the health of all, and waen it is considered that Dr. Greene's Nervura blood and nerve remedy is made entirely from pure, health-giving vegetable remedies, and that people give it more testimonia. of cure than any other remedy on earth, no one can doubt that it is the very best spring remedy for everybody to use.

Mr. Gustave Lelbuch, of 337 First street, Jersey City, N. J., says:-

"I was troubled with sic! headaches, and could not sleep on account of the pains in my head. I was suffering night and day with dyspepsia, could not eat anything, my stomach would sour so. I had to starve myself to have any ease. I had to give up work at last, I was so nervous and miserable, and I was falling away in flesh so that my friends hardly knew me. I tried several remedies, but without avail. At last someone recommended Dr. Greene's Nervura blood and nove remedy. I tried one bottle - d began to improve. I started in to eat all right; then I picked up my health; my headaches disappeared, and my weakness and sour stomach went away. I used three bottles, and could sleep all night with ease; I used six rottles, and felt like a new man. I can now do a hard day's work without any trouble, and I am as happy . - a bird in spring, I was so miserable, always curiering, always

in pain, but now , am like a new man." Use Dr. Greene's Nervura blood and nerve remedy this opring, for it is the discovery and prescription of a wellknown physician, Dr. Greene, of 35 W. 14th St., New lork City, who is responsible for its beneficial action, and who can be consulted free of charge, pers in if it by letter.

## Fresh Embroyo Makes Old Wheat Grow.

The statement has frequently been made that it is possible to cause grains of wheat found in ancient Egyptian sepulchers to germinate and grow. This statement has been disputed, and the question was discussed at a recent meeting of the French Academy of Sciences ing of the French Academy of Sciences. It was shown that while the albumen of wheat found in a tomb 6,000 years old had undergone no alteration, the embryo was changed and could not be caused to germinate. But a fresh embryo placed in the ancient albumen would grow, and this fact, it was said, probably accounted for the statement that the old Egyptian wheat rescued from its long entombment would sprout and grow.—Youth's Companion,

There are only four statues in the United Kingdom erected to the memory of women other than royalties. The first staine of a women erected in England was that of Sister Dora, the Wal sall nurse; the second was that of Mrs Siddons, the third Flora Macdonald and the fourth that unveiled at Duncon a year or two ago in memory of Burns' "Highland Mary."

## There Is a Class of People

Who are injured by the use of People Recently there has been placed in all the grocery stores a new preparation call-1 Ghans-O, made of pure grains, that takes the place of coffee The most delicate stomach receives it without distress, and but few can tellit from coffee. It does not cost over \$\frac{1}{2}\sim \text{min}\$ and but few can tellit from coffee. It does not cost over \$\frac{1}{2}\sim \text{min}\$ are much. Children may drink it with great benefit. 15 cts. and 25 cts per package. Try it. Ask for Ghain-O.

Sistergville, W. Va., which is in a rich oil and gas country, got its name from the fact that an apparently valueless tract of 1,500 acres was given to seven sisters, and consequently called "sisters' farm." A little prospecting showed the land to be immensely valuable, and a growing town of some thousands of in-habitants now occupies the farm.

Coughing s.ende to Consumption.

Eemp's Balsam will stop the cough at once. Go to your drugglat to-day and get a sample bottle free. Sold in 25 and 50 cent bottles. Go at once, delays are deargorous.

Cattlemen in South Dakota are generally agreed that it is time to abandon the present method of branding cattle as cruel. In New Zealand they have a composition which is used to make an usily distinguishable mark. It is applied with a cold iron, destroying the cor hide, but not causing pain to anir at.

### FARM TOPICS

Cingification of Milk.

The clarification of milk is the removal of impurities from milk by the use of the centrifugal separator. The separator is so adjusted that the spouts empty into one vat, where the cream and skimmlik are mixed before bot-

Geinding Feed For Hogs. It may not pay to grind very coarse grains, but if wheat, rye, barley, buckwheat and oats are used, they can be run through a feed mill with profit. If this is not done, the digestion is incomplete and a considerable percent age of the feeding value lost,

Effect of Pastenrizing Cream. After cream has been Pasteurized we must remember that all ferments, the desirable as well as the undesirable, have been destroyed. Unless pure cultures of the desired bacteria are then introduced, the resulting butter will be flat, insipld and worthless,

Cream a Better Food Than Butter. Cream is better food than butter, as It contains from twenty-two to twentyfive per cent, of butter fat with the addition of that lost as buttermilk in churning. It is a more complete food than butter and is always palatable. Butter is carbonaceous, and the real nutrition, that which renews the bones, nerves, tissues, etc., is left in the milk.

Causes of Tainted Milk.

Some of the causes of tainted milk are poor, decayed fodder, dirty water, whether used for drinking or the washing of utensils, foul air in the cow stable or cows lying in their manure, lack of cleanliness in milking, neglecting to nir the milk rapidly directly after milking, lack of cleanliness in care of the milk, from which cause the greater number of milk taints arise, mixing fresh and old milk in the same cans and rusty tin palls and cans.

Making a Farm Pay.

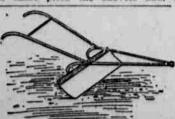

When a farmer can invest \$2000 in a farm and make a living he will have done well if he has \$200 at the end of the year in cash, or in the form of increase of stock, as the \$200 represents' ten per cent. dividend or interest on his investment. In supporting his family and paying all expenses he reimburses himself for his labor. There are many farmers who claim that farming does not pay, but who, if they will consider the investment and keep account with the farm, will find that they derive more, in proportion to capital and labor invested, than do many who are engaged in other occupations.

Management of the Deaf Horse.

Many old horses are slow to obey when spoken to, and sometimes act exactly contrary to orders. Their drivers generally attribute it to laziness or a mulish disposition. Nine times out of ten the actions are caused by deafness. It will cause a horse that is naturally well disposed to act like a stubborn beast. Moreover, unless the driver knows of the allment and uses good judgment the horse is liable to become vicious in some way through inability to understand orders. Such animals should be governed almost entirely by the reins. They soon learn to stop at a steady pull of the reins or start at a succession of jerks.

When through using the brooder for the season, scrape it out thoroughly and wash it inside and out with good hot soapsuds, to which add a little kerosene. Use a scrubbing brush and make it clean. Then go over it again with clean, hot, soapy water, and finish off with a cloth, wiping the boards dry. Wash the hover felts and make the whole clean. If a hot air brooder, remove the heater and clean out the hot air chamber. Turn it upside down and brush the sheet iron free of soot. To keep the iron from rusting apply a thin cont of linseed oil. Leave it open in the sun and let it dry thoroughly before you put it away. Put all the parts in place. Clean the lamp and do not leave oil in it, but wrap it up in newspapers to keep it free from dust. If it is a tin lamp, scrape the blistered paint out of the water pan, make it clean and dry, and then give the pan a fresh coat of good waterproof paint. In a week give it another cont. If these little things are attended to you will have a good clean brooder to use when needed, and you will also save money. -Otto Irwin, in The Epitomist.

A Useful Grader. The one-horse scraper illustrated is easily made, at little cost. Take an old iron frame, double-shovel plow to the blacksmith and have him cut and bend the side piece of the frame which held the rear shovel, so as to bring both shanks even. On the shanks bolt a piece of one-quarter or threeeighth inch sheet iron about eighteen inches wide and three feet long, bending the iron to fit the shank. If given the same pitch the shovels had, it

A HOMEMADE SCRAPER

makes an excellent grader for finishing up roads, opening and filling ditches, etc. If the iron is not procurable, use a hardwood board of suitable size, beyeled at the bottom edge and bolt on a steel plate, made from the blade of an old crosscut saw.—J. G. Alishouse, in American Agriculturist.

BUSINESS BETTER.

Trade as a Whole Showed Expansion During Last Week-Wool Much More Active. Iron and Steel In Demand.

R. G. Dun & Co.'s Weekly Review of Trade says: Business in the east, and particularly along the North Atand particularly along the Norm Ar-lautic coast, has been catching up with the rest of the country a little during the week, so that in the few lines where complaint has been heard locally of late the tone is better. This comes from the working off of retail stocks, which owners feared would have to be carried over until next season.

Activity grows more pronounced in wool, sales at the three chief eastern markets aggregating 8,258,500 pounds for the last week, against 6,972,600 in the previous week, and 2.803,400 a month ago. Although transactions are heavier than at any time in over a year the situation is far from satisfactory, as each week brings a lower level of

No diminution appears in the move-ment or iron and steel products. Mills are rushed with orders and new con-tracts are taken at full prices. Pig iron iz freely bought and prices tend no-ward. Billets and other partially manuward. Billets and other partially manufactured forms are firmer, and finished goods would command high prices if immediate delivery could be secured. Structural shapes are still a feature, with large operations pending in bridges and track elevation. More coke ovens are added to the active list, making the output much heavier than at any recent

Lumber and materials are in good demand, owing to extensive preparation for spring building, and at Buffalo there is special activity on account of hotels and other work in connection with the exposition.

Grain markets are devoid of wide fluctuations, although many reports are circulated regarding the condition of winter wheat. It is too early to secure definite information, and traders are not influenced by rumors. News from India and Australia indicates a

crop than last year's.
Failures for the week were 253 in the United States, against 201 last year, and 39 in Canada, against 33 last year.

## Murder by a Six-Year-Old.

During the absence of her mother the i-year-old daughter of John Myers, of Stephenson, Mich., for the fourth time attempted to take the life of one of her two smaller sisters and succeeded. She took a stick of burning stove wood and holding her 2-year-old sister to the floor pressed the brand against her

clothing.
The victim managed to get out doors and lie down in a snowdrift, which barely extinguished the flames, but she was so terribly burned about the legs and body that she died a few hours afterward. The girl does not seem to realize the significance of her

beatiness Cannot Se Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tule. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely, closed Deafness is the result, and unless the inflammation can be taken out and this tube restricted to its normal condition, hearing will be destroyed forever. Nine cases out of tan are caused by catarrh, which is nothing butan inflamed condition of the mucous surfaces.

We will give One Hundred Dellars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh ture. Send for circulars, free.

If you went to buy a lion whelp you would'nt accept a kitten as a substitute, even if the dealer urges you.

Now, don't accept a substitute for

# LION COFFEE.

It is bound to turn out a common yellow cat, with none of the strength of the lion.

You want LION COFFEE because it is LION COFFEE.

If, on the other hand, you want a coffee which, in order to hide imperfections, is "highly polished" with eggs and other preparations, then do not buy

# LION COFFEE.

If LION COFFEE were common, ordinary stuff, coffee drinkers would'nt insist on having it. It is used in millions of homes because it is the best coffee in the world for the price. If you doubt this, take a single package home and try it.

In every package of LION COFFEE you will find a fully illustrated and descriptive list. No housekeeper, in fact, no woman, man, boy or girl will fail to find in the list some article which will contribute to their happiness, comfort and convenience, and which they may have by simply cutting out a certain number of Lion Heads from the wrappers of our one pound scaled packages (which is the only form in which this excellent coffee is sold).
