A man must make his way through this world, while a woman always has hers.

The fear of doing something beneath his dignity has kept many a man from increasing it.

The religion which does not aim to improve the world does not meet the needs of humanity.

It is always well to obtain what one desires but it is better to desire only what one can obtain.

Wisely spoke the sage who said: "Example is far more than precept. It is instruction in action."

It seems that Kansas had a female saloon-wrecker, in the person of a Miss Spencer, as early as 1856.

The Kentucky doctor who used a gun to kill two men is not an up-to-date member of his profession.

Some people are so much like circus bills that they don't require much money to cause them to be stuck up.

Now the scientists tell us that wealth is a disease. Please tell us where we can catch it.—Ridgway Democrat. Ditto here.

If big feet were as fashionable as big heads are prevalent in this country, the chiropodist would have to hunt another trade.

This world is but a fleeting show, and if it was possible to obtain a return pass, the dread of going out between acts would not have so much weight on the minds of most people.

The will of a New York woman directed that her body be kept in a warm room five days after death, whether for fear of being buried alive or a desire to get acclimated was not stated.

The New York lawyers and courts have had a wrestle with the redhead duck question. The fellow whose sweetheart has red hair can sympathize with them, as he is always wrestling with the problem.

The U. S. has a large and increasing trade with Manchuria, the Chinese province which has passed under Russian control, but whether the change will affect that trade is not yet positively known, although it is feared that it will.

When you see a man and his wife walking the streets acting like a pair of lovers it don't always follow that their home life is all happiness. We have known such cases where the husband has packed his trunk and skipped out until the war cloud disappeared.

In southern Italy and Sicily the superstitious, which is practically the entire population, have been driven to the verge of distraction by blood red skies and showers of what appeared to be blood. Scientists attribute the "showers of blood" to dust blown from the African desert.

It was at the request of France that the time within which its reciprocity treaty with us may be ratified was extended until September of next year. France knows a good thing when she sees it. The Senate thought it such a good thing—for France—that it did not act upon it during the last Congress.

General Benjamin Harrison, ex-president of the United States, died at his home in Indianapolis, Ind., Wednesday afternoon, March 13. He was a noble man. Pneumonia was cause of death. Gen. Harrison was born at North Bend, Ohio, in 1833. Elected president of the United States in 1888.

Punxsutawney is to get a \$200,000 powder plant which will give employment to about 100 men. Work on the new industry will begin as soon as the frost goes out of the ground. The result of hustling on the part of some of Punxsutawney's citizens. If Reynoldsville wants more factories we will have to be alive. And why not?

Charles Stow, who is on the personal staff of Director General Buchanan of the Pan-American Exposition, in speaking of newspapers said: "The press does more for nothing and gets less thanks therefor than all other creeds, callings and professions combined; makes a majority of the great men of the country, and, as a rule, out of mighty small material."

Letter to McCreight Bros., Reynoldsville, Pa.

Dear Sirs: You understand grinding wheat, buckwheat, rye, oats and corn. We understand grinding white-lead and white-zinc. The two sorts of grinding are not much alike. Very likely oats and wheat behave very differently on the mill, and you manage them differently—we know very little about your work; don't need to; we'd rather depend on you.

But we paint your house and mill, and outbuildings; perhaps you'd be glad to know about grinding paint; for some people mix their paint in a tub.

We use lead and zinc—nothing else. And our zinc is as tough as your oats. Tub-mixers imagine they mix it. They don't; they can't. Takes grinding to mix lead and zinc.

They are both white. Tub-mixers don't know it; but tub-mixed lead and zinc is a streak of one alongside of a streak of the other.

We grind as you grind; and our paint is lead and zinc ground together, mixed intimately; it is neither lead nor zinc, but lead and zinc; the lead is lost, and the zinc is lost; each lost in the other; both lost in the mixture. Lead chalks and zinc peels, lead and zinc ground together hang on and protect each other.

We take care of your mill outside; you take care of it inside.

Yours truly,
F. W. DEVOE & CO.

P. S.—H. Alex Stoke sells our paint in your section.

Artistic Recitals.

Miss Sara Belle Mohney, reader and impersonator, will give an entertainment in Salvation Army hall Friday evening, March 22nd. Entertainment begins at 7.30; admission 25 cents; tickets on sale at Stoke's drug store. The Brockwayville Record says: "The entertainment given in the M. E. church last Friday evening under the auspices of the Epworth League was attended by a good sized crowd. The program was excellent throughout, especially the elocution of Miss Sara Belle Mohney, who is recognized as one of the best entertainers of the season. As a reciter and reader she possesses a strong individuality, marked ability and charming personality, and her ease of manner and simplicity of delivery was fully appreciated by the well pleased audience."

A Windy Scare.

Tom Reynolds and the other inmates of the Reynolds mansion were given a bad scare at 2.00 a. m. last Wednesday. They were all awakened by a loud crash and in a few seconds the entire house was filled with smoke. They thought the house was afire and the roof had fallen in and that their escape from the flames was dubious. There was some hustling in that house for a few minutes. The ferocious March wind was too much for the large chimney on eastside of building and it fell on to roof. There were coal fires in several of the rooms that depended on this chimney for draft and when the chimney fell the smoke came out into the rooms, quickly filling house with smoke.

Soft coal ought to be in good shape now that mining rates and transportation charges have been fixed for a year forward from April 1. The operators should now know their cost and be able to go into market without uncertainty and there ought to be a good year ahead for this trade in all parts of the country, when general business takes on its larger degree of activity, says the Coal Trade Journal in its weekly editorial review.

Resignation Not Accepted.

Last week the Herald mentioned that Rev. Chisholm, pastor of the Presbyterian congregation at this place and Rathmel, has tendered his resignation to the latter place on account of ill health. The people at Rathmel, however, do not want to accept the resignation and have decided to build a new brick church. Work will be commenced in the early spring and the people are taking hold of the work in a manner that insures success. Rev. Chisholm is very popular at both charges, but is handicapped in his work on account of ill health.—Falls Creek Herald.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 58 pounds." It's absolutely guaranteed to cure coughs, colds, lagrippe, bronchitis, and all throat and lung troubles. Price 50c and \$1.00. Trial bottles free at H. Alex Stoke's drug store.
