

DAILY AND HACKMAN.

New Story Told of the Late Montana Copper King.

When Marcus Daly was in Washington last it is told that he performed a humane act which very nearly brought a brutal back driver into the police court, and was a topic of conversation at the hotel and other places which Daly frequented.

THE DUTY OF MOTHERS.

What suffering frequently results from a mother's ignorance; or more frequently from a mother's neglect to properly instruct her daughter!

Tradition says "woman must suffer," and young women are so taught. There is a little truth and a great deal of exaggeration in this.

Many mothers hesitate to take their daughters to a physician for examination; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham and secure the most efficient advice without charge.

Mrs. August Palsgraf, of South Byron, Wis., mother of the young lady whose portrait we here publish, wrote Mrs. Pinkham in January, 1909, saying her daughter had suffered for two years with irregular menstruation—had headache all the time, and pain in her side, feet swell, and was generally miserable.

FARM TOPICS

Feed For Geese.

The first need for geese is grass, fed on sod. A small quantity of corn meal, slightly moistened, is also given them. Sand and charcoal are sometimes mixed with the cornmeal.

Bees Annoying Neighbors. Where bees are kept in a village or in a thickly settled community, sometimes they cause considerable annoyance to neighbors.

Give the Cows Succulent Food. Cows which calve in the fall or during the early winter months sometimes fall off in their flow of milk toward spring, which is, no doubt, due to being kept so long on dry feed.

Difficulty in Churning. During cold weather one of the chief difficulties in butter making results from hard fat granules and cream with a high viscosity.

Fattening Lambs. On some of the small farms near the cities of the Western States the farmers are buying lambs from the large sheep ranges of the points both north-west and southwest, and fattening them for market.

Overcrowding in the Poultry House. We hear a great many say that overcrowding fowls in a house is sure to invite disease, and at great length figure out exactly the amount of space that a given number of fowls require.
