### What Frightened Him.

While crossing the Isthmus of Panama by rail some years ago the conductor obligingly stopped the train for Mr. Campion to gather some beautiful crimson flowers by the roadside. It was midday and intensely hot. In his "On the Frontier" Mr. Campion tells a peculiar story of this flower picking experience.

I refused offers of assistance and went alone to pluck the flowers. After gathering a handful I noticed a large bed of plants knee high and of delicate form and a beautiful green shade. I walked to them, broke off a fine spray and placed it with the flowers.

To my amazement I saw that I had gathered a withered, shriveled, brownish weed. I threw it away, carefully selected a large, bright green plant and plucked it. Again I had in my hand a bunch of withered leaves.

It flashed through my mind that a sudden attack of Panama fever, which was very prevalent and much talked of, had struck me delirious.

I went "off my head" from fright. In a panic I threw the flowers down and was about to run to the train. I looked around. Nothing seemed strange. I felt my pulse. All right. I was in a perspiration, but the heat would have made a lizard perspire.

Then I noticed that the plants where I stood seemed shrunken and wilted. Carefully I put my finger on a fresh branch. Instantly the leaves shrank and began to change color. I had been frightened by sensitive plants.

### A Bit of Red Tape.

The absurdities of officialdom have perhaps never been better illustrated than by the incident in the career of Lord Shaftesbury which the author of "Collections and Recollections" relates:

One winter evening in 1867 he was sitting in his library in Grosvenor square, when the servant told him that there was a poor man waiting to see him. The man was shown in and proved to be a laborer from Clerkenwell and one of the innumerable recipients of the old earl's charity.

He said, "My lord, you have been very good to me, and I have come to tell you what I have heard." It appeared that at the public house which he frequented he had overheard some Irishmen of desperate character plotting to blow up Clerkenwell prison. He gave Lord Shaftesbury the information, to be used as he thought best, but made it a condition that his name should not be divulged. If it were, his life would not be worth an hour's purchase.

Lord Shaftesbury pledged himself to secrecy, ordered his carriage and drove instantly to Whitehall. The authorities there refused, on grounds of official practice, to entertain the information without the name and address of the informant. These, of course, could not be given. The warning was rejected, and the jail was blown up—Youth's Companion.

### Her Wedding "Tower."

An accommodation train on a distant railroad was dragging along, when a long, lean and sallow woman, in what appeared to be subdued bridal finery, leaned across the aisle of the car and said seriously to a lady sitting opposite her:

"Dear me! It's a kind of a solemn thing to be traveling with two husbands, now, ain't it?"

"I do not know what you mean," replied the lady.

"Oh, mebbe not. Well, you see, my first husband died 'bout a year ago and was buried over in Patrick county, an' last week I was married ag'in, an' me an' my second husband have been over in Patrick county on a little wedding tower, an' I thought I'd kind of like to have my first husband buried in the graveyard nigh where I'm goin' to live now, an' my second husband was willin', so we tuk my first husband up, an' he's in the baggage car along with our other things. My second husband is settin' out on the platform takin' a smoke, an' I been settin' here thinkin' how solemn it is to go on a wedding tower with two husbands. It's a terrible solemn piece of bizness when you come to think of it."—Laurence Lee in Lippincott's Magazine.

### Why Cables Get Tired.

There has been some question, says The Electrical Engineer, as to the reason why certain cables lose their conducting properties and have in some instances to be replaced. A learned Frenchman has submitted a paper on the subject to the Academie des Sciences.

In this paper he states that when cables lose their electrical properties it is because they are always used for one kind of current only, either positive or negative. If used sometimes for positive and sometimes for negative, they will, he states, preserve their conductive qualities indefinitely. Experiments with nine wires running from Paris to Dijon demonstrated this, he says.

### Unsympathetic.

"You haven't much sympathy for the request from your employees for shorter hours."

"Not much," answered Mr. Cumrox. "It goes to show that men don't know when they are well off. If they had been invited around to musicales and dragged through Europe by Mrs. C. and the girls like I have, maybe they'd appreciate the privilege of staying in a nice, comfortable, businesslike office nine or ten hours a day."—Washington Star.

### Still Anxious.

"Have you fastened the windows, dear?" she asked, as they were about to retire for the night.

"No. What's the use? I gave you the last dollar I had to buy that new hat, and we needn't fear burglars."

"But they might sit down on the hat, you know."—Washington Post.

### BANDS FOR PAN-AMERICAN.

Their Music Will Be a Great Feature of the Exposition at Buffalo.

Arrangements have already been made for the appearance at the Pan-American Exposition of some of the most famous bands of the American Continent. Throughout the season, from May 1 to Nov. 1, concerts will be given daily in various parts of the Exposition grounds by these bands, and the variety of musical entertainment thus afforded will be a notable feature of the Exposition. Prominent among the organizations engaged is Sousa's Band, which is known wherever there are lovers of music and whose success in the rendition of military music has been remarkable.

The most notable achievement in the history of international events was perhaps the triumphal tour made by Sousa and his band through Europe, extending from April to September, 1900. It was 22 years since an American band had been heard on the European Continent, and so emphatic was the success of the American conductor and composer that the tour became a series of ovations throughout France, Germany, Belgium and Holland. It was the official band at the Paris Exposition.

The Mexican Government Mounted Band has been engaged to give concerts during the Exposition.

Fanciulli's Seventy-first Regiment Band of New York has been engaged for a series of concerts during the season. This band has also a great reputation for its rendition of military music, and it followed Sousa's Band in the concerts at Manhattan Beach.

Canada will be represented by several bands, among them the famous Thirtieth Regiment Band of Hamilton, which is the crack band music organization of lower Canada.

The Elgin Band of Elgin, Ill., which stands very high in that state, has also been engaged.

Another well known band is the Carlisle Indian Band, which made a great hit in Washington and New York City.

When the Ancient and Honorable Artillery of Boston made their recent notable tour in Europe, they were accompanied by the Salem (Mass.) Cadet Band, which contributed much to the success of the tour. This band will also be heard at the Pan-American Exposition.

The Brooks Chicago Marine Band, E. B. Brooks conductor, which is considered by many the best in Chicago, will be heard.

Another band engaged is the Ithaca Band of Ithaca, N. Y., which is backed

FIGURE OF HOSPITALITY FOR TRIUMPHAL BRIDGE

by E. N. Truman, one of the wealthy men of that section. It has achieved a great reputation in the central part of New York State.

The Boston Ladies' Military Band, which has been before the public for two or three years and made a pronounced success, has been engaged. It is spoken of highly by musical people in Boston.

Besides these bands from other portions of the United States, the best bands of Buffalo have been engaged for the Exposition, including the well known Seventy-fourth Regiment Band and the Sixty-fifth Regiment Band, which saw service at Camp Alger during the Spanish-American war.

Another band of Buffalo is Scinta's Band, a strong organization.

These local bands have been strengthened to the number of 33 men each, and the leaders claim to have put them in a very fine condition, so that Buffalo need not be ashamed of the performances they will give during the progress of the great Exposition.

This is not a complete list of the bands which will be heard at the Pan-American, but simply shows the character of the entertainment to be provided.

### Minerals at the Pan-American.

Minerals will be fully represented, comprising every production, both useful and ornamental, mined from the earth. All parts of the United States and every country of South and Central America, Canada, Mexico and the islands of the sea will contribute specimens for the exhibit. All kinds of machinery used in manipulating ores will be exhibited. The great advantages that the Americas have over the rest of the world in the wealth of their minerals in connection with climatic conditions, accessibility, etc., will be clearly illustrated. While the exhibits will be under the auspices of the various Governments, many individuals and mining companies will be represented by individual displays, representing their special interests.

### Mexican Appointment.

The Mexican ministry of fomento (encouragement) has appointed as Mexican representative of the Pan-American Exposition Engineer Alberto R. Nuncio, who was until his appointment chief of the second section in the aforementioned ministry.

Did You See Our Carpets?
