In speaking of publishing a country newspaper for fifty cents a year, the Falls Creek *Herald* says: "The attempt to publish a respectable country newspaper for less than one dollar per year has been made by some good newspapers, and that attempt has always resulted in a failure. The Oil City *Blizzard* is published in a field much larger than this, and few months ago the *Weekly Blizzard* raised its price from fifty cents to one dollar a year, giving as its reason that it was not profitable to publish a newspaper in that small field for less than a dollar a year. The Kittanning *Tribune* is another of the papers of this section that has raised its subscription price from fifty cents to one dollar a year, and the fifty cent newspapers that the *Herald* can think of at the present time that have not done likewise are not being published any longer. Of course, all of these newspapers announce that they 'have come to stay,' and that they are going to revolutionize the newspaper business, but the old newspapers are generally found doing business at the old stand after the 'revolutionists' have passed off like a bad dream." The *Herald* 'predicts that any paper that attempts to sell for fifty cents a year will do one of three things: Lower the standard of the paper until it is worth only fifty cents, raise the price, or cease to be published.'

We are cutting our stock down and will for the next thirty days sell a lot of these below cost. Johnston & Nolan.

Letter to W. T. Cox,
Reynoldsville, Pa.

Dear Sir: Congressman Belden, of Syracuse, painted his Thousand-Islands cottage in '92 with Devco; and painted it again in '99, with the same, of course. Takes 80 gallons.

"What! does it last only seven years?"

Depends on what you paint for. No one can tell how long a job of paint is going to last in any particular case. The paint may last ten years and the color five.

A summer cottage is painted to keep out water, to keep it from rotting.

Seven years is a good long time for paint to look fresh—depends on the color though; some colors last longer than others. Three is too long for some of the prettiest colors. Nothing pays better, in building a house, than a good job of paint; and nothing pays better, in keeping it up, than repainting as soon as the paint shows signs of impairment. But this is to keep it sound. For the looks, you may paint it whenever the freshness is off. It's a matter of color; not of paint.

Yours truly,
F. W. DEVCO & CO.

P. S.—H. Alex. Stoke sells our paint in your section.

Liberal Prizes.
At the special meeting of the fire department held a few evenings ago it was decided to increase the money prizes from \$600 to \$800 in order to admit a free-for-all horse race. Two horse races will be run on the 7th of August, one in which only district companies will compete, and one that will be open to the world. The sum of \$200 was voted by the department for the latter race, which will attract such teams as Butler, Union City, Warren and Bradford. No town in the state will excel DuBois in its liberality and great races can be expected here on tournament days. Many towns as yet outside the district organization are clamoring for admittance, desiring a share in the good time that will be had in DuBois on August 6 and 7.—DuBois *Express*.

White Man Turned Yellow.
Great consternation was felt by the friends of M. A. Hogarty, of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by H. Alex. Stoke, Druggist.

Armies of Snakes.

The building of the new West Branch railroad, between Karthaus and Clearfield, has chased from their haunts hundreds of rattlesnakes and copperheads. Until the work on the new railroad began that section of the country was overrun with snakes. It is so rocky that forest fires could not disturb the reptiles, so that the cliffs and ledges became the home and breeding place of countless numbers of them.

One gang of laborers in one day killed forty-two copperhead snakes and eleven rattlers. In traversing a path less than a mile long, Bert Grossmeyer killed seven copperheads. They all appeared to be going in one direction. The laborers on the new road are almost terrorized through fear of the poisonous reptiles, for nearly every blast brings a snake or two rolling down among them with the dirt.

Some of the gangs have employed men whose sole duty is to patrol a prescribed area and kill the snakes found therein. The men are afraid to go to bed lest they find a snake as a bed fellow.

One of the men employed to kill snakes in two days slaughtered 102 copperheads and rattlers. He put them all on a pile and the heap was large enough to fill four barrels. This man discovered one of the dens, and inside of two hours he had slain nearly sixty snakes.—Lock Haven Democrat.

She Didn't Wear A Mask.
