LEISHMAN MADE TURKEY SETTLE.

DEPOSITED \$95,000 IN BANK.

Final Success After Tan Years of Diplomatic Effort-The Indomnity to the Fam ly of Frank Loniz Included.

John G. A. Leishman, United States minister to Turkey, has succeeded in a task in which his four predecessors during the past 10 years have falledthat of inducing the sultan's govern-ment to pay the American claims, The state department has received through Mr. Leishman the full amount claimed, \$95,000, and he has forwarded to Washington drafts for the money, which has been placed in the Otto-man Imperial bank at Constantinople. The state department will distribute the money among the cialmants as

soon as it can prepare the list. Included in the claims is that of the family of Frank G. Lentz, the Pitts-burg bleyclist, who was killed on May 10, 1804, in Asiatic Turkey, while making a tour of the world on his Other claims are mainly for whool. the destruction of American missionary and educational institutions at treal,

Morach and Harpoot, Armenia, Secretary Hay had been told by diplomats skilled in the ways of Turkish diplomacy, that he never would get the money, principally because he had to ontend with the jealousy of the great European powers, most of whom had claims against Turkey vastly larger than ours, and whose total was be-

yond the ability of the Turkish government to meet. For more than a decade the American claims have been pending. Minister Terrell Initiated them. Dr. Angell went over to collect them, expecting to be so engaged only a short time, but he returned unsuccessful after several years in Constantinople, Then Minister Straus took them up, and when he resigned he passed them along to young Mr. Gris-The latter only recently mitted his heavy charge to Mr. Leishman, and while to the latter minister belongs the credit of actually collectmoney, it is said at the state

department that each of the officers named has contributed valuable services toward the final settlement.

CHINA TURNS THE TARLES

Demands Indemnity for American Treatment of Chinese in Montana.

The Chinese government, through Minister Wu Ting Fang, has filed a claim for indemnity to the amount of \$500,000 on account of the alleged outrageous treatment of Chinese at Butte, Mont. It is charged that some of the Chinese were killed, others lost their property, nearly all were ruined in business, and many of them were driven out. The claimants number several hundred. The outrages date back to 1886.

INJUNCTION TO PROTECT WIFE.

Michigan Man Tries Peaceful Means To Sava His Happy Home.

Charles S. Young, of Ypsilanti, says he is tired of having Foster Kilpatrick breaking up his happy home and instead of resorting to deadly weapons or the divorce court he has succeeded in getting Judge Kinne to issue a novel

injunction. It perpetually restrains the said Kilpatrick from visiting Mrs. Young or from speaking to her, or writing to her, or in any way directly or indirectly, corresponding with her through the aid of third persons.

Startling Results of the Failurs of the United States Steel Corporation to Agree on

Unionizing Its Mills. President Theodore J. Shaffer.

Thilean section of the Transandean the Amalgamated Association of Iron. Steel and The Workers is the Amalgamated Association of Iron. alicoad for \$450,000. Six landred men employed at Tup-er Lake, N. Y., planing mills have the plants of the American Tinplate or a the hour day. May and American Sheet Steel Com-pany and American Sheet Hoop Com-in Washington. Similar settlements in Washington. Similar settlements in Washington. Similar settlements the following order: "Notify are made at New Orleans and San men that the mill is on strike and Francisco, as well as at the assay ofpunx will not work Monday, July 15. T. J. fices in New York, Scattle and else shaffer." Shaffer. This means that unless the confer-

nce committees arrive at an amicable understanding, all plants controlled by the Ainalgamated Association will be tied up. About 150,000 men are affected directly and indirectly by this orserious consequences are and der. feared everywhere.

The order was followed by a circu-lar to all lodges in plants of the Unitbe transferred from France to Mon- ed States Steel Corporation, giving the ed employe succeeded in abstracting propositions of the manufacturers and several gold bars from the calling upon the men to joint the great army fighting for the cause of union-got away with several thousand dol sm. No other alternative is given by section 35, article 19, of the association constitution, which reads; "Should me mill in a combine or trust have a

> difficulty all mills in said combine or trust shall cease work until such grievince is settled." This order applied to the American Think Co.'s 34 plants, 17,000 skilled and 10,000 unskilled; American Sheet Steel Co.'s 17,000 skilled and 10,000 un-

skilled; American Steel Hoop Co.'s 10, 000 skilled and 10,000 unskilled. The strike is the first great labor disturbance among the iron and steel workers since the famous strike at the

Homestead works of the Carnegie Steel Company, President Shaffer was confident of his ability to get the organized men to quit work.

THE EUROPEAN CROPS.

Average Yield in England, France Short I pain Will Have Surplus. The Mark Lane Express, London, in ts weekly crop review says it is doubt-

ful if the recent rains will effect greater "transformation scenes" in the wheat crop of England. The yield may wheat erop of England. The bushels per reach an average of 28¼ bushels per acre. The enhanced price and weekly market in Paris furnish evi-dence that the French farmers consider the government estimate as being 10 per cent too high. The agricultural press puts the yield at 35,000,000 quarters, 4,000,000 quarters below the gov-ernment estimate. Spain is reaping magnificent harvest, estimated at 12,500,000 quarters. The Italian har-vest promises to reach the full average and the Roumania harvest is estimated

at 9,000,000 quarters, leaving 3,000,000 available for export. The spring wheat in Russia is less promising. In sev-eral provinces the winter wheat crop, however, is splendld. The rye will make an excellent harvest. The other autumn-sown crops are all above the average, but the spring barley and oats and the Brilliant, a Britisher. These vessels are the latest additions to the are below par.

upon the natives.

nually. ment' and papers were captured." The market for split goods is firm-Lord Kitchener also reports that er. Jobbers have light stocks of summer goods; leather is in good demand and firm. Textile lines have settled in a steady position that promimore lasting prosperity, Heavy weight

woolens are securing duplicate orders and mills are making extensive preparation for the light weight season. Wool was not altered in price, but is firmer

Grain crops this season are occasioning much uncasiness among speculators, owing to the extremely complicated situation. According to latest official and unofficial prognostications there is reason to anticipate the heaviest wheat yield ever harvested, and even with the small supvested, and even with the small sup-plies on hand when the year opened, there appears available for export about 50 per cent more than went abroad in the year of greatest ship-ments. Yet prices are far above the low record. Extensive needs abroad continue, the movement from Atlantic ports for the week amounting to 3-208 634 husbels against 2 106 (12 basis) 208,634 bushels against 2,198,443 bushels a year ago, and western receipts were 4.579,378 bushels, against 2,618,-677 bushels last year. Corn exhibited remarkable strength, drought and heat since July 1 giving reason to expect less than the official report, which indicated more than 2,000,000 bushels. The failures for the week number 208 in the United States, against 196 last very. last year.

An earthquake wrecked several buildings in the town of Aulton, Mex., and then passed off to Zopothon, where it sported with the waters of a big It sported with the waters of a big lake. At first the waters seemed in a state of great agitation, and then they subsided and gradually disappeared. The earthquake had caused a fissure in the bed of the lake, and through this the lake had pased out of sight.
