Paragraphs about lawyers getting all the money left by wealthy persons are not always jokes. It has recently been discovered that litigation over an estate had wiped out over a half million dollars bequeathed some years ago for the establishment of a college of music in New York city.

The action of some pastors who curtail their sermons and otherwise shorten the evening services during the heated period, is sensible and is met with favor wherever introduced. We have no desire to incite the displeasure of the men of the cloth who are inclined to lengthy discourses, but are very much of the opinion that when a people is compelled to sit an hour and a half in a stuffy church with the mercury hovering about the jumping off place, that more good christianity comes out through the pores than can be assimilated by listening to a dozen sermons, however good.—Johnston & Nolan.

Some people seem to be of the opinion that if a person pays for a license to give an entertainment or exhibition on the streets of this borough that it also includes police protection, but it does not. Section 2 of the ordinance reads as follows: "It shall be the duty of the high constable or his deputy, if required by the person or persons to whom such license or permit is granted as aforesaid, to attend at the place of exhibition, and prevent any outrage or disturbance of the harmony of the citizens, for which such officer shall be entitled to a fee of one dollar, to be paid by the person or persons requiring the service of such officer."

One of the most contemptible things that a man can do is to purchase intoxicating liquor for a boy who is not old enough to buy it himself, or a man whom liquor dealers refuse to sell it to. No person who has any regard for his honor at all ever does this, but occasionally we find some miserable whelp who is willing to help to destroy the future prospects of a boy and furnish him liquor that will help to stimulate his appetite for strong drink. The case is sad enough when we see a man who has nearly run his course in life addicted to the use of liquor, but when a boy, the whole of whose life is before him and whose future is yet to be made, begins to waste his health and time in drinking, the case is indeed to be pitied. And what must the wretch think who has furnished liquor to help blight the life.—Falls Creek Herald. There are some fellows in Reynoldsville that are mean enough to buy liquor for boys and men who cannot buy it for themselves.

Often times editors reluctantly publish the names of persons who are charged with crime, and especially do they dislike to do such things when the parties have excellent family connections, but the reading public expect and demand such news. When a crime has been committed every person—but the friends of the accused—expect to read an account of it in the newspapers. In some cases people become offended when criminal news is published where some member of their family is implicated, and yet these same people think it is all right to publish such things when they are not interested. It makes all the difference in the world "whose ox is gored." We believe that in many cases it is as much punishment for people to have their names published in connection with some criminal case as it is for them to go to jail, and the fear of having their names published is about as effective in keeping people on their good behavior as the fear of the law. It has been the policy of THE STAR, like all first-class newspapers, to publish crime, although in some cases we are loathe to do so, yet our position is such that we cannot discriminate. We must either publish all or not any. The nature of some crimes is such that we do not publish them unless the persons implicated are arrested. Some times people who have committed crime become very much exercised about the disgrace their actions will bring upon their parents and friends, and they send a friend to request the newspapers not to mention their names. It would be much better if the thought of the disgrace would come to them before the crime is committed. If people have not enough respect for themselves and friends to keep from committing crime, how can they expect the newspapers to have enough respect for them not to mention their names—after the crime has been committed and the strong arm of the law takes hold of them.

A couple of young men of Brookville, who attended the ice cream festival at the M. E. church Saturday evening, met with quite an accident. Their horse became frightened and smashed their buggy so badly that they were compelled to walk back to Brookville.

There was quite a crowd at the festival in the M. E. church Saturday evening. We learned the amount taken in was \$32.00.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty, of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by H. Alex. Stoke, Druggist.

Good Advice.

The most miserable beings in the world are those suffering from dyspepsia and liver complaints. More than seventy per cent of the people in the United States are affected with these two diseases and their effects: such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the heart, Heartburn, Waterbrash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the mouth. Letter to E. E. Stewart, Reynoldsville, Pa.

Dear Sir: There was a time when it paid a painter to paint lead and oil, and fight shy of anything else. That was when the market was full of poor paints and zinc was unknown.

Now zinc has come in, lead and oil must give way—it is too short-lived. There are two ways to use zinc: you can mix it in with lead in a tub, or buy Devoe lead and zinc, which is ground together by machinery.

If you mix your own lead and zinc, you gain something; if you buy Devoe you gain more, because machinery does better work than hand mixing. Experience is worth something. We've had 146 years of it.

Yours truly,
F. W. DEVOE & CO.
P. S.—H. Alex. Stoke sells our paint in your section.

An Egg Within an Egg.

The Blossburg Advertiser says: "Ben Bauman, of Arnot, is the owner of a hen that recently laid a very large egg. It was so large that it was intended to draw out the contents of the egg by causing a small aperture in the end, and to preserve the shell. After the contents had been drawn out it was ascertained that another egg with a perfect shell was enclosed in the large shell. It is indeed a great curiosity. It has been preserved for inspection."

A Reynoldsville Woman Asks

"Have you a floor paint that will last two weeks?" Yes we have Devoe's; it has a beautiful gloss and will wear two years if properly applied. H. A. Stoke.

The Pittsburg Plate Glass Co. is erecting an endless wire cable from its sand plant west of the river to its works, more than half a mile above, at Ford City on the other side. The cable is 2 1/2 inches, upon which will be fastened at short intervals sand buckets. The wire will be run by an engine and carry the sand from the crusher into the glass works, thus doing away with the handling of the sand into the barges at the sand plant and the shoveling of it out at the glass works. The cost of cable and putting it up is estimated at \$30,000.—Kittanning Record.

Rural Free Delivery.

A prominent Western man sees much good as a result of the introduction of rural free delivery of mails. Talking on this subject recently, he said: "The stump speaker has lost his trade. The newspaper has taken it away since the institution of the rural free delivery. The farmers who could be induced to flock to a political meeting in the past years won't come now unless there is a speaker of special note to be heard. Now they get their papers every day left at their gates and they do not have to attend political meetings to learn from biased orators the situation of affairs. They know what is going on and they know who are the men they want to hear speak."

It Dazzles the World.

No discovery in medicine has ever created one-quarter of the excitement that has been caused by Dr. King's New Discovery for Consumption. Its severest tests have been on hopeless victims of Consumption, Pneumonia, Hemorrhage, Pleurisy and Bronchitis, thousands of whom it has restored to perfect health. For Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping cough it is the quickest, surest cure in the world. It is sold by H. Alex. Stoke who guarantee satisfaction or refund the money. Large bottles 50c and \$1.00. Trial bottle free.

Bids Wanted.

We will receive bids until noon Saturday, July 27, 1901, for the erection of a frame school house on the site of the old Sprague school house. Plans and specifications can be seen at THE STAR office.

Where Pennies Are Popular.

The Philadelphia mint sent to St. Louis last week 10,000 new pennies. The shining coins were packed in 20 stout bags of white canvas, 500 to the bag and went by express. They were not, of course, of any great value, but they were good to look at in their brilliancy, because they resemble pieces of gold. One of the mint officials said, as they were going: "There is always a scarcity of pennies in the west, and a superabundance of them in the east. Every little while out there they set up a boot and cry for pennies, but our banks here are ever glad to rid themselves of their surplusage in these coins. It is difficult to see why such a state of things should be. I'm sure a penny is just as dear to the easterner's heart as to the westerner's; one would no more throw a penny away than the other; yet here we always have too many pennies; there they never seem to have enough."—Philadelphia Record.
