#### To be Tested by Organized Labor in a Sult in Which Attorney General Knox Will be the Defendant.

District Assembly No. 08 of the Knights of Labor of Washington, D. C., authorized its Legislative Committee to bring quo warranto proceedthe United States, to show cause why he has not enforced the provisions of the anti-trust law, known as the Sher-man act. This action, is aimed at the United States Steel Corporation, which is claimed to be operating in violation of the Sherman act. Labor lenders say this will hasten a solu

tion of the strike now in progress.

They say that laws similar or near ly similar to the Sherman law have been enacted in nearly all the states and in several of them, notably in Ohlo and Texas, the county attorneys have the power of the Attorney Gen eral of the State in que warrante pro ceedings and that the Amalgamated Association has a large fund on hand with which to institute proceedings similar to those to be begun here. Ex Attorney General Frank S. Monnett of Ohio, has been retained by the American Anti-Trust League to action before the state and local courts of Ohto.

#### THE GREATEST OF STEAMERS.

#### Sea-Sickness is Unknown Appard the Trans-Atlantic Liner Celtic.

The new steamship Celtic, of the White Star Line ,the first 20,000-ton ing May 31, 1901. vessel the world has ever seen arrived at New York Monday on her maiden voyage, crossing in eight days and 46 minutes. She is under the command of Captain Lindsay. The giant liner, which is the largest ship afloat, can earry 18,000 tons actual cargo and has accommodations for 3.194 persons She is 700 feet long and has a of 75 feet. The Celtic has nine decks he was not built to break speed but for comfort. On her trip over seasick was almost an unknown plaint, this being due to the fact that the ship's great size overcame the ac tion of the sea.

#### A TRUST EXTENSION.

#### The United States Steel Corporation Buys the Shelby Tube Works,

The United States Steel Corpor: tion has obtained control of the Shel by tube works, a corporation with 15 mills in various parts of the country producing tubes of all kinds, but prin cipally of the higher grades. principal mills owned by it are located at Shelby, O.; Greenville, Pa.; To ledo, O.; New Castle, Pa.; Hartford, Conn.; Albany, Ind.; Auburn, Pa. Beaver, Falls, Pa.; Garwood, N. Mansfield, O., and Cuyahoga Falls. O. The weekly product of the com-bined mills is about 5,000 tons of

## GARLAND'S RULE INFLUENCED MEN

CONTRACT ABOVE LOYALTY.

South Chicago Steel Workers Vote To Not Strike, Also To Extend Financial Ald To Their Brothers.

The steel workers in the South Chicago mills refused to join in the great steel strike. By a vote of 158 o 7 two Amalgamated Association odges decided Sunday that their duty o the Federal Steel Company, in accordance with their wage contracts, was higher than their duty to the union. At the same time the South Chicago steel men expressed their full ympathy with the strike, and in the formal statement by which they announced their decision they offered financial aid to the strikers in the East. The South Chicago men announced their decision they are the strikers in the control of the strikers in the control of the strikers. nonneed their decision to General Superintendent c. II. McCullough, Jr., of the South Chicago mills. The text of the resolutions is as follows. It is the spirit of Lakeside Lodge No. 9 and Commercial Lodge No. 14 of the Amalgamated Association of Iron and Steel and Tin Workers, that, owing to the existing contract between said lodges and the Illinois Steel Company, we are justified in standing by our contracts, and, owing to a ruling of President Mahlon M. Garland in 1897 that the association never broke an agreement-we do not wish to bring he Amalgamated Association into dis repute with out employers, all labor organizations or the general public by breaking a contract at this time. We extend our financial aid to our brothers in their struggle for the building up and maintenance of the Amalga-mated Association in the East and pray that their efforts may be crown-

ed with success. All that the South Chicago steel worry them is whether they will be allowed to remain in good standing as members of the Amalga-mated Association. It was said that they had received assurance that their reasons for disobeying the strike order would be deemed catisfactory by the general officers.

#### THREE HUNDRED SLAUGHTERED.

#### Horrible Massacre by the Fanatics in Quelpart Island, Korea.

The state department gives the following, received from Minister Allen, our representative in Corea: "According to advices received at the department of state up to July 3, the revolt on the Island of Quelpart, off the southern coast of Corea, has been suppressed by the Corean government, aided by two French gunboats. About 300 persons were killed in the revolt, mostly Christians. It was ascertkined from persons who had been on the island that the revolt was caused by

an attempt to collect increased taxes.

The substance of the information received is that the islanders, who are poor, refused to pay these taxes, and, as no tax collectors were availamong the inhabitants selves, it was arranged that the Christians, mostly Catholics and presumably exiles, should collect the taxes. A conflict occurred and before quiet was restored all the Christians had been killed.

### BURIED IN HER MARRIAGE GOWN.

#### Priest Who Read the Banns Said Mass for the Intended Bride.

Annie Powers, of 1417 South Philip street, Philadelphia, who was engaged to be married on August 21, was buried Saturday. Father Anthony Z. Zeller, who read the marriage banns on August 4, sang high maes in the church where she was to be married. Annie was to have become the wife of Thomas Corblazier. Returning home from a trolley ride with Corbiazier, she complained of being ill, but apparently recovered. Her mother was in the night by notses com camp while his breakfast was still ing from Annie's room, and, entering, und her daughter in a nasal hemorrhage. She died before a doctor as rived. Attired in her wedding dress, she lay in her lavender casket. A broken wreath, with the words, "My hopes are lost," was from her intended husband.

# PLAN TO BLOW UP ENGLISH BOAT,

### TORPEDO UNDER MULESHIP.

### Boer Sympathizers at New Orleans Credited With Attempt to Destroy Transport Ready to Sail for Africa.

What is regarded as an attempt of a Boer sympathizer to blow up a Bris ish transport occurred shortly after morning, when there was a terrific ex-plosion at the stock landing, where the Mechanician is loading with mules for South Africa. The explosion shook houses, rattled dishes and awakened people for some distance around. Most of the erew of the ship were around nsleep, quickly but the shock brought them on deck. An examination showed a large dent on the starboard Three large plates at the ter's edge had been stove in and considerable water was flowing into the ship. Pumps were immediately put to work and when daylight came it was found the vessel was in no danger of sinking. The crew denied that there were any explosives on board, and those who examined the ship state that the explosion was from th outside, and that some sort of bomb or torpedo had been used. Alfred Le-blane, general officer of the Harrison line, said the damage would be re-paired at New Orleans and the vessel will get away for South Africa as soon as possible with her eargo of mules. A British officer, who was on the ship last night, said the explosion was terrifle, and that a column of water went up in the sir and came down on high up in the sir and came down on deck. It was suggested in some quarters that it might have been the act of some disgruntled muletcers, as some who have left the city on the British transports have returned with complaints of ill treatment.

#### APPOINTMENTS MADE.

#### Speaker W. T. Marshall Names the Members of Several Commissions.

Commissions provided for during the last session of the Legislature have been announced by Speaker W. T. Marshall of the House of Representatives. He has selected Repre sentative John T. Harrison of Philadelphia to serve on the commission which will select a site and build a hospital for the care and treatment of the insane.

J. N. Pew is named as a member o

the Topographic and Geological Com-mission. Pennsylvania commission to the South Carolina Inter-State and West India Exposition at Charles S. C.: John Hamilton of Philadel-phia, Richard M. Kopp of Allegheny, Harry K. Dougherty of Mercer coun-ty, James Foster of Montour county, Edward James, Jr., of Lackawanna county, William S. VanDyke, of Westmoreland county, Madison A. Garvin of Adams county and George

R. Dixon of Elk county. Pennsylvania commission to the Louisiana Purchase Exposition at St. Louis: Representative Theodore B Stulb of Philadelphia, Charles A. Mer tens of Eric county, John P. McTight of Allegheny county, William H. Ulrich of Dauphin county, John Scheuer, Jr., of Lackawanna county, Robert M. Newhard of Delaware county, Fred-erick Hess of Philadelphia, Edgar S.

erick Hess of Philadelphia, Manning of Cumberland county. Laneaster county, Ward R. Bliss of Delaware county, Charles E. Voor-hess of Philadelphia and Henry Hall of Allegheny county, have been named as members of a commission to inquire into the condition and care of the insane patients of the state.

The Building Trades Council, the housesmiths' union and the bridge-mens' union, of New York, have adopted resolutions pledging the moral and financial support of the organization to the steel workers.

### DROUGHT HURT IT MUCH.

#### Secretary Wilson Gives Results of His Investigation-Late Corn May Be Good. Fair Prospects in Iowa.

Secretary Wilson, who has just con duded a tour through the corn belt, in a communication received at the department of agriculture says: "The corn crop is very seriously injured in all the great corn growing states. The spring was wet, and much of the crop was planted late on account of the land being saturated. It is crikingly observable and most crops are ur yleius of grain. This is the case in the cest corn regions, such as the route from Chicago to Burlington, Ia. "The crop in Central Iowa promises after. It has heavier stalks, but an examination of the ears show incom fertilization. has not yet fallen to carry on the crop to maturity in most of the states of the great corn belt. Northern Iowa and Minnesota have lighter crops look green and healthy, out need rain, and can not have average crops on account of imperfect fertilization.

"The injury to corn is so serious that it is very easy to over-estimate the crop. The wheat is reported good everywhere. The heat did hasten ripening and caused carinking. Oats are reported light in most states, ox ing to hurried ripening. The same is said of barley. Potatoes are very seriously injured south of Minnesota. Hay is said to be excellent.

"I get estimates on lown of a two thirds corn crop. It will be less, I believe. The corn along the 'Q' road in Southern Leva is very light. I do

in Southern Icwa is very light. husking and the other salf does not now, promise more than half of an av erage crop at the outside. This may said of Nebraska corn and Kansas is suffering still more."

#### HONDURAS LAND GRANT.

#### Gives 64,000 Acres on Condition of Settling Tract With Americans.

James Wood, of Chicago, who went to Honduras as the representative of Chicago syndicate, has returned and says that his company has secured from the government 64,000 acres of and on the condition that it be settled with Americans. The land lies betwee Celba and Puerto Cortez, about 20 miles from the latter place, Wood claims that his company has already made arrangements with a num-ber of Ohio, Indiana and Illinois farmers to go to Central America and raise tropical products. The first party of emigrants is expected to leave in about two months.

#### 20,000 PERSONS DROWNED.

### Great Floods Caused by the Overflowing of

the Yanghtse Kiang. Great floods caused by the overflowing of the Yang Tse caused the death of many thousands in China. The river had risen 40 feet, and for hundreds of miles the country was a great lake with only tops of trees and an occasional roof showing. At Ankng the town was flooded, some of the ouses to the roof. At Klu Klang the native town was flooded and two feet of water stood in the foreign settlement. Lower down - river to-ward Swu Hue the destruction was greater and boatmen estimate 20,000 were drowned in the district. hong Teh was wiped away by floods 10,000 were drowned bere while many other points have been inundated, involving awful loss of life and great destruction to property.

# REPRIMANDED REAR ADMIRAL EVANS.

Assistant Secretary of Navy Rebukes Him for Attack on Chandler. Acting Secretary Hackett of the Navy Department has reprimanded Rend Admiral Robley D. Evans for what he wrote in his book, "A Sall-or's Log," about William E. Chandler, secretary of the navy from 1885, senator from New Hampshire for two terms and now president of the Spanish Treaty Claims Commis Evans accused Chandler of removing him from active outy for re-fusing to use his office for political

#### purposes. GROWING GERMAN TRADE. With the United States Both Exports and

Imports Are Larger. Imports into the United States from Germany and exports from the United States to that country have increased from \$42,000,000 in 1870 to \$191,000,000 in 1991, an increase of nearly 300 per cent, in imports from Germany and of nearly 400 per cent. In exports to Germany. On the export side, the greatest growth has been during the last five years, in which time our ex-ports to Germany have doubled, be-ing in 1896, \$97,897,197, and in 1901,

\$101,072,252.

Fearing Trouble. The state department has received a communication from J. Edward Simmons, of New York, president of the Panama railroad company, ex-pressing apprehension of trouble along the isfhmus and suggesting that an American warship be sent to the Paclife side at Panama as well as to the Atlantic side at Colon.

Pernod's absinthe factory at Poutarlien, one of the largest in France, was struck by lightning Sunday. The factory was completely destroyed, damage being estimated at \$1,000,000

#### No Complaint About Trade-Uncortainty Has Been Eliminated-Possible Results of the Steel Strike Discounted.

R. G. Dun & Co.'s Weekly review

of trade says: There is no complaint from any part of the country over the volume of current distribution of merchan-dise, and what hesitation is observed in general trade is chiefly due to the uncertainty as to the duration of the labor troubles in the steel man-ufacture. Collections continue good, cultural classes, money is easy, and stocks of merchandise carried are not above the average for this season of the year, particularly in the west and

southwest.

Relief is felt in all departments of the iron and steel industry now that uncertainty is ended and the posi-Structural, wire and plate mills are not affected and the production of rails will not be materially curtailed. Supplies of bars and tubes will be restricted, and quotations in these lines tend to follow the advance already secured for hoops and sheets. A bad feature is the increased importation of tin plates, which had been manufactured in sufficient quantity to about meet the domestic demand, imports in the last fiscal year being valued at only \$3,770,062, against \$35,746,920 10 years ago. Purchasers of many forms of finished steel are showing much eagerness to place contracts, while on the other hand pig iron is in less urgent reugest. Having no in less urgent reuqest. Having no further ammunition and drought reports for hoisting prices, speculators have turned suddenly to the other extreme and demonstrate that early frosts threaten all the late planted corn. The result has been a spot quo-tation at this city of more than 60 cents all the week, and the practic-al elimination of exporters from de-

mestic markets.

A healthy demand from domestic millers and phenomenal Atlantic exports give strength to prices wheat. As the season advances comes more apparent that foreign crop losses will necessitate unprece-dented shipments from the United States, and with the settlement of the strike on the Pacific coast, there will be a movement of great magni-
