Shortly after two o'clock Monday afternoon a workman on the alley nea the new residence for the Sisters dis-covered smoke issuing from a window in the Catholic church, and saw flame flashing behind one of the magnificent colored windows. The alarm was given at once and upon entering the church small room in southern corner of build-ing, immediately beside the altar. While awaiting the arrival of Hose Co. No. 1, good work was done with buckets by citizens. The fire was fairly well under control when the hose company arrived, but they did good service by completely checking the flame on the second story. The fire had evidently been smouldering for some time before its discovery, the church being filled with dense smoke from cellar to atti when entry was made, leading to th belief that there was fire in the attle also, but examination disproved this Excepting the thorough smoking which the whole church received, the damage was confined to the southern corner building. Together with other articl in the room, several robes were burned not injured except by water. fire started is unknown, but as there had been a funeral in the church that morning, the supposition is that a can-dle had been left burning in the room from which flame had been communi-cated to the woodwork. The loss, which will amount to about \$300.00, is covered by insurance. The edifice, which is valued at \$9,000.00, is insured for \$6,000.00.

Some of the Reynoldsville gentlemen who were present, whose names we will not mention, did groan after their canot mention, did groan after their ca-pacity compelled them to quit eating. Mr. and Mrs. Norris were the recipients of some useful and valuable presents, among which were three rocking chairs, two sets of silver knives and forks, cuckoo clock, Oxford bible, parlor lamp, cush-ions, toilet sets, towels, glassware, dishes, vases, and numerous other ar-ticles.
