finesse of which anarchy or nihilism ed steady, one eye which gazed with is capable, the would-be assassin carried out the work without a hitch.

the edge of the reised dats upon which stands the great pipe organ. Throngs of people crowded in at the various entrances to gaze upon their executhen fight their way out in the good natured mob that every minute swelled and multiplied at the points of ingress and egress to the building.

When the Shots Were Fired.

Mr. McKinley was in cheerful mood, Upon his right stood John G. Mil-burn, of Buffalo, president of the Pan-American Exposition, chatting with the President and introducing to him persons of note who approached. Up-on the President's left stood Mr. Cor-telyou.

rounded the Presidential party, a medium-sized man of ordinary appearance and plainly dressed in black, approached as if to greet the President. Both Secretary Cortelyou and President Milburn noticed that the man's hand was swathed in a bandage or handkerchief. Reports by bystanders differ as to which band. He worked his way amid the stream of people up to the edge of the dais until he wa Wits within two feet of the President.

President McKinley bowed, smiled and extended his hand in the spirit geniality the American people so well know, when suddenly the shart erack of a revolver rang out loud and clear above the hum of voices, the shuffling of myriad feet and vibra-ting waves of applause that swept

Threw the Assista Down.

There was an instant of almost omplete silence. The President complete silence. The President stood stock still, a look of hesitancy, almost bewilderment, on his face Then he retreated a step, while the pallor began to steal over his features. The multitude, only partially aware that something serious had happened, paused in surprise, while necks were eraned and all eyes turned as one to ward the rostrum, where a great tragedy was being enacted.

Then came a commotion. With the leap of a tiger three men threw them-selves forward as with one impulse, and sprang toward the would-be Two of them were United States Secret Service men, who were States Secret Service men, who were inch incision was made where the on the lookout, and whose duty it ball entered the abdomen and its was to guard against just such as had befallen the Presi-

The third was ney had not been touched, or the intes-a bystander, a negro, who had only tines perforated, and that it had lodg. It was only when he asked her to be talked freely.

Gen. Chaffee Annulled Sentence

Army courts in the Philippines have recently sentenced 13 guerillas and bandus to death and five to impris-

onment from 15 to 30 years. In the case of Simplicio Geronimilla, who

was sentenced to be hanged for acting as a leader of an armed band of in

surgents and killing two American soldiers, although he was living under

the protection of the United States as an amigo, Gen. Chaffee disapprov-ed the sentence and ordered the pr's-oner liberated.

ed out through the incision and care fully examined, and the utmost confi e exists that there was no injury doctors were exceedingly grat fied at the result and pronounced the peration a complete success.

Mrs. Mckinley Informed

Immediately the President was self and her sorrow, and has been almost as calm and self-possessed as the President himself. And no more than that could be said. For throughout it all the President has been cooler than those about him. He was so yesterday when the pistol was discharged against his beautiful he has eared for at the Exposition grounds, Director General W. I. Buchanan started for the Milburn residence to Buffalo, September 6.—A few puln-ures after 4 o'clock friday evening, while President McKlufey was heiding a public reception in the Tempic of Music at the Pan-American Exposi-tion, he was shot twice by an anarch-list, Leon Crolgosz. Standing in the midst of crowds numbering thousands surrounded by every evidence of good. news to Mrs. McKinley. It was finally decided that on her awakening or shortly thereafter Mr. Buchanan should break the news to her if, in the meantime her physician, Dr. Rixey, had not arrived, Mrs. McKinley awoke from her

sleep about 520 o'clock. She was feel-ing splendidly, she said, and at once took up her crocheting, one of her fa vorite diversions.

Immediately on Mr. Buchanan's ar-rival at the Milburn home, he had tel rival at the Miliouri nome, he had tes-ephonic communication cut off, for al-ready there had been several calls, and he decided on this as the wisest course, lest Mrs, McKinley, hearing the continual ringing of the phone bell, might inquire what it meant, Wills and the light of day recognition. While the light of day remained Mrs McKinley continued with her crochet ing, keeping to her room. When it became dusk and the President had not arrived, she began to feel anxlous

"I wonder why be does not come?" the asked one of her nices, There was no clock in Mrs. McKin-'s room, and when it was 7 o'clock she had no idea it was so late, and this is when she began to feel anxious concerning her husband, for he was lue to return to Mr. Milburn's house about 6 o'clock. At 7 o'clock Dr.

After Dr. Rixey had gone Mr. Bu-chanan said that the doctor had bro ken the news in the most gentle man ner to Mrs. McKinley. He said she stood it bravely, though considerably affected. If it was possible to bring him to her she wanted it done. Dr Rixey assured her that the Presiden could be brought with safety from the Exposition grounds, and when he left Mr. Milburn's it was to complete all arrangements for the removal of the President.

GRAVE SYMPTOMS APPEAR.

Physicians Fear Peritonitis and Septi-Blood Polsoning—Mrs. McKinley Only Allowed to See Him.

Buffalo, September 7.—President McKinley's condition is extremely grave. While his physicians hold out no hope, and the developments of the day have been somewhat encouraging, in that none of the symptoms of peritoultis or blood poisoning, which they so much drend, have appeared, medical experience with similar wounds causes much anxiety and the physicians shake their heads ing his stay. The President, though well guarded by United States Secret Service detectives, was fully exposed to such an attack as occurred. He stood at the great the edge of the raised like work without a hitch.

The President, though well guarded not at the most critical junctions and the physicians shake their heads gloomily when they speak of the future. Although their distinguished patient's condition has been favorable throughout the day they are the condition has been favorable throughout the day they are the condition has been favorable throughout the day they are the condition has been favorable throughout the day they are the condition has been favorable throughout the day they are the condition has been favorable throughout the day they are the condition has been favorable throughout the day they are the condition has been favorable throughout the day they are the condition has been favorable throughout the day they are the condition has been favorable throughout the day they are the condition has been favorable throughout the day they are the condition has been favorable through the condition has been favorable through the condition that the condition has been favorable through the condition has been favorable through the condition through the condition has been favorable through the condition through the condition has been favorable through the condition through the condition has been favorable through the condition through the ble throughout the day, they do not desire to buoy the country up with sin's shors he retreated a step, then talse hopes. His waistcoat was hurriedly opened, the President meanwhile admenishing those about him to remain calm, and telling them not to be also made to the fleshy muscles also made. "But you are wounded!" cried his secretary; "let me examine!" of the back and, if necessity required it could easily be located with Roent-gen's X-ray and extricated. They of the back and, if necessity required, gen's X-ray and extricated. They agree that it is now of more import-

What Is Most Dreaded

Peritonitis is what they dread most and after that septic poisoning, and suppuration of the wound. The crucial point will come within 48 hours possibly sooner. Indeed, one of the attending physicians said to-day that no signs of inflammation appeared before to-morrow night he would condder the chances of ultimate recovery exceedingly good. Several of his colleagues, however, are not so sanguine.

The President has been dozing drowsily throughout the major portion of the day. Two physicians and two trained nurses are constantly at his bedside. He has not yet fully covered from the effects of the ether which was administered to him. He was under the influence of the powerful anaesthetic over an hour. The result is that, although perfectly rational when conscious, he dozes muc of the time. Absolute quiet and free dom from excitement the physician as the great essentials now and visitors are rigidly excluded.

automobile ambulance and taken to the Exposition hospital, where an examination was made. The best medical skill was summoned, and within a brief period several of Buffalo's ants, Mrs. McKinley was the only person who crossed the threshold. person who crossed the threshold. The President asked to see her, and the physicians did not have the heart to refuse his request. She was there but a few minutes seated at his bed-side, as he in his devotion to her in

her illness has so often been at hers. Mrs. McKinley had been warned not to talk, and the President and

COING TO NEW YORK.

The Amalgamated Board Will Call Upon President Schwab and Try For More Liberal Concessions.

A settlement of the steel workers' strike against the United States Steel Corporation was looked for Saturday, it did not materialize, but that it is near at hand is generally conceded.
The longer the strikers hold off from
peace negotiations, it was said, the
more idle mills would be started and
the less union mills would be found on the list when final steps were taken to end the struggle. Every union mill that the trust has thus far start-ed since the strike began is to remain non-union, while those still idle when the agreement is reached will be allowed to remain union and under the Amalgamated influence.

President T. J. Shaffer and the mem

bers of the executive board of the Amalgamated Association will go to New York this week. The represent-atives of the organization go to the metropolis for the purpose of con-ferring personally with President C. M. Schwab, of the United States Steel Corporation. The terms of peace that have been handed out from the New York office of the trust are not pleas passed a good night and his condi-tion was encouraging. His mind was clear, and he rested well. There is not yet any indication of peritonitis. not yet any indication of peritonitis. and meet him personally. At first it was said that President Shaffer and the executive officers of the Amalga-mated Association would be enough to do the talking and they could reof the board in Pittsburg. This plan, bowever was not looked upon favordily by Mr. Schwab, who is said to have expressed a wish that all of the treating power of the organization should be present so that there could

he settlement.
It was positively announced Saturday that the trust had made no change in its original proposition for a setilement, and the only gain the Amal-gamated teen could make by going to New York would be the personal ex-planation of all the points of the agreement, and signing of the agree-ment with the officials of the trust. that what change had occurred was ment with the officials of the trust, for the better. Not the slightest pre in monitory symptoms of peritonitis apcials that when the matter was disent a little and give some concessions to the strikers. The risk in the delay of the settlement is caused, it is said, in the belief that some more liberal terms can be secured from the trust than those that have thus far been

The officials of the Demmler mills say that at least 800 men are at work there. It was also said that more men

would be at work on Monday, Mayor Black, of McKeesport, Satin the countries—and the learning to go so far as to declare that he is. But if he continues to improve for one more day, the danger of peritonitis, which is most dreaded, will have practically discipacated.

Saturday one of the doctors thought to the continue of the urday issued a summons for 200 citizens and business men of McKeesort to appear at his office on Monday morning for the purpose of being sworn in as deputies to act in case any trouble should take place when the attempt is made to open the steel mills. The business men of the town objected to the Mayor swearing in strikers to act as depudes, and they will now have to do the work themselves, as it is said that is hard to secure citizens in McKees port who do not work for the trust.

The strike of steel workers at Bay-view, Wis., is broken. The local lodge of the Amalgamated Association, at a meeting held Sunday, was disrupted, the radicals bolting and the con servatives voting to return to work. Fires are lighted at the plant, and work was started Monday.

SAMPSON HAS APHASIA

Precise Nature of His Nervous Ailmen

Discovered-He Will Testify. All doubt as to whether Admiral Sampson will or will not attend the Court of Inquiry as a witness was re-moved Wednesday when Captain Lemley, the Judge Advocate, received a letter from Mrs. Sampson. She declared that the Admiral will surely come. A special dispatch from Lake Sunapee says that the Admiral's affiletion is asphasia, the most notable symptom of which is the inability of the patient to find words with which in express his ideas. Before the Admiral left the Boston navy yard his venkness in this regard became noleeable in his efforts to prepare cial documents. The fact that Mrs ampson wrote the letter is taken mean that she has relieved him of ill he work of his correspondence.

VOLUME DIMINISHED.

Holiday Reduced Legilimate Business, and Affected Speculation-General Prices Are the Highest of the Year.

R. G. Dun & Co.'s weekly review of trade says: A hollday reduced the volume of legitimate business, while speculative operations were seriously curtailed by the general closing of exchanges from Friday afternoon to Tuesday morning. In the movement of merchandise and in many manufort to make the loss by working over time, but the week's record will fall behind those immediately preceding. Actual sales of many iron and steel products are recorded at material advances and the tone throughout 's hardened by vigorous demand. Placing of sample orders for spring foot-wear is of such character as to induce a healthy market, and some jobbers are so anixous for early delivery that contracts are being closed now. Despite more activity in the market for cotton goods and placing of Govern-ment contracts, the staple shows no great strength. Although unsettled in tone, little alteration occurred in the principal cereals. Trading was restricted and there was an apparent disinclination to assume an aggressive

stand on either side of the market, Commercial failures during the month of August were 803 and \$9,458-806 was the amount of liabilities. Compared with the same month last year the statement is most satisfactory, as failures were then only 735 in number and \$7,323,903 in amount.

Bradstreet's weekly report of trade conditions says: Industrial disturbances are not cutting the figure they did earlier. Prices for the fourth successive month have advanced, and are now well up to the highest of the year. The steel strike is gradually nearing its end, despite efforts to keep the trouble open. In the meanwhile demand steadily grows, and premiums for quick delivery of affected products mount up. Much of the bus-iness usually offering has been merely postponed, and great activity awaits the reopening mills. Plg iron is in better demand at nearly all markets, and foundry and forge iron are in larger demand, even at Pittsburg. Additional sales of rails for next year are reported, and the better demand. reported, and the business already booked in this and other lines assures activity throughout the winter. Job-bers' stocks of finished goods are badly broken.

Torpedoes, when first employed by the Americans against the English in the Revolutionary War, were called American turtles, and their use was pronounced infamous and worthy of
