# A GLOWING REPORT.

An Indiana Man Compares Western Canada With the United States-What Mr. Frank Fisher, a Prominent Dunkurd, Has to Say After a Trip Through Canada.

The Department of the Interior at The Department of the Interior at Ottawa has just received from Mr. E. T. Holmes, the Agent of the Govern-ment stationed at Indianapolis. In-diana, the following letter which re-quires no comment. It is only neces-sary to state that Mr. F. Fisher, the writer of the letter, s one of the most prominent of the Dunkards and man upon whose word the atmost re-liance can be placed. His home is at Mexico, Indiana, and he will pleased to substantiate verbally be in any other way all that he says in his letter.

Anyone desiring information should apply to nearest Canadian Agent, whose addresses are given: M. V. Mc-Innes, 2 Avenue Theatre Block, De-troit, Michigan: James Grieve, Sault Ste Marie, Michigan; J. S. Crawford, 214 W. Ninth screet, Kansas City, Mo.; Benjamin Davies, 1541/2 East Third street, St. Paul, Minn.; T. O. Currie, Room 12, B. Callahan's Block, 203 Grand avenue, Milwaukce, Wis; C. J. Broughton, 027 Monadnock Building, Chicago, Ill.; W. H. Ben-Domaha, Neb.; N. Barthelomew, 306 Fifth street, Des Moines, Iowa; J. H. M. Parker, 550 Chamber of Commerce, Duiuth, Minn.; E. T. Hoimes, Room 6, Big Four Building, Indian, Room 6, Big Four Building, Indian-apolis, Ind.; Joseph Young, 51½ State street, Columbus, Ohio.

To My Many Friends: I am pleased to make a report to you of the pleasant visit my wife and I had in Western Canada.

We visited the territories of Alberta, 'Assinibola and Saskatchewan, and nnd found them far surpassing our imag-ination, but little did I expect to find such rich, loamy soil, so much of it, and so uniform in its level prairie lay. I do think the soil of Canada as a rule equals, if not excells, the finest farm lands of Indiana. These lands are immense in their richness, and when once the sod is rotted and pulverized, it is as pliable and as easily cultivates as Indiana sandy

Western Canada, from my point of view, offers as fine opportunities for mixed farming as any place in my knowledge. The long sunshiny days, together with the rich soll produce very fine wheat, oats, barley, flax and other cereal products. There is scarce ly any attempt to raise corn, except early varieties for table use. The The season is too short to depend upon maturing field corn. From the standcoint of getting this land ready for the plow, I must say that I never saw such a vast extent, practically all ready, so all that one has to do is to hitch up the plow and go to work. This is not the case with all the Canadian land, however; some of it has quite a bit of timber, much of it may called brush land and some of it has lovely forest groves, dotted here and there, thereby covering a hundred

and sixty acres. I have no doubt but that this country excels as a grazing or ranchir, country, because they have such rich grass, having and abundance of rain to keep it fresh. They also have plenty of water streams, and as a rule water may be reached at a depth of from twenty to forty feet. From this you see there can be plenty of mown for winter feeding, and

have had reliable farmers to tell that their stock will feed on hay alone, and be ready for market in the spring. Upon inquiring about the expense of raising a steer, a farmer replied that he did not consider it would cost any more than \$4.00 or

\$6.00 to develop a three-year-old steer. I truly think Canada offers a fine opening for a young man or a man who is renting land in Indiana. One hundred and sixty acres of good black land will cost you only \$10.00 (\$10.00) at the time you enter it, and by plow-ing and cultivating five acres each year for three years, gives you one hundred and sixty acres of good land OF INTEREST Sellen States

A Pioneer Woman Physician.

Dr. Hannah W. Longshore, of Phil privileges for women. adelphia, who reached her eighty-second birthday a short time ago, was a pioncer among women in the medical carpet sweeper factory of Grand Rapprofession, having been a practitioner in that city for fifty years. She is a graduate of the Woman's Medical College, and was one of the first of the women physicians of Philadelphia.-

Woman's Journal.

March Women as Undertakers. A new opportunity for women was discussed at a meeting of the Kansas State Association of Undertakers by a woman speaker, who said: "I can safely promise the women who contemplate entering this calling a most kindly reception on the part of the men, for 1 am sure they will find that our co-operation is just what is needed in the art of embalming."

One Way to Carry a Watch.

The entire ; up-to-date girl now wears her watch dropped inside her collar, with a chain five or six inches long hanging outside. This is to keep the timepiece within easy access, as without such precaution, it would be likely to slip out of reach. The chain is finished by an ornament or seal, the odder the better. A curious pendant is a miniature sarcophagus that holds a tiny vinalgrette or puff.

#### English Women Like Jewels.

French women care more for the en semble of their gowns, while the English women are particular about cer tain points. The English woman prefors fine jowels, if less money is put into her frocks. It is for this reason that a quantity of French jewels were sold recently in England, Among these was a magnificent pearl necklace weighing 9050 grains and made up of 424 magnificent pearls, evenly matched and of exquisite quality. The

The Unhygicale Earring. A French savant is protesting vigorously against the practice among civilized women of wearing ear-rings. He pronounces it not only a relle of barbarism, extraordinary and incon-gruous at this stage of the world's progress, but remarkable besides, in the light of our improved sanitary knowledge. Every wound, or even abrasion, of the skin is a danger spot, thoroughly understood in these days of germs and microbes and wanton laceration of a healthy part of the body for the display of gold and jewels is a relic of savage vanity which

> 14 Queen Will Be a Nurse.

the modern woman should be ashamed

of.

That spirit of progress so rife among the women of Europe has attacked the Princess Frederick Augusta of Saxony, daughter of the Grand Duke and Duchess of Tuscany, who some day will be the Queen of Saxony. She is now taking a regular course of training as a nurse at the Lutheran Hospital, in Dresden. While she is taking the entire course

the Princess is particularly interested in ambulance work and what is known in the army as "first ald to the injured." Her Royal Highness attend vorn wreaths of flowers under their

frocks look better worn over white awn under-dresses, but a color may be used if desired, and an entirely different, effect may thus be gained. With i all-white a variety is made by the sas, and ribbons that are worn. These may be of surah, taffeta, or sat-In, if so desired, but the best of all are the soft penu de sole ribbons that this year come in such attractive shades.-Harper's Bazar.

blown for the men to quit for

"Well," he broke out, "since it isn't for stealing I'll be flogged." "No." snid the Prince, "you must ge bome."

Then the boy broke down utterly. "But," he cried, "I want to avenge my father and brothers?"

He went away, still crying, and the Prince said: "In spite of all this, Prince said: he will be in the next battle."

In a Nest of Reptiles.

Three women had a terrible fight, a few days ago, with a great nest of snakes on an island in the St. Lawrence River. Mrs. Ellazbeth Dennis and her daughter Anna, of No. 22 ILLIAM PEYSER, who ex-Nelson place, Newark, N. J., with perienced a fall of almost Mrs. Mary Scherr, of Atlantic City, one hundred feet from the the latter a sister of the Scherr Brothers, jewelers of Philadelphia, twelfth floor of the Wells building without any serious injury had visited the Pan-American Exporesulting, sat at his home, G1 Juncau sition at Buffalo, and last Wednesday avenue, a week after the experience started for a trip down the St. Lawand related the story of his remarkrence. On Thursday morning they able accident. He had just returned stopped on one of the islands, and from a base ball game at Thirty-ninth while wandering around viewing the and Clybourn streets, and said that scenery, they stumbled on a nest of he would have played in the game snakes. Before they could realize himself had his knee not been stiff. their danger they were surrounded by the hissing, angry reptiles.

Mrs. Scherr and Miss Dennis fied for their lives, but Mrs. Dennis was unable to break through the ring of snakes, and had to fight her own battle. Miss Dennis ran into the woods and found a branch of a tree, which she used as a club in the fight that followed. In the meantime Mrs. Dennis, armed only with her parasol, had given battle to the reptiles, but had een bitten several times before her daughter and her club got into the fight. Miss Dennis laid about her lustily, and by the time Mrs. Scherr. who had also found a club, returned, the fight was all but over. Mrs. Dennis was half carried and

half dragged out of harm's way and taken to a botel, where she was atlended by a physician. The river trip was abandoned owing to Mrs. Dennis' condition. The details of the injuries to the Newark woman have not yet been ascertained.

Fought Horse and Wildcats.

Fighting for her life with wildcats "I started to slide and had gone but ind mounted on a runaway horse, short distance when I realized that Mary Sumter, a pretty Bell County I was falling. My hands had stopped (Kentucky) girl, dashed past the little moving along the rope. What was I country store on Taggett Creek. One to do? My first thought was, and I of the cats had sunk its teeth into the must have said it loud enough for horse's neck, while the girl fought any one around me to hear. 'Well, madly with the other. A hundred good-by, Bill, it's all off with you now. yards from the store the horse swerved and fell, throwing the girl and the two counted every door as I passed it. cats to the earth. Half a dozen men, It seemed as though I were a year who were loafing on the porch, rushed in dropping, Down, down, down, to the girl's assistance, and she was down, 1 went, into what seemed a borne into the house more dead than alive. "I am told that I struck a beam of

The experience she will remember to her dying day. A mile and a half from the store the cats had sprung upon the girl's horse from an overhanging tree. Fortunately only one attacked her, the other digging its teeth into the horse. She fought as best she could while her frightened steed ran madly down the road. Her breast and her arms were terribly torn, and there are the marks of the claws in her right side and in her neck. The scars she will carry to her grave.

Physicians were summoned hastily, "I have read the tale of my fall and out on account of the distance were escape in every metropolitan news late in arriving. The loss of blood paper from New York to San Franwas great, and the girl may not live.

## Russia a Land of Uniforms.

If anything Russia excels even Gernany in the matter of uniforms. On the sidewalks of any of the large ities, and more especially at railway stations, it is safe to assert that at least 25 per cent, of all male adults are in uniform. It is a puzzle to the tourist to identify the bearers of such distinctive garbs, consequently the different branches of the Govern-neart service are often wrongly interpretted. The gaudy uniform does not a ways indicate a high efficial, as an officer of high rank may appear in a plain uniform and one of low rank not infrequently parades the streets with more fuss and feathers than his community. his commander.

In the time of Pliny, silk was sup-posed to be a vegetable product and his "Natural History" contains a lou; ctory of the way in which it WHH icked from trees in the East Indies and spun and woven into fabrics.

for \$10.00. This land can be bought from the rairoad companies, private corporations or the Government for 00 to \$4.00 per acre. From a financial standpoint, I be-

lieve that for a series of years (five) a young man can make \$10.00 in Canada whereas he would only make \$1.00 here, and I feel sure that I spent more money to get my eighty-acre farm in White County, Indiana, cultivated, than it would cost me to cultivate algorithm. This eight hundred acres in Canada. This may seem a strong view to take of the matter, but when you take into consideration the clearing, ditching, fencing and the expensive breaking in of the stumps, and then compare the expense to that of land needing only breaking, you will conclude that it is not such a wild or exaggerated

ent as you might at first think. I enjoyed the balmy, breezy atmosphere, which was bracing and refresh-ing, and the cool nights which made

t so pleasant for sleep. On making inquiries regarding the winters in this country, I learned that the people never suffer from the cold, weather is dry and invigorat ing, and in a great many places farmers and herders allow their stock to run outside the year round.

One great advantage to the settlers n Western Canada is the free creameries established by the Government, and run exclusively in the interest of farmer. the
