Glass Notes. George Williams, a flattener, was called to his home in New Castle Saturday by the serious illness of his son.

Charles E. Glass, boss cutter at the Star Glass plant, had his right hand severely cut while at work Saturday

to sew up the wound. It is not likely that the glass plant at Brook ville will be started this fire. The delay was caused by the contractors being unable to get the steel for the structural work of the new plant. Many

of the glassworkers who moved to Brookville since last fire, expecting that the plant would be ready to start this fall, have moved away to points where they can find work.
