

MOST EXPENSIVE TIDBIT.

Peanut Bud Paste of China Costs an Enormous Sum.

China, possessing the oldest aristocracy, may naturally be expected to furnish the most expensive luxuries. And she certainly does in so far as a costly food is concerned. Compared with the peanut bud paste of China, such dishes as nightingales' tongues or starfishes at Christmas are merely trifles. This paste, a combination of peanut buds and gingers, is brownish in color, and is to be obtained in small jars. The price is \$10 an ounce, more than half that weight in gold, an almost sufficient guarantee that it is eaten very sparingly. Peanut bud paste is said to have a flavor for Oriental palates 10 times more exquisite than that of birds' nest soup. At the base of the kernel of a peanut is a small cone-shaped formation, usually surmounted by two microscopic leaves. The nuts are first roasted, then these minute growths are carefully extracted. They are so small that many thousands of them are necessary to fill a small teacup, but when a sufficient number are collected they are put into a mortar and ground into a fine flour, which is afterward mixed with ginger jelly and rubbed down to a smooth paste.

Thrown From His Cab and Killed.

The following is a most interesting and, in one respect, pathetic tale—
Mr. J. Pope, 42 Ferrar Road, Streatham, England, said:
"Yes, poor chap, he is gone, dead—horse bolted, thrown off his seat on his cab he was driving and killed—poor chap, and a good sort too, mate. It was him, you see, who gave me the half-bottle of St. Jacobs Oil that made a new man of me. 'Twas like this: me and Bowman were great friends. Some gentleman had given him a bottle of St. Jacobs Oil which had done him a lot of good; he only used half the bottle, and remembering that I had been a martyr to rheumatism and sciatica for years, that I had literally tried everything, had doctors, and all without benefit, I became discouraged, and looked upon it that there was no help for me. Well," says Pope, "You may not believe me, for it is a miracle, but before I had used the contents of the half-bottle of St. Jacobs Oil which poor Bowman gave me, I was a well man. There it is, you see, after years of pain, after using remedies, oils, embrocations, horse liniments, and spent money on doctors without getting any better, I was completely cured in a few days. I bought another bottle, thinking the pain might come back, but it did not, so I gave the bottle away to a friend who had a lame back. I can't speak too highly of this wonderful pain-killer."

A WOMAN'S HAND.

A woman's hand! So white, so wee, So covered up with jewelry, So soft, so delicately planned That you can hardly understand The strength in its fair symmetry.

A hand to set a grim cook free, Or curb a tyrant's tyranny— By simple gesture of command— A woman's hand.

Ah, but I hold in memory The vision of a bended knee, I still hear echoing through the land Yells that were futile, foolish, and I still feel coming down on me A woman's hand.

Brooklyn, N. Y., Nov. 15.—A medical authority says: "There is hardly a family anywhere in which the Family Physician is not often taken the place of the Family Physician, for practically everyone suffers at times from disorders of stomach, liver, kidneys or bowels. Certainly from no other medicine can such good results be obtained. This remedy makes people well and thus greatly increases their capacity for enjoying life; it is good for young and old."

Speedy Unloading of Baggage.

An ingenious time saving appliance for transshipping mails and baggage in connection with the cross-channel service has been brought into operation at Dover, England. The appliance is in the form of an endless traveling platform and is worked by electricity. It brings packages of any weight ashore at the rate of one in 15 seconds. Some of the packages unloaded recently weighed seven hundredweight, and required four men to lift them; but they were brought ashore as easily as a handbag. The transshipment was performed in less than half the usual time.

Beware of Ointments for Catarrh of the Uterus.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure to get the genuine. It is taken internally, and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

WORLD'S LARGEST TABLELAND.

On It is Located the Greatest Part of Thibet.

The bulk of Thibet is the Chang, or Great Thibetan plateau, the highest as well as the largest tableland on the earth. An idea of its elevation may be obtained from the statement of Captain Hamilton Bower, one of the most highly regarded of recent authorities. "From the end of June until the middle of November the average altitudes of our camps was over 16,000 feet, the lowest being 14,621 and the highest 18,760 feet. During the period already referred to the enormous stretch of country crossed by Captain Bower's party did not show a single tree and only two species of shrub, and these rarely exceeded six inches in height."

It Reached Him.

A letter was received at the post-office in Washington directed to the biggest fool in that city.

The postmaster was absent, and on his return one of the younger clerks informed him of the receipt of the letter.

"And what became of it?" inquired the postmaster.

"Why," replied the clerk, "I didn't know who the biggest fool in Washington was, so I opened it myself."

"And what did you find in it?" inquired the postmaster.

"Find?" replied the clerk. "Why, nothing but the words, 'Thou art the man.'"

One Bite Caught Two.

A reliable fisherman from Michigan tells the star fish story of the season. He says he was fishing on Selkirk Lake, Kalkaska County, for pickerel. There was a bite, and in due time the fisherman struck and hooked what he supposed to be a big pike. His surprise was great as the catch was brought into view, when he saw, instead of one fish, two. One, a two-pound pike, had taken the hook in the regular way. The other weighed five pounds and had the line wrapped twice about it gills, so that it was hopelessly entangled.—New York Times.
