## About Plumbing...

If there is a job about your house you want done right, it is the Plumbing: When you want a house built you don't go to the milkman; you go to somebody who makes building houses his business. Same way with plumbing. When you want first-class work you go to a place where they make Plumbing their business. We have been in the plumbing business for years. We think we know something about it. The work we've done in Reynoldsville since we located here is evidence that a good many other people think that way too. If you have a job of plumbing or repair work and will phone or drop us a card, we will be glad to call and talk it over and submit an estimate. Work talks. We are not the ONLY plumbers in town, but we're willing to let our work demonstrate that we can do first-class work at moderate prices.

**Some Other Day.**  
There are wonderful things we are going to do  
And harbors we hope to drift into  
Some other day.  
With folded hands the ears that trail,  
We watch and wait for a favoring gale  
To fill the folds of an idle sail  
Some other day.  
We know we must toil if ever we win  
Some other day.  
But we say to ourselves there's time to begin  
Some other day.  
And so, deferring, we loiter on  
Until at last we find withdrawn  
The strength of the hope we leaned upon  
Some other day.  
And when we are old and our race is run  
Some other day.  
We fret for the things that might have been  
Some other day.  
We trace the path that leads us where  
The beckoning hand of grim despair  
Leads us yonder on or here  
Some other day.

### The Munificence of Carnegie.

Andrew Carnegie has once more caused the world to look in wonder upon him by a gift of \$10,000,000 to establish a national university at Washington, D. C. In doing this he makes possible the wish of President George Washington that a great university be founded at the nation's capital. That the government at Washington is a great political machine is well known; that it is one of the greatest educational and scientific institutions in the world is not so widely known. Every year government experts and scientists spend about three million dollars in making scientific researches, and the information thus gained is stored in the government buildings and libraries at the capital. The advantage of having a university where immediate access can always be had to this vast mine of information is manifest. The proposed university, however, will in no wise be a rival to existing colleges but will be an institution distinctly superior in aim and object, not aiming to teach what is already known, but to devote all efforts to the acquisition of new scientific facts. But there is another side to this giving business of Mr. Carnegie which may, or may not, be fair to him. It is an old adage that one should ever look a gift horse in the mouth, but some persons are very ungraciously examining Mr. Carnegie's gift horses and are not in the least pleased at what they find. One object that we will soon come to rely so much on the gift horse that we will lose the use of our legs, or to speak less metaphorically, that so much giving will make us depend less on our individual effort. Another object that when a gift is given in true generosity the giver should not so prominently attach his name thereto that all the world may see forever who has been so charitable to us. And last, one thing in mind the great Homestead strikes of a few years since, grumbles that there's not much generosity in giving back to the people that which was originally taken from them in cut wages. But, after all, the great mass of the people will agree "that the giving hand, though foul, should have fair praise," as Shakespeare wisely says.

### Mexico and California.

The Pennsylvania Railroad Company's Personally-Conducted Tour to Mexico and California will leave Pittsburgh on February 11, visiting St. Louis, San Antonio, Monterey, Tampico, San Luis Potosi, Guanajuato, Irapuato, Guadalajara, Queretaro, City of Mexico, Aguas Calientes, and El Paso. At El Paso tourists for California only, who will leave Pittsburgh February 26, will join the party, and the Mexican tourists who do not care to go to the Pacific Coast will return to New York. The California party will visit Los Angeles and the Southern California coast resorts, San Francisco, and, on the return trip, the Grand Canon of the Colorado in Arizona. Tourists will have fourteen days in Mexico and nineteen days on the Pacific Coast, the California tour returning to New York on March 27, the whole tour covering forty-five days. The rate, covering all necessary expenses during the entire trip, will be \$570 from Pittsburgh and \$575 from points on the Pennsylvania Railroad east of Pittsburgh. For Mexico only the rate will be \$345 from Pittsburgh and \$350 from points east thereof, and for California only \$370 from Pittsburgh and \$375 from points east thereof. The party will travel over the entire route in a special train of Pullman drawing-room sleeping cars, compartment, dining, smoking, and observation cars. California-only tourists will use special cars to El Paso, and Mexico-only passengers will use special cars returning from El Paso. For detailed itineraries and full information address Thos. E. Watt, P. A. W. D., Pittsburgh, Pa., or Geo. W. Boyd, Assistant General Passenger Agent, Philadelphia, Pa.

### Saw Death Near.

"It often made my heart ache," writes E. C. Overstreet, of Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for coughs, colds, bronchitis, asthma and all throat and lung diseases. 50c. and \$1.00 at H. Alex Stoke's Drug Store. Trial bottles free.

### A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. L. B. Hunt of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful stomach, liver and kidney remedy. Cures dyspepsia, loss of appetite, try it. Only 50c. Guaranteed. For sale by H. Alex Stoke.

**Holiday Excursion Rates.**  
In accordance with an old established custom the Buffalo, Rochester & Pittsburgh Ry. will, this year, issue excursion tickets between all stations on its line between Buffalo and Pittsburgh inclusive, including Clearfield Division, account Christmas and New Year's Holidays, at a fare and one third for the round trip. Tickets will be sold and good going on Dec. 24, 25 and 31, and Jan. 1, 1902, limited for return passage until Jan. 2, 1902.

**Food Changed to Poison.**  
Putrefying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing constipation, biliousness, sick headache, fevers, all liver, kidney and bowel troubles. Only 25c. at H. Alex Stoke's.

**Heading for the Penitentiary.**  
If some of the elderheads do not land in the penitentiary before the window glass factories close down next spring they can credit Providence with being exceedingly merciful to them. That many of them have placed themselves on a toboggan heading straight to that institution is an open secret and all that would be necessary to land them would be for manufacturers to push claims against them for which they have ample evidence in hand to convict. Owing to the scarcity of workmen and the resultant disposition on the part of manufacturers to grin and bear almost anything in order to fill spare places, the irresponsible and unscrupulous yellow dogs in the trade have been cutting all sorts of monkey-shines and in many instances have secured money from firms by false pretense under agreement to go to work, but as soon as they have the long green in their possession they move on to the next town and proceed to repeat the offense. This method of stealing has been indulged in so freely that some of the victims have about decided to pull the string and we could name several "dead beats" who are now in the shadow of the prison walls behind whom the gates are liable to close any day. The sooner they are landed the better it will be for all concerned, since they are a menace to society and a disgrace to the labor organization which covers them with its shield.—National Glass Budget.
