## About Plumbing ...

If there is a job about your house you want done right, it is the Plumbing: When you want a house built you don't go to the milkman; you go to somebody who makes building houses his business. Same way with plumbing. When you want first-class work you go to a place where they make Plumbing their business. We have been in the plumbing business for years. We think we know something about it. The work we've done in Reynoldsville since we located here is evidence that a good many other people think that way too. If you have a job of plumbing or repair work and will phone or drop us a card, we will be glad to call and talk it over and submit an estimate. Work talks. We are not the only plumbers in town, but we're willing to let our work demonstrate that we can do first-class work at moderate prices.
