HOOVER'S NEW BLOCK.

Occupied by Clothing Store, Dental Office and Young Men's Association.

AMONG the number of substantial improvements on Main street last year was the two story brick erected by Dr. B. E. Hoover, a picture of which appears above. The building is 22 feet wide and 85 feet deep. It is a red brick building with a brown stone front. The first floor is occupied by H. W. Eason & Co.'s large clothing store. This room was fitted up especially for the clothing store and is conveniently arranged. Two front rooms on second floor were arranged especially for Dr Hoover's dental rooms and they are well lighted and are excellent rooms for dental office. The rear of second floor is used by the Young Men's Reading Association. It is divided into two rooms with folding doors between. There are also bath rooms and closets in connection with reading rooms. The entire building is wired for electric light and piped throughout for gas and water. It is also heated throughout with steam heat. Such buildings are certainly a credit to our town.

Men and Measures.

In our present state of prosperity we must not lose sight of those principles that have made us what we are. Nor can we over estimate the importance at this time of placing in office ardent advocates of our tariff legislation and our foreign policy to which our country owes its present advancement.

In our party caucus held in Lindsay some three years ago, and before we had reaped the fruits of our Republican policy, Mr. G. W. Porter, now our candidate for the nomination for Assembly, eulogized our tariff system, and spoke in glowing terms of the benefits to be derived from our foreign policy.

The results of succeeding years show clearly Mr. Porter's foresight when he depicted our nation's advancement as a consequence of our Republican measures. It is fortunate that we have such material in our party. We can also congratulate ourselves on the fact that Mr. Porter is determined to carry on this campaign to a finish. He has declared openly that he is in the race to stay and under no considerations will he withdraw from the canvass.

The Shakespearian society was postponed last week on account of the auditorium being occupied by the "Mothers' Club."

Dr. Neale visited the high school last Wednesday.

Vila Arley is on the sick list.

Notwithstanding the severe cold weather we have had the last few weeks, the school building has been very comfortable. We certainly have a good system of heating, far excelling that in our former building.

The McKinley memorial exercises were well attended by the town people. McKinley's life appeals strongly to every boy and girl. No president of late years has been loved by the children of our nation as was McKinley. The offering for the McKinley fund was not as large as we should liked to have had. A monument to Wm. McKinley is a monument to American manhood and strong self-reliant, industrious persevering youth. This memorial is to rise above the grave at Canton, Ohio, where he will finally rest, according to his own wish.

February might be called a patriotic month. Altho' it is a short month many important events occur. Feb. 12 is the birthday of Abraham Lincoln, one of our martyred presidents. Feb. 22, is Washington's birthday.

A large audience greeted Champ Clark last Friday evening. His lecture was up to the high standard of our other entertainments and was certainly a treat to those interested in political affairs.

Our school hill has been almost impassable. The sidewalks have been a glare of ice for the past two weeks. Several pedestrians on Friday evening received slight shocks when returning from the lecture. Coasting is fine. The children enjoy coasting and also the children of a larger growth.

The 20th Century Club of Room 13 have elected the following officers: Pres., Sara Keller; V. Pres., Bessie Sensor; Sec., John Plyler; Critic, Margaret Dally.

The Shakespearian society will have a mock trial Feb. 28.

A sleighride given by the Senior Class was a thorough success. The party consisted of about eighteen Seniors and Juniors with Miss Dally, Miss Kunes, Prof. Lenkerd and Prof. McClure as chaperons. Leaving Reynoldsville about 2:00 p. m. we arrived at our destination, Punxsutawney, about 5:00 p. m. and partook of a sumptuous supper at Hotel Pantall, where we were received with great kindness. Several members of the party, whose names we will not mention, were greatly taken (?) with Punxsutawney and were very reluctant about leaving. After some delay the merry party started on its homeward journey, arriving in our native town about 12 o'clock midnight. We all had a pleasant time which will not soon be forgotten.

Mrs. Soffel's Offense.

If Mrs. Soffel is guilty of no worse crime than that of having her sympathy excited because the Biddles were shut up in iron cages awaiting death, she is not to be severely censured. It is the nature of women to be sympathetic. There are physiological reasons for it over which she has no control. She is made for motherhood, and helplessness or distress appeals to her with a force that men cannot understand. It is that tenderness which fits her for maternity, and which is a part of her being. Very frequently we hear of women taking a morbid interest in some brute in human form who has committed a crime that should excite only execration in the human breast. They never do it, however, until the wretch is in the hands of the law and is rendered powerless to further injure society. For that very reason women are unfit to administer justice, and would be unsafe even as criminal lawyers. If, however, Mrs. Soffel was prompted by a guilty love for the depraved being for whom she abandoned everything, she is either insane or a moral monstrosity. To forsake the sacred duties of motherhood on account of a base passion for a desperate criminal, places her outside the pale of womanhood. By accompanying Ed. Biddle with the idea of living with him, and leaving four or five small children at home, she was violating a law of nature of which even a wolf or a hyena would not have been guilty. —Punxsutawney Spirit.
