Want a New Station.

The Brookville Republican, which does not often kick about things, "ris" up last week and delivered a very neat, emphatic and justifiable protest against emphatic and justifiable protest against the little red shanty at Brookville, which is called the P. R. R. passenger station. Not only the Brookville people, but the travelling public are pertainly entitled to a better station than the small incommodious shack that is now used at that point for a station. tion. We have been at Brookyille fre-quently when the red shanty would not quently when the red shanty would not accommodate all the people that were waiting to get on the train, especially is this true during court week. Brookville has brick-paved streets, electric lights, water works, in fact is a good town, and we are only surprised that a long, loud how has not been raised ere this for a new, modern station. They have good grounds for kicking. The Pennsylvania Railroad Company takes pride in being progressive along all lines, and we are inclined to believe that the pressing need of a new station lines, and we are inclined to believe that the pressing need of a new station at Brookville has been either an over-sight or else the matter has not been presented to the proper authorities.

Average Layman's Opinion.

It is surprising to note how much the average layman, who never saw a case of small-pox, knows about the disease. The physicians, in his opinion, are a pack of pretentious dolts, who diagnose harmless skin eruptions as small-pox merely for the fun of the thing. People do not necessarily get very sick with the small-pox, and often feel no particu-lar discomfort at all after the eruption has appeared, and because of this fact it is difficult to convince those who have no special knowledge of the character and habits of the disease that it really is the much dreaded small-pox.—Punx-sutawney Spirit. We have some of this class of laymen in Reynoldsville. We have some laywomen also who know

FIRE EARLY THIS MORNING.

W. D. Williams' Shoe Stock Destroyed-Partly Insured-Foster's Building

About 1.45 this morning Wm. M Poster, who sleeps in the front room or second floor of his brick building, near postoffice, discovered that the lower part of building, occupied by W. D. Williams' shoe store, was on fire. gave the alarm and the fire company responded, but Mr. Williams' entire stock was most all destroyed, at least ondly damaged before the fire was controlled. Fire ran along the shelving on ooth sides of store room and burned the end off most all the shoe boxes. It was a orry looking store this morning. The fremen succeeded in confining the fire to the store room and second story of building was not damaged. Mr. Williams carried over \$5,000.00 worth of stock and his insurance will only cover about two-thirds of loss. Mr. Foster estimates damage on building to be \$300.00, with no insurance. Cause of fire is a mystery. Mr. Williams did not have any fire in his store but the gas lights.

A couple of firemen were stationed at the doors and no one but the firemen were allowed to enter the store and this prevented persons so inclined from stealing shoes.

New Rooms for Business College.

The second story of Deible Bros.' new brick block, on Main street, will be oc cupied by the Reynoldsville Business College, and Proj. Hughes is having the rooms made so that it will be a convenient place for the school. The front room, which is a large room with windows in front and skylight in centre, will be the commercial department.
One of the rear rooms will be for shorthand department and the other for typewriter department. Off from these are closets and toilet rooms. Off from commercial department, in front part of building, will be the business office. All the rooms are well lighted and can be easily ventilated. The rooms will be fitted for gas and electricity for ighting.

When the rooms are finished and the Business College moves into the new quarters Reynoldsville will have a col-lege that will compare favorably with lege that will compare favorably with some of the city colleges, and we will have reason to be proud of the Reynoldsville Business College. Prof. H. J. Hughes is an experienced and excellent teacher, with a good corps of assistants, and it will only be a matter of a short time until this college will have a wide reputation. There will be no excuse hereafter for young people of Reynoldsville and vicinity going away from home to get a business education when they to get a business education when they can get it at home. Our town has need-ed just such an institution for several years, and now when we have a good one the people should sustain it in every

possible way.

Across the hall from the college departments rooms are being fitted up for dwelling and Prof. Hughes will live here.

Sparkling Wit.

Bishop Fowler is the recognized lead er of the Methodist Episcopal Church, and stands second to none as an orator, in the estimation of the America people. He has frequently distinguish ed himself on great national occasion by his superb efforts, but it is safe to say that his lecture on "Abraham Lin coln" in its lofty thought, historic data diplomatic insight, burning patrictism, sparkling wit, vivid word painting, classic diction and captive eloquence is the great masterpiece of his life. It is enough to immortalize him. Had he never been known until the production of this process process in the production of the process process. of this prose poem, his genius would live in American literature and his name go down to imperishable fame.-Minneapolis Times.
