# County Superintendent.

Elsewhere in this issue of THE STAR will be found a notice to the school lirectors of Jefferson county to the effeet that a convention will be held in Brookville Tuesday, May 6th, to elect county superintendent for three year term. The present county superintendent, Prof. R. B. Teitrick, who has served two terms, is a candidate for reelection without opposition, at least we have not heard of any person foolish enough to enter into a contest with uch a strong candidate as Prof. Teitrick. We doubt if there is another county in Pennsylvania that has as bright, aggressive and hustling county superintendent as we have in Jefferson county. Prof. Teitrick has proven himself to be such a competent man for the office of county superintendent that the directors do not desire to make a change. Why should they? The schools of the county were never in better condition.

# Brookville Glass Plant.

At a meeting of the Board of Direc tors of the Brookville Glass Company, held on Saturday evening, it was de

cided to commence the manufacture of glass at its plant in this place on Tuesday, April 14th. While the buildings are as yet not nearly completed work on them has reached that point that the plant can be started up without interfering materially with that part of the work. The company has met many the work. The company has met many obstacles during the progress of the work of building the glass plant here, the most serious of which was its ina-bility to get the steel for the buildings, although a binding contract was had with a reliable firm for the prompt delivery of the steel, but the railroad was so overrun with freight that it was imso overrun with freight that it was im-possible to get the material delivered. The management has this satisfaction, however, that no matter how much the delay and vexation, they have finally succeeded in building one of the best glass factories in the world, as it is so removing the these who are in a resipronounced by those who are in a posi-tion to know. The plant will be started up next Tuesday, and if nothing hap-pens it will be run continuously until the first of July.—Brookville *Republi*-
