He Won the Youngster.

The Rev. Dr. Mackenzie of San Francisco was once calling on a new parishioner who had a "limb" of a boy. She had invited the doctor to dine. "Willie," she said to her hopeful, "pass Dr. Mackenzie a potato."

Willie seized the potato between thumb and finger, and before his mother could utter a horrified remonstrance he had tossed it across the table and squarely into the good man's lap. "Judgment!" cried Willie. "One strike!" quoted the quick witted clergyman. "Willie, leave the table!" stormed his mother. "Madam," said the minister, "do not judge him harshly. See how beautifully he put the sphere over the plate."

Cure For Hiccough.

Hiccough usually attacks persons of nervous temperament and young children who have overloaded the stomach. It may also be induced by eating foods which have been too highly seasoned. The most useful remedy and perhaps the most inoffensive and the best consists in sucking a piece of sugar which has previously been steeped in vinegar or drinking a spoonful of good vinegar in which some sugar has been dissolved. If this is not at once successful, a second spoonful is certain to be so.

A Hungry Musician.

During the siege of Ladysmith an officer who was organizing a concert to keep up his men's cheerfulness heard of a sergeant in the Gordons who was said to be a performer. He found the said sergeant and asked him to contribute his services. "The sergeant was sorry, but said he "couldn't."

Modern Instance.

"And now," he said, "we will see what our old friend the apostle Paul has to say. Step up here, Paul, and give us your testimony." No, the speaker wasn't a flippant prosecuting attorney in the celebrated trial before Felix. It was the Rev. Mr. Seventy, the popular pastor of the Blank Avenue church, who was preaching a doctrinal sermon—Chicago Tribune.

Peccolines of the Opossum.

The American opossum is one of the most curious animals living in the United States. It is the only one that carries its young in a pouch like the kangaroo. It is the only animal that can feign death perfectly. It is remarkable for hanging by its tail like a monkey. It has hands resembling those of a human being. Its snout is like a hog's, while its mouth is liberally furnished with teeth. Its eyes are like a rat's, and it hisses like a snake.

The Economical Mule.

The mule is ready to begin work two or three years earlier than the horse. He can be put to pretty heavy pulling when he is three years old, and from that time until he is forty, if he has fair treatment and does not meet with an accident, he is not likely to lose any time. He is not subject to the many ailments to which the horse is a victim, at least not to any great degree. He lives about twice as long, and his actual period of usefulness is nearly three times as long. For the horse is really not fit for heavy service until he is five years old—after he is twenty, while a mule will often do good service for forty years, and they have been known to work fifty, according to one writer, without being turned out at any time during all that long period.

Like the ass, the mule will live upon next to nothing, and during all his forty years of hard service a mule will not require—and generally does not get—half the feed necessary to sustain a horse during his much shorter period of usefulness.

Where Allspice Grows.

The island of Jamaica produces about all the allspice that is used. It is known also as pimento, or Jamaica pepper. The tree on which the berries grow is evergreen, and the flowers grow in dense clusters. These develop into small green aromatic berries, the size of black pepper. If allowed to ripen, they become pulpy and lose some of their pungency. For commercial purposes the berries are gathered when green, carefully dried in the sun and afterward packed in bags holding 100 to 180 pounds and shipped. Pimento trees grow in many parts of tropical America, but nowhere do they thrive as in Jamaica. The trees are never planted by man and receive no cultivation worthy of the name. The seeds are dropped by the birds, and the rains and the tropical sun do the rest. Surplus trees are cut down and become walking sticks and umbrella handles. This species is more mild and innocent than most other spices.

DO YOU WANT YOUR TIRE SET RIGHT?

CALL AT L. M. Snyder's Shop, on Jackson St., near 5th, Reynoldsville.

WE USE THE SCHAU COLD SET TIRE SETTER—the machine that does it right.

It does its work absolutely right—no guess work about it. All four wheels can be dish'd exactly the same to a half line and we don't take the wheels off the buggy. We would respectfully call your attention to the above machine. It certainly fills a long felt want in regard to tire setting. Bring the buggy or hack and have the tire set. If you don't say it does its work better than the old fashioned way YOU WILL HAVE NOTHING TO PAY. This machine and the EXCLUSIVE RIGHT OF TERRITORY (which includes Reynoldsville and a radius of seven miles) cost us a large sum of money and was purchased only after one of the manufacturers brought the machine here to my shop and we operated on a large number of wheels in the presence of mechanics, livemen and others best competent to judge on tire setting. They all PRONOUNCED THE MACHINE PERFECT and the only reliable method of setting tire right. No splitting of rims by driving the bolts out and in again or knocking the off of wheels. The wheels on your buggy are like the feet on your horse—if spoiled, the balance is of little account. It will pay you to have it done right. N. B.—We also do FIRST CLASS HORSE SHOEING AND REPAIRING OF ALL KINDS, and carry in stock a fine line of Buggies, Hacks and Delivery Wagons, wheels, fenders, dashes, shafts, etc., and we usually have a few second hand jobs in good order for sale cheap.

We, the following livemen, have witnessed the SCHAU COLD SET TIRE SETTER operated by L. M. Snyder and it certainly DOES ITS WORK PERFECTLY and we consider it the only method of setting tire right. A. M. WOODWARD, Liveman, M. WHITAKER, Liveman, E. C. HURNS, Liveman.
