His Life in Peril

"I just seemed to have gone all to ces," writes Alfred Bee, of Welfare, Tex., "billousness and lame back had made life a burden. I couldn't eat or sleep and felt almost too worn out to work when I began to use Electric Bitters, but they worked wonders. Now I sleep like a top, can eat apything, have gained in strength and enjoy hard work." They give vigorous health and new life to weak, sickly, run-down peo-ple. Try them. Only 50c at H. Alex Stoke's drug store.

"The Flexibility of a 'Dorothy Dodd'"

Concerning Shoes

With every step the sole of your shoe must bend. The proper place for it to bend is at the "ball" of the foot, NEVER AT THE INSTEP. To make it bend at the "ball" two things are necessary:—the sole must be extremely flexible while the shank or arch be extremely rigid. Most shoes bend at the shank, thus losing their shapeliness and tiring the weak arch of the foot. This is what makes walking for women so fatiguing.

The "Dorothy Dodd" shoe has a shank that supports the weak arch firmly. - It will not bend. The method of sewing the shank is different from the ordinary-it is sewn through and through-making a strong, firm shank that cannot be obtained in any other way. It has a sole that is extremely flexible and will bend.

Every step in such shoes is a pleasure. They cost \$3.

We have exclusive sale for the "Dorothy Dodd' Shoe in Reynoldsville. We also have the WATTON SHOE FOR BOYS. They are worldbeaters at the price—\$1.00 for little boys, \$1.25 for youths and \$1.50 for large boys. All kinds of rubber footwear.
