

SHICK & WAGNER

—THE BIG STORE—

Right in the midst of the busy season we have replenished our entire stock so that we can supply your wants without any disappointment to you. We did this in the face of scarcity of woolen and cotton goods and did it without any increase in price in the face of the rise in market on manufacturer's prices.

This is in keeping with the policy of "The Big Store"—to keep at all times our stock complete that we may give you the best possible service.

It pays you to buy where your wants may best be supplied and it pays us, as has been proven in the past, to be always ready to supply your wants. We can suggest only a few of the new things as well as the many good offerings we have for you.

DRESS GOODS

We have all the good things in the stylish weaves for skirts and dresses. Our meltons are \$1.00 a yard, a very strong leader. In the finer weaves the following are very good:

Snow Flake Suitings in black and blue at \$1.00.

DOMESTICS

The best we can say is our stock is complete. We never were more able to serve you. We have space to mention only a few but these will indicate what we have for you thro out the entire line:

Cotton Blankets, 50, 75, \$1.00, 1.25, and 2.00. Comforts, \$1.00, 1.25, 1.50, 2.00, 3.00, 3.50.

Public Cleanliness.

The Johnsonburg Press is strenuously advocating borough cleanliness, and is raking the Board of Health "fore and aft" for the carelessness and laxity with which they disregard petitions and notices. It is true that Johnsonburg's streets and alleys could be vastly improved in the way suggested by the Press, and brother Gregory should receive the endorsement and encouragement from all public spirited citizens of Johnsonburg in his plea for borough cleanliness. A borough cannot be too clean. Well kept streets and alleys are to a borough what a well kept front yard is to a private property. Filthy streets and alleys are often taken by strangers to reflect the character of its citizens, although this is seldom the case, but such a condition reflects the work of Town Council and Boards of Health.—Punkotawney News.

Lookout for Swindlers.

The country papers are full of accounts of swindlers practicing on country folks, who persist in dealing with strangers in a manner that would cause immediate suspicion if his neighbor or dealer, whom he knows all about would suggest it. To avoid being swindled, deal with the firms whom you know; deal with firms who advertise their business and methods in newspapers, because they are not ashamed of them. The swindler who travels through the country aims to keep his business out of the public press; avoids the country newspaper the same as he does the police. Beware of strangers; patronize the man you know.—E.P.

By sending thirteen miles Wm. Sprey, of Walton Furnace, Vt., got a box of Bucklen's Arnica Salve, that wholly cured a horrible Fever Sore on his leg. Nothing else could. Positively cures Bruises, Felons, Ulcers, Eruptions, Bolls, Burns, Corns and Piles. Only 25c. Guaranteed by H. Alex. Stoke's the druggist.

Our plan, which we have in successful operation in many places throughout the country, is one that puts clothing buyers on an entirely new plan. ABOUT MATERIALS. There is no trouble to secure materials which can be made up to sell at \$15.00, but there is trouble to equal the well known fabrics turned out by the Dundee Woolen Mills to sell for \$25.00. That's the sort of goods we give you for \$15.00.

THE TAILORING. We employ none but the best skilled union workmen, from the cutter to the one who puts on the buttons, and every garment bears the Union Label.

CLEARFIELD

CENTER OF INDUSTRIAL ATTRACTION.

THE GREAT OPENING SALE of lots at Clearfield Steel & Iron Works began

NOVEMBER 11TH, 1902.

TERMS TO SUIT EVERYBODY

DON'T FORGET THE DATE

Clearfield is a great railroad centre, having three great railway systems, with four railroads coming to a point here, viz: the Pennsylvania, the Buffalo, Rochester & Pittsburg, and the New York Central, including the West Branch Valley Railroad. Its water advantages for power and home use cannot be excelled, and is inexhaustible. It has industrial sites in abundance, with coal and other advantages unexcelled for nearness and quality, which capitalists are fast realizing, scarcely a week passing without representatives of great manufacturing industries visiting this locality in search of locations. These facts point to Clearfield as the coming metropolis of of Central Pennsylvania.

W. K. Vanderbilt, the great New York Central railway magnate, who visited Clearfield Sunday in his special car, says Clearfield has a great industrial future and was greatly struck with its beauty.

Hon. A. E. Patton, who is on the inside of industrial affairs in this section, predicts at least 20,000 people

for Clearfield in less than five years. A prominent New York Central official goes him 5,000 better and predicts 25,000.

The Clearfield Steel and Iron Works, to employ 700 men in full capacity, and the Iron Mills, which will be completed by the middle of February, are proving great magnets to draw other industries. Next year, on the same property, comprising over 600 acres, another big works to employ 1,500 men, and to be located on the Susquehanna river bank, will be erected, and both these large works will be supplied with Moshannon coal, taken from this property. The homes of those who locate there will be supplied with the celebrated Montgomery creek water, same as Clearfield is supplied with. Both these large works will have two great competing railway systems within the yards, with every facility for transporting raw materials from the lakes now possessed by Pittsburg. Indeed, Clearfield is destined to be the "Smoky City" of Central Penn'a.

It is a statistical fact that 90 per cent of all the wealth of the industrial centers of this country was made out of real estate. The busy manufacturing concerns have accomplished this for the land owner. It has often been seen that a workingman who bought a lot with a monthly pittance from his earnings, has doubled and trebled the price before he had it paid off

Be at the Opening Sale of lots at Clearfield Steel & Iron works, Tuesday, November 11, 1902, or any day thereafter as the sale will be continuous; but first on the ground will get the first choice of home sites. Jump the train and attend the opening sale, or as soon thereafter as possible. The Steel & Iron Works are right at Riverview station on P. R. R., and at Centre station on B., R. & P. New York Central connects with B., R. & P. All trains stop at both stations.
