#### Trolley News

A crew of men are laying track in this borough for the trolley line. The crew began at the R. & F. C. crossing on Main street, near Jefferson Supply Co. store, and have the track laid about half-way out to J. J. Sutter's residence. The crew of men on other end of line have about a mile and a half of track laid on this side of Eleanora. Ties and rails have been distributed along Jackson street. The ties to be laid on the streets are seven feet long, while the ties used outside of borough are eight feet long.

As mentioned in THE STAR last week the trolley line will run up Bradford street to Jackson, down Jackson to Sixth, up Sixth to Main and down Main street to the Iron bridge across Sandy Lick. It is likely the line will be extended into West Reynoldsville if that borough will grant franchise.

The old wooden bridge across Soldier Run, on Bradford street, will be used until next spring when a new iron bridge will be built at that point. The present bridge is too narrow.

#### Trustling Bridges.

There is an immense amount of reight being hauled over the Low Grade Division of P. R. R. at present and the engines now used on the road are too light to handle the freight, but a number of bridges on the division are not strong enough to run larger engines over. However this difficulty will be overcome about the first of next year. Two bridge crews, the Low Grade crew and a River Division crew, are now at work trustling all the bridges that are not safe to run the big engines over and they will have this work completed in about six weeks. A number of new steel bridges have already been put in on Low Grade and the work will be pushed as rapidly as possible until all the wooden bridges are replaced with steel bridges.

#### A Splendid Exhibition.

The Lyman H. Howe moving picture company, gave a splendid exhibition at the opera house last evening. The ex-hibition was a complete success and all who attended it went home more than well pleased. Among the pictures shown which attracted the greatest interest were the scenes of the Coronation of King Edward VII. They held the close interest of the andience from the close interest of the audience from beginning to end. The Oriental scenes including pictures of life in Japan, China, Arabia and India were very fascinating. The entertainment was fully what it was advertised to be, everything was new and the satisfaction of the audience was plainly evidenced by the applause which followed each picture.

It was undoubtedly the best exhibition of the kind that has ever been given in Holyoke. Mr. Howe will return again Holyoke. # MET A TERRIBLE DEATH BENEATH THE WHEELS

### Edward B. Phalen Fell in Front of a Moving Engine at DuBois Monday and was Killed.

Martin Phalen, of West Reynoldsville, was instantly killed in the east end of the P. R. R. yards at DuBois about 12.30 p. m. on Monday, November 24, 1902, by falling in front of a moving engine. His body was badly mangled. The news of the horrible accident was a great shock to Barney's many friends in Reynoldsville and the sad news was received with blanched cheeks. The body was brought to this place on train No. 102, due here at 1.32 p. m., and was taken to the undertaking rooms of Priester Bros. and prepared for burial. In the evening the body, accompanied by six members of Elk lodge, was taken to the home of Mr. Phalen in West Reynoldsville.

"Barney" Phalen, as he was familiarly known, was fireman on passenger train No. 113, due here at 11.32 a. m. which only runs to DuBois. After the coaches were sidetracked and engine turned for night trip, Engineer Frank Clusterman and Fireman Phalen took engine to upper end of yard to take water. When near the water plug Phalen climbed over the tender to get ready to jump off to turn the standpine of water plug and he fell off in front of the engine, which was running slow. The engineer did not see Barney fall, but felt the iron monster strike his body and stopped engine quickly, but not until after the cruel wheels had crushed the life out of the fireman. It is supposed that in getting down over the tender that Phalen took hold of the headlight on tender, which was insufficiently fastened, and it tore loose, allowing Phalen to fall across the rail The DuBois Courier says: "Some work men who were eating their dinner at the DuBois shaft nearby saw him as he fell to the track with the headlight on top of him. "

Edward Bernard Phalen was born at New Bethlehem, Pa., May 15, 1878, making him 24 years, 6 months and 9 days old at time of death. His father, Martin Phalen, who has been supervisor of Low Grade Division a quarter of a century, moved to Reynoldsville

Mary was brought to America by her parents in July, 1887. She was the second of a family of six children to leave the shores of time and pass out on the ocean of eternity. The father has also passed over to his heavenly reward. The mother, four children, the stepfather, other relatives and a host of friends mourn one who was dearly loved. riends mourn one who was dearly loved by all who knew her. Mary was con-verted in March, 1899, during the pastorate of the Rev. O. H. Sibley. "Mary was a good girl," were the words which fell from many lips. She was good and kind to her mother and much interested in the welfare of others. She was very much interested in philanthropic work especially with reference to poor and suffering children. Her expression was: "If I had plenty of money I would build homes and care for the poor neglected children."

The funeral services were conducted by Rev. Cyrus H. Frampton, of Falls Creek, Pa. A large congregation of real mourners attended the services, showing the high esteem in which she was held. Six young ladies, her special companions, were honorary pall bearers. They remarked, "We always went to gether." My young friends, your circle of special friends is broken. It behooves you to live Christ-like lives so that you may meet your friend in the country where friendships are never broken.

Two females hired a horse and buggy at Woodward's livery stable one day last week to drive to Soldier to attend a dinner party, to return early in the afternoon. They had not returned the next morning and the telephone was used and it was learned that they had taken dinner at Punxsutawney instead of Soldier and had remained all night at Anita, returning here in the after-noon, a day later than time set for their return. A warrant was issued for the women and a constable met them before they got to the barn. One of the women parted with her gold watch to get the matter settled. It was learned that the women drove out Pleasant avenue direct to Punxs'y instead of to Soldier. Too many people abuse livery horses by hiring them to drive to a certain place and then drive double the distance they hired the rig for.

Edward Bernard Phalen, only son of | when Barney was very young and the lad was raised in this place and was well known here. Barney was a very bright young man. He graduated in the common school of West Reynoldsville and then attended college. He had a genial disposition and always made warm friends wherever he was known, and was highly respected by all who become acquainted with him. He was tall, bad fine physique, was a good athlet and a strong and speedy runner, and an exceptionally good football player. He was an excellent young man, and was popular in this place. Mr. Phalen was never in favor of his

son becoming a railroader, he opposed it and sent him to college to give him an education for some other vocation, but Barney preferred railroading and accepted a position as fireman, which resulted so terribly. It Is extremely sad to see a young man so suddenly cut down in the prime of life. He was a member of B. P. O. E. Lodge No. 519, of Reynoldsville, mem-
