

BENEVOLENT ASSOCIATIONS

Of America Use Pe-runa For All Catarrhal Diseases.

MRS. HENRIETTA A. S. MARSH.

Woman's Benevolent Association of Chicago.

Mrs. Henrietta A. S. Marsh, President Woman's Benevolent Association, of 327 Jackson Park Terrace, Woodlawn, Chicago, Ill., says:

I suffered with a gripe for seven weeks, and nothing helped me until I tried Peruna. I felt at once that I had at last secured the right medicine and kept steadily improving. Within three weeks I was fully restored.

Independent Order of Good Templars, of Washington.

Mrs. T. W. Collins, Treasurer I. O. G. T., of Everett, Wash., has used the great catarrhal tonic, Peruna, for an aggravated case of dyspepsia. She writes:

"After having a severe attack of la gripe, I also suffered with dyspepsia. After taking Peruna I could eat my regular meals with relish, my system was built up, my health returned, and I have remained in excellent strength and vigor now for over a year."

If you do not derive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

EARTHQUAKE RECORDS.

Are Carefully Kept from All Points by New Seismograph.

We have lately heard much of the wonderful manner in which earthquake disturbances are registered very often at places remote from their center of activity.

USE PINEAPPLE.

To Cure Diphtheria and a Slice Will Remove Any Corn.

Pineapple, in virtue of its active principle, bromethin, has considerable virtues as a proteid digestive. The texture of the fruit, however, is such that its indigestibility more than offsets this virtue.

Long Hair

"About a year ago my hair was coming out very fast, so I bought a bottle of Ayer's Hair Vigor. It stopped the falling and made my hair grow very rapidly, until now it is 45 inches in length."

There's another hunger than that of the stomach. Hair hunger, for instance. Hungry hair needs food, needs hair vigor—Ayer's.

This is why we say that Ayer's Hair Vigor always restores color, and makes the hair grow long and heavy.

If your druggist cannot supply you, send us one dollar and we will express you a bottle.

FARMERS' CORNER

Working a Run-Down Farm.

When one buys a run-down farm at a low price he must expect to expend quite a sum before the farm will begin to pay.

Profit in Sheep.

The large mutton breeds of sheep are gradually displacing the merino breed, and farmers are finding out that there is something more to be derived from sheep than wool.

Keeping Up Soil Fertility.

Out of the soil comes directly or indirectly the world's food supply. When this is realized, the importance of keeping up the fertility of the land is apparent.

Free Nitrogen on Farms.

The clover plant is one of the most valuable that is within the power of the farmer to grow, and it also enriches him even when the clover is sold off the farm.

Preparing Fowls for the Table.

Farmers seldom have any difficulty in killing their birds painlessly, but amateurs sometimes find the operation a difficult matter.

Useless Presents.

An Ottawa small boy who had a birthday Wednesday had a big kick coming on the presents his aunt gave him.

PEARLS OF THOUGHT.

The prodigal robs his heir; the miser robs himself.—Bruyere.

A mob is the scum that rises upmost when the nation boils.—Dryden.

Laughing cheerfulness throws sunlight on all the paths of life.—Richter.

Opportunity, sooner or later, comes to all who work and wish.—Lord Stanley.

No thoroughly occupied man was ever yet very miserable.—L. E. Landon.

Obstinacy and vehemency in opinion are the surest proofs of stupidity.—Bacon.

Life is made up of little things. It is but once in an age that occasion is offered for doing a great deed.

It is often that a man fails to succeed because he does not follow up a first advantage; and it is often that he loses because he follows a first advantage too speedily and too strongly.—Talmage.

Other things being equal, the employee who is selected for advancement is the one with good manners, a fine, gracious demeanor, a good presence; these qualities are the best kind of capital, even better than money.—Success.

We cannot ask a better point of leverage from which to move our little fragment of the world toward truth and goodness than the point on which we have been placed.

A foolish consistency is the hobgoblin of little minds, adored by little statesmen and philosophers and divines.

With consistency a great mind has simply nothing to do. He may as well concern himself with his shadow on the wall.

Speak what you think now in hard words, and tomorrow speak what tomorrow thinks in hard words again, though it contradict everything you said today.—Emerson.

DEER MARCHED TO MUSIC.

But Degenerate Ditties of the Day Sent Him to Cover.

Col. J. M. Drennan relates an incident of his recent fishing trip at Moosehead which presents a story to rank with both the tale of Orpheus and that of Robinson Crusoe.

Camping near the Masterman place was Mr. Lougee, a well-known violinist and leader of an orchestra in Bangor.

The next evening Mr. Lougee hid under the cover of a few branches and waited for the deer to make an appearance.

The music was played softly at first. At the sound of the first few measures the effect on the deer was magical.

Finally the measures of a march were sent gliding off the strings. The deer became the soul of stately action at once.

As to Winks.
