Once more the schoolhouse doors were thrown open and the pupils entered to begin the work of the second half term. Teachers and pupils alike were refreshed by a two weeks' rest and all were again ready to perform their respective duties.

New classes have been taken up in the different classes of the high school. The Seniors began general history, the Juniors Geometry and Sub Juniors Literature.

Villa Aley was absent Thursday on account of sickness.

Nuts to crack—Why did the teacher of room 13 not have an oyster stew last Tuesday evening?

Because she was proving the law of gravity.

One of the teachers made this remark when coming down from chapel the other morning: "Oh! my feet is cold."

During the mid-term examination one of the pupils of the ninth grade, which together with the tenth bears the proud distinction of being called the preparatory grade, wrote the word "proprietor" as being the grade to which she belonged. Now the teachers of the uppergrades are congratulating themselves for adding spelling to the present course of study and wish also to add that there is a decided improvement in spelling to date.

It seems proper at this time of the year to say a few words concerning our Literary Society. At this time when new and good resolutions are being made and none broken it might be well to make a few remarks concerning this particular part of our school work. Judging from the excellent program rendered on last Friday it seems a few "resolutions" have been made. Every

Finds Way to Live Long.

The startling announcement of a discovery that will surely lengthen life is made by editor O. H. Downey, of Churubusco, Ind. "I wish to state," he writes, "that Dr. King's New Discovery for Consumption is the most infallible remedy that I have ever known for Coughs, Colds and Grip. It's invaluable

to people with weak lungs. Having this wonderful medicine no one need dread Pneumonia or Consumption. Its relief is instant and cure certain." H. Alex Stoke, the druggist, guarantees every 50c and \$1.00 bottle, and gives trial bottles free.

one knew their part well, there was not a single break in the entire program. Taking all things into consideration it was the best program of the year. This is gratifying indeed. It is a well known fact that pupils as well as older persons may become negligent in their work but it is to be hoped that the pupils will not lag a whit in this work during the rest of the school year. The training which they are getting Friday afternoons could not be duplicated. The fact that they are doing such good earnest work is very gratifying to their teachers and should be welcome news to their parents as well.

A Genuine Surprise to Theatre-Goers.

The Gus Sun Minstrels made their initial bow before an audience that tested the capacity of Fisher opera house last night and from the rise of the curtain the fun started, and fun it was, and unadulterated.

It is a positive fact that Mr. Sun has gathered about him a coterie of "real" comedians, the principals of whom are Harry Shunk and Sam Horner. While the singing was by far the best that has been heard in the minstrel line in many a day.

Special mention should be made of the clever dancing of Jimmy Comers, who made a decided hit in the first part. In the specialty part of the program many novelties were introduced. Without doubt Horner and Diamond's knockabout act was the laughing hit of this part of the program, while the juggling of Gus Sun and the horizontal bar act of DeVero and DeCarlo was really next to marvelous.

Take it all in all Mr. Sun has the right idea of a real minstrel performance and his company will undoubtedly be a welcome visitor in this city at any time.—California Union. At Reynolds opera house Friday night of this week, Jan. 16. Tickets on sale at Stoke's drug store.

Heads Should Never Ache.

Never endure this trouble. Use at once the remedy that stopped it for Mrs. N. A. Webster, of Winnie, Va., she writes "Dr. King's New Life Pills wholly cured me of sick headaches I had suffered from it for two years." Cure Headache, Constipation, Billiousness, 25c at H. Alex Stoke's drug store.
