Parents' and Patrons' Day.

Education in its widest sense include verything that exerts a formative inuence and causes a young person to be what he really is. No school reaches its highest possibilities without the cooperation and sympathy of its patrons. In order that a stronger school sentiment and deeper interest may by maniested and that parents may come in loser touch with teachers. Wednesday January 28, 1903, is set apart as "Pub lie School Day" for the schools of this county. Parents and patrons are urged to lend encouragement to the schools by their frequent presence during the term, but a special invitation is extended to them on this day. Mrs. George Woodford and Charles Flynn, son of Mrs. P. F. Flynn, are at their homes to-day with broken legs. Upset on Barbwire Fence.

Saturday a load of small school children were taken to DuBois in Burns' tally-ho, and it was a jolly outing for the little people until within two miles of home on the return trip when they were suddenly dumped out into the snow and onto a barbwire fence. An engine was standing near the scale office above Prescottville, where track is close to public road, and just as the four horse team and tally-ho got opposite the engine it blew off steam. The horses are not afraid of an engine, but the sudden blowing of steam when so near engine caused them to shy to one side of road, where a deep gully had been cut by teams hauling coal, and the ruppers of the tally-ho dropped into the rut and an upset was the result, all the occupants of tally-ho being dumped out, including the driver, Bert Burns, who hung onto the lines, but was tangled up in the robes so that he could not ontrol the horses. The lead horses broke loose from tally-ho when upset occurred and they started for home coming down Main street at a reckless speed. Several mothers, whose children were in the sleighing party, saw the horses running down Main street and recognized them as the lead horses that had started out with tally-ho and they, naturally, were very much excited about it. When the team with tally-ho reached the little bridge near where the upset occurred the tally-ho ran up on railing of bridge and was turned over on its runners again and the team was caught a short distance from there. Had it not been for the wire fence the children would have all escaped with only a bad fright, but several of them had their face and neck accorated on the wire, but no one was

The Public School Lecture Course. The lecture course given under the suspices of the public schools is being conducted not in the interest of any individual or company of individuals, but wholly in behalf of the schools. There are two objects which it is designed to subserve. While it affords to us entertainment and is a means of securing more liberal culture it is at the same time benefitting our children. The proceeds are to be devoted to some of the present needs of the schools and thus, we receive a two-fold benefit. For this reason the lecture course ought to appeal to every citizen and enlist his most earnest support. Some of the best talent available has been secured and no pains are being spared to make the course among the best that has ever been held in Reynoldsville.

The second attraction will be the Hawthorne Musical Club which will be here Jan. 29. This musical organization comes with a wide reputation as entertainers and as such they give an evening's entertainment which cannot fail to please the people.

Frank R. Roberson, the best illusrated lecturer on the platform, will be here Feb. 9.
