**Principals Meeting.**

As a result of a movement started during the county institute held at Brookville, Pa., a meeting of the principals of Jefferson Co. was held at Reynoldsville, January 17. The object of the meeting was to discuss questions of importance to principals in the supervision of their work, and to secure the benefit of the experience and co-operation of each other and work for the general uplifting of educational matters throughout the county.

The meeting was called to order by C. V. Smith, Reynoldsville. After a few remarks of welcome Prof. Smith named D. B. Peterson, of Summerville, as temporary secretary and asked for the wish of the meeting in regard to a permanent organization. R. E. Anderson, Punxsutawney, then arose and after expressing his views in regard to the organization, made a motion that the organization be made a permanent one, and that a president and secretary be elected. The motion being carried the meeting proceeded to elect R. E. Anderson president, and D. B. Peterson secretary.

Prof. Anderson then called for the sentiment of the meeting in regard to what should constitute the work of the organization. Every member present gave his views. The following being a few of the principle: mutual help; exchange of ideas; aid each other in local institute work; arouse enthusiasm.

W. M. Brown, District Superintendent of Snyder township, then moved that the president appoint a committee of three to draw up a constitution for, and give a name to the organization; also that in order to secure permanency that either the president or in his absence the secretary, or in case neither are in the county, the president to name a person to call a meeting of the organization.

Motion carried.

I. W. Huntzberger, W. M. Brown and A. J. Hamilton were named on committee.

On account of delayed trains the meeting was late in coming to order and the program arranged could not be followed. It was decided to take up the subject of spelling. A. J. Hamilton opened the subject and gave his method of teaching spelling and answered the many questions of his fellow teachers in regard to it. C. B. Carrier, Corsica, followed as regular speaker on the question with a plea for practical methods after which short talks were given by nearly every one present, presenting many valuable hints as to the handling of this neglected branch.

The subject of a course of study, for graded schools below the high school, which should be uniform throughout the county, was then taken up. I. W. Huntzberger opened the discussion by bringing up the question of the number of years covered by such a course. This point being discussed at length by the members, D. B. Peterson followed stating the need of such a course. The question was warmly discussed, all agreeing that such a course was needed but some doubts were raised as to its practicability. The discussion was brought to a close by a motion being carried to empower the president to appoint a committee of three to arrange a course of study to be submitted to the organization for approval.

The president then announced the names of Miles Timlin, Big Run, J. T. Conrad, Lindsey, M. S. Horner, Anita, as a committee of arrangement for next meeting.

Superintendent R. B. Teltrick, who had taken a very active part in all the discussions, expressed himself as highly pleased with the organization thus begun and proposed bi-monthly or at least monthly meetings to be held at convenient places. He said no body of men in the whole country can wield a greater influence in any line than the principals of schools can educationally.

Everyone present seemed greatly pleased with this first attempt at organization and it is hoped that every principal in the county will be present at the next meeting.

Motion made that the minutes be published in at least four county papers. Motion carried. Adjournment.

D. B. PETERSON, Sec.

**Grand Jury's Presentation.**

Below we publish part of the presentation of the grand jury of the January term of court:

"We have also visited and inspected the several county buildings, namely: the Court House, Jail and County Home. As to the County Home, we wish to suggest to the proper county authorities that the children in the County Home be kept separate and apart from the badly insane or simple inmates, also, from the too direct contact with the old people of the Home, believing that the direct association with both classes has a decidedly injurious effect on the proper development of the children in the Home. Also that the badly insane be removed from the Home as soon as possible.

"We find, as to the jail, that no attention has been paid to the urgent recommendations of former Grand Juries as to a repairing of the place, so as to insure proper sanitation and that little or no attention has been given to the moral condition. We now, as a grand jury, representing the several townships and boroughs of Jefferson county, do respectfully urge that the proper county authorities immediately repair the jail as follows: 1st, the drain pipes of the laundry room; 2nd, the steam heating pipes in the basement; 3rd, the ceiling in the hall in front of the jail cages; 4th, the water closets of each cell, not one of which is in the condition it should be in; 5th, that means for proper ventilation be arranged for at once; 6th, that spittoons be furnished the sheriff for distribution through the jail.

"We also recommend that the attention of the several road commissioners of the county be called to what we believe to be their neglect in removing loose stone from the public road and the making of continually needed repairs caused by wear, but more especially by floods and storms."

**Golden Gate Tour.**
