PROCEEDINGS OF FARMERS' INSTITUTE AT PARADISE.

Despite Disagreeable Weather the Sessions were Attended by Many Agriculturists.

NUMEROUS TOPICS WERE INTELLIGENTLY DISCUSSED

A Review of the Program and Some of the Lessons Taught by the Speakers.

One of the best farmers' institutes ever held in Paradise convened in the Grange hall Feb. 27 to 28, 1903. Owing to inclement weather the institute was not so well attended as it has been heretofore, yet in spite of the bad weather the hall was fairly well filled at each session.

The meeting was called to order Friday afternoon by County Chairman Charles G. McClain. After devotional exercises, conducted by Prof. C. S. Luther, the regular program was taken up.

"My experience with lime," was discussed by August Weber, Noah Syphrit and Prof. Wells Cook.

A. M. Tedrick gave a very interesting talk on "Strawberry culture," his experience in growing and marketing the same.

Hon. Thos. J. Phillips also gave his experience in "Mulching and fertilizing strawberry plants." He said every farmer should raise enough for his own use, if no more.

The institute adjourned until 7.30 Friday evening.

Prof. Luther gave a very good talk on "Essential Qualifications to Successful Teaching." He said in part: "A teacher should have good morals, be sociable and gain the confidence of the pupils."

Essay, Wayne Breaker, entitled, "Behind the Hills of Difficulties Lies Success."

"Township High Schools," was taken up by Hon. Thos. J. Phillips. He said farmers' children could be more thoroughly and completely educated in a township high school than with the present system. A. J. Kahler dwelt on the counting of cost of obtaining an education.

Recitation by Maude Hollenbaugh, subject, "Six Times Nine."

J. M. Norris and Prof. Luther advanced ideas, worthy of consideration, on higher education for farmers' children.

Recitation, "The Schoolmaster's Guest," by Pearl Barrett.

Adjournment.

SATURDAY 9.30 A. M.

Question box. Prof. Wells W. Cook gave an illustrated and instructive talk on "Care and feeding of dairy stock."

"Poultry breeding and feeding for profit," was then discussed by A. J. Kahler, Philip Reiter, W. T. Cox and others.

Institute adjourned for dinner.

Hon. Thos. Phillips proposed the toast: "The American hen of which the son never sits."

SATURDAY 1.30 P. M.

Frank Pifer and Noah Syphrit gave a very interesting talk on "Arranging ventilating, hiving and how to prevent moths from destroying the hive."

Next topic was "Good country roads," by W. T. Cox, Lewis Ludwick, S. Phillippi and others. This subject has been discussed at every institute held in Paradise and the roads are not much better than they were ten years ago.

Essay, "Patriotism on the Farm," by Wayne Breaker.

"My experience with commercial fertilizers," by Hon. T. J. Phillips. He explained the analysis on the sacks and said the farmers are annually squandering large sums of money on fertilizers that give poor results. He said it is not the fault of the fertilizer, but that farmers don't get the right kind for the different crops.

Recitation by Belle Syphrit, entitled, "A place for the boys."

Adjournment.

LADIES' SESSION, SATURDAY 7.00 P. M.

Miss Ethel McCreight presided at this session, with Miss Inez Strouse and Pearl Barrett secretaries.

Ruth Cathers and Trassa Syphrit read very good essays on "A Model Home."

Recitation, "The Owl Critic," Virginia McAdoo.

The question, "What benefits do the women receive from farmers' institutes?" and the "Proper rearing of children," were discussed by Mrs. J. O. Barrett and others.

Miss Edna Holman told how to rid

plants of insects, followed by Prof. Wells Cook.

Recitation, "Little Stevie," by Pearl Barrett.

Mrs. Noah Strouse and Mrs. A. J. Sprague read excellent papers on "Social life in rural districts."

Susie Dougherty's essay, "Education on the Farm," was very well gotten up.

"The Wife's Share," by Hon. Thos. Phillips concluded this session.

The program was interspersed with good instrumental music by the Rudolph Bros., and vocal music by Paradise choir. Last, but not least, the baskets of choice viands the good wives brought and spread on the table of the spacious dining hall would tickle the palate of the most fastidious epicurean.

E. R. SYPHRIT, Secretaries. C. E. STROUSE.

A Tower of Strength.

The showing made by the Prudential Insurance Company of America, whose home office is at Newark, N. J., fully entitles it to the claim of possessing the "Strength of Gibraltar." During 1902 the Prudential wrote over two hundred and seventy-two million dollars of new insurance, paid for, which amount is the largest ever written by any Life Insurance Company of the same age. Its report on January 1st, 1903 was as follows: paid for insurance in force eight hundred and two million dollars on nearly five million policies with assets over sixty million dollars; surplus over nine million dollars; annual income over thirty-three million dollars, a total payment to policy holders since the foundation of the company of nearly sixty-eight million dollars. This record speaks for itself. Those who wish to know more about this progressive company and its popular policies which are adapted to all ages, and for all amounts from fifteen dollars to one hundred thousand dollars would do well to communicate with the home office, Newark, N. J.

Common School Diplomas.

Examinations for Common School Diplomas will be held as follows: March 14, Brookville; March 21, Punxsutawney; March 28, Brookwayville; April 4, Reynoldsville, beginning at 9.00 o'clock a. m. These examinations are held earlier than usual to enable teachers to present the diplomas the last day of the term or at the conclusion of special closing exercises. Pupils possessing a thorough knowledge of the common English branches should take this examination. Those possessing a fair knowledge of Algebra, Civil Government or any of the higher branches will be examined in them and have them placed on the diplomas, if the examination be requested. Applicants should provide themselves with pen, ink, and foolscap paper and should hand to the committee a self-addressed stamped envelope for a return of the result of the examination.

More Riots.

Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the Liver or Kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down systems. It dispels Nervousness, Rheumatism and Neuralgia and expels Malaria germs. Only 50c, and satisfaction guaranteed by H. Alex. Stoke, druggist.

Good Institute.

R. F. Morrison, local manager of the farmers' institute held at Allens Mills on Wednesday of last week, February 25 and 26, informed a representative of THE STAR that the attendance was not as large as it was last year, but the hall was filled at every session and that it was the best institute ever held at Allens Mills. The people took an interest in the institute. The weather was fine both days of the institute, but the roads were not in good condition. The program published in this paper two weeks ago was carried out almost entirely as published.

It Saved His Leg.

At time of writing this article the rubber is still "rubbering" at the rubber. The writer has not investigated and is not fully qualified to state what sex lost the rubber or whether it is a right-handed or left-handed rubber.

"All Jine the Korus,"

How dear to my heart is the steady subscriber, who pays in advance at the birth of the year; who lays down the money, and does it quite gladly, and casts round the office a halo of cheer.

He never says "stop it, I cannot afford it," nor "I'm getting more papers now than I can read," but always says, "send it, the family likes it; in fact, we all think it a real household need." How welcome he is when he steps in the sanctum, how he makes our heart trob, how he makes our hearts dance. We outwardly thank him, we inwardly bless him, the steady subscriber, who pays in advance.—EXCHANGE.
