Woman Has a Gneyance. Mrs. C. E. Wilson, an agent from Indiana, with whom several of our town people are acquainted, claims that the citizens of Reynoldsville owes her an apology. Mrs. Wilson has been in town several weeks selling corsets and other articles, but no one thought anything sbout her work until after the robbery Thursday night when some one started the false report that the chief-of-police had been notified that a gang of robbers were traveling over this section of country committing robberles and that a man, dressed in woman's clothing, was with them and that he was selling corsete as a bluff, but his real object was to get familiar with the inside of the ouses so he could give his "pards" the plan of house that they could enter the house without trouble. After this story was circulated then a number of persons concluded that Mrs. Wilson was the man in woman's clothing, and some were not slow in telling her about it. Even some of the school children followed her on the streets and insulted ber, so she claims. The result has been very disastrous to Mrs. Wilshe feels that she has a grievance.

The condition of Main street from Presbyterian church to borough line at Cool Spring Hollow during the past week has simply been horrible. Some places the mud was almost a foot deep. If that condition of the Main street of a progressive town is not forcible argument in favor of paved streets, words will surely fail to impress the citizens of our town that we are badly in need of a substantial paving. The streets of some of the oil towns that sprung up almost as quickly as Jonah's gourd, could not have been worse than some parts of the Main street of this town. Think of it! Shall we be progressive when it comes to street paving or will we be a "back number?"

Two petitions were presented to town council for paying different parts of Main street, but the petitions were not legally gotten up and now a petition is being circulated to property holders on Main street, entire length of the street, for their agreement to pay two-thirds of the expense of paving and the borough to pay the other one-third. If the majority of the property owners sign this petition it is very likely that Main street will be paved with brick this year

ROBBERS VISIT FOUR HOUSES.

Carried Away Large Amount of Silverware from Residence of Ira S. Smith

Thursday night of last week, March 5th, robbers entered the dwelling houses of Ira S. Smith, 'Squire M. M. Dayls, Dr. DeVere King and Postmaster E. C. Burns, all of whom reside on Grant street. At each house the robbers gained entrance by unlocking side doors. At one place there was a key in lock on inside, but they managed to turn the key and unlock the door. The robbers stole a large amount of silverware from Smith's residence, including spoons that had been presented to Mr. Smith's two children, George and Helen, on their birthdays by their grandmother, Mrs. George Mellinger, deceased, which were highly prized and could not have been bought at any price. They also stole Helen's bank and George's eyeglasses.

'Squire Davis heard the robbers in his house and thought it was his son-inlaw after something and spoke, which frightened the robbers away. They took 'Squire's shoes with them. At Postmaster Burn's residence the rob bers got a silver watch from Ed. Burns, ir., and several dollars in money from Frank Burns's pocket, which he had gathered up by selling tickets for the Mothers' Club entertainment to be given in Assembly hall on Friday evening of this week. The robbers were frightened away from Burns' before they had finished their work there. At Dr. DeVere King's the robbers did not take any plunder, although they had ransacked the sideboard and several drawers on first floor. They must have been frightened away from Dr. King's before they were ready to go.

One-third of Stock Paid,

William Bennett, formerly factory manager for Star Glass Company at this place, went to Carnegie, Pa., a suburb of Pittsburg, yesterday, where the new glass plant is to be erected which he is to be manager of. The company will be capitalized at \$250,000. It is to be a 36-pot plant with four flattening ovens and all the latest improvements. The company has twenty-one acres of land for the plant. When completed this glass plant will cost \$125,000, and there is to be a large sash and door plant built in connection with the glass plant, making the entire plant worth in the neighborhood of \$250,000 when completed.

The company has already joined the jobber's organization. This company will put the glass in sash and doors, do their own glazing. They will handle all kinds of glass.

Mr. Bennett says that twenty-five shops have already signed to take stock in this plant and that one-third of the stock has been paid in. A large number of glass workers have each taken from \$400 to \$1,000 stock in the new concern. Mr. Bennett does not expect to move his family to Carnegie until about the first of June.
