# **DISCUISED CATARRH**

Stealthy, Insidious, Weakening Enemy to Women --- Many Thousand Women Suffer Needlessly From This Cause.

MRS. EVA BARTHO.

ere are a multitude of women, espe-housewives, and all other women ed to be on their feet constantly, are wretched beyond description, y because their strength and vitality pped away by catarrhal discharges the pelvic organs. These women get a the morning tired, drag themselves is their daily duties tired, only to bed at night as tired as before. a multitude 

Mrs. Eva Bavino, 133 East 12th Street, M. Y. City, N. Y., writes:" i auffored for three years with what is generally known as percorrheas, in connection with ulcoration of the womb. The doctors alrocated an opera-tion which I drended very much, and strong-by objected to go under it. Reading of the value of Perons. I thought it best to give the well-known remedy a trial, so I hought three bottles, but I fell so much improved I kept taking it, as I dreaded an operation so much. I am to-day in perfect health, and have not felt so well for diteen years."-Mix. Eva Bartho.

MISS LOUISE MAHON.

Mirs Louise Mahon, 3 Glen Baille Street, Toronto, Unt. Can., Secretary of the King's Daughiers, and Secretary of Lady Marca-bees, writes:--'If all women knew of the benefits to be derived from taking Perusa we would have many happier and more health-ril women. My heath Las never been too robust, and I am easily fatigued and can not stand much. About a year ago I vass or un down that I had to take to my bed, and he-came weaker and weaker. A friend alvised me to try Perusa, and I have great reason to be graterul, for in two weeks I wasout of bed, and in a nonth I was perfectly well, and I new find that my health famile mer robust than formerly, so that I take Perusa once or twice a month and keep well."-Louise Mahon.

Peruna is such a perfect specific for each case that when patients have once used it they can never be induced to quit it until they are permanently cured. It begins to relieve the disagreeable symptoms at once. The backache censes, the trembling knees are strengthened, the appetite restored, the digestion made perfect, the dull head-ache is stopped and the weakening drains are gradually cured. These results certain-by follow a course of treatment with Pe-runa.

ly follow a course of treatment with Pe-runa. Barbara Alberty, corner Seventh and Walnut streets, Appleton, Wis., writes as follows in regard to Peruna: "For years I have suffered with back-ache and severe pains in the side. I doc-tored so much that I became discouraged. A school friend told me how very much Peruna had benefited her and I sent out for a bottle, which did more to relieve me than all the other medicine I have ever

#### Degrees for Women.

It is believed that the University of Dublin will soon throw open its degrees to women, and it is said that with this following in the footsteps of to navigation is to be placed on the fishing boat of M. Emile Altazin, now Scottish universities, Oxford and being built at Boulogne. The vessel, Cambridge will hardly be able to conwhich is 90 feet long, and is designed tinue much longer their policy of ex- to carry 300 tons, will be provided with

Mr. Ruhmer has lately sent such messages

Jack Davis, an old buddle of mine, came out to dinner the other evening. Really, everything did run smoothly. I went to the door with him. He whispered: "Say, old man, for ravishing cooking, an ideal den and the candy outfit all through you've got the world beat. And say, pardon and all that, but this is from an old pal. The missus is one of the finest little women ever saw."

Last week my wife's father 'phoned me to hustle over to his office. "My boy," said he when I arrived, "you've transmitter, in whose optical axis there is a cylindrical selenium element in got two hours and a half to scrape toseries with two telephones and a batgether every piece of collateral in tery. your name-150 minutes-there's something doing." It only took me ance under the action of the varying light. The luminous beam from the transmitter determines these variaa half hour. This morning, referring to me, one of the papers printed tho tions of resistance corresponding to the following: "The street is recognizing microphonic currents of the transmita new Napoleon of finance in the person of young Mr. ----, who has just turned a mighty clever and exceedare thus reproduced. The process here described was tried by Dr. Graham ingly profitable deal."-Pittsburg Dis-Bell in Washington, who was not sucpatch. cessful over such long distance.

A SURE ENOUGH AMERICAN.

Repaired the Church Roof But it All Came Back.

The following story is told of an American who visited an old Engish church and struck up a conversation with the rector. The two went up to the roof for the sake of the view and the rector pointed out how badly in need of repair were the leads; going on to talk in a hopeless way of the poverty of the parish.

The American rubbed his chin and then offered to put on a new roof at his own expense. The delighted rector closed with the offer. The American was as good as his word, and when on the completion of the work the rector thanked him effusively, he quietly confessed to having made a very respectable profit out of his 'charitable" work.

The rector asked for an explanation and then the American informed him that there is a certain amount of silver in lead, which was now extracted, but in old times it was left because its presence in the lead was not suspected. The quantity of the silver in the lead on the church roof was sufficient to pay all expenses and to give the American a tangible profit.

#### Where the Toddy Went.

Here is a characteristic story of Captain, afterwards General George Pickett, famous at Gettysburg. It was at the time of the disputes between England and America as to the boundary line between British Columbia and Washington territory. Capt. Pickett had just mixed himself a toddy, when his attention was arrested suddenly by a courier, whose message caused him to mount immediately and ride off, leaving the drink behind him. He was gone some hours. When he returned the empty glass was on his camp table, whereupon en-

sued the following colloquy: "Orderly."
