The "Money-Back" **Drug Store**

We do not want to have a single dissatisfied customer. We would rather have almost anything happen than to have anything happen than to have a customer go out in a huff, or trade somewhere else because of supposed ill-treatment. Probably it is because we feel this way, and are always so glad to make everything R-I-G H-T that we have so many customers who stick to this store year after year. Our list of such customers is steadily growing. We invite your ily growing. We invite your -your constant, exclusive trade-with the distinct understanding that every purchase will be satisfactory, or we will make it so.

Oh, for a Street Sprinkler !

A street sprinkler is one of the needs of Reynoldsville. The annoyance that our merchants have already experienced this year with dust from the street flying into their stores has been sufficient to convince all that a street sprinkler is badly needed. True, a number of the business houses use the hose to sprinkle in front of their business places, but that is not satisfactory because they don't all use hose and the dust from street in front of a neighbor, who does not use hose, may be caught up in the breeze and be carried into the the store and eyes of the man who sprinkled in front of his place of business. A street sprinkler may cost more than a street hose, but the merchants will save more in not having goods damaged by dust than the sprinkler will cost during the summer, and the customers will not enter the stores with their eyes full of dust. By all means put on a street sprinkler.

This is a big romotion, but Mr. McGinness is hustler and as an appreciation of his work, the Metropolitan Company is promoting him to the front ranks as fast as possible. Mr. and Mrs. McGinness and son, Blake, spent Sunday with the former's parents, returning to Oil City Monday morning.

FAIR WARNING TO ALL.

Burgess Simmons Will Strictly Enforce Ordinance No. 56-Not a Bluff.

Among the ordinances of this borough s one prohibiting the throwing of waste paper, rags, peelings, skins, hulls and shells of any kind on the sidewalks or streets or alleys, which has not been enforced, and consequently people have been careless about such things and sometimes the appearance of Main street is a discredit to the town. Elsewhere in this issue of THE STAR will be found a notice from Burgess L. M. Simmons which should be heeded by all our citizens, as it is the intention of the burgess to have this ordinance strictly enforced, regardless of whom the persons may be-men, women, boys or girls-who disobey the ordinance. When a few arrests have been made and the persons arrested pay a fine of from \$1.00 to \$10.00, then people will begin to realize that Burgess Simmons is not making a "bluff" about enforcing this ordinance. The person who throws bannea peelings or peanut shells on the street or side walk, or tears a wrapper off a newspaper and throws the wrapper on the street, is liable to be arrested. No doubt those who will be compelled to pay fines for breaking this ordinance will think it is a strict law, but the object of the law is to keep our streets clean, and a strict enforcement of the ordinance will be the only way to make people more careful about throwing things on the streets. The ordinance was passed when the Village Improve ment Society was active and had provided large sheet iron cans at various places along the streets for waste paper, peelings, hulls, &c.

Thursday evening, May 7th, beginning at 9 o'clock, the reunion and banquet of the alumni of the Reynoldsville high school will be held at Frank's

Penitentiary Offense. It would seem by the frequent occur-

rence of forest fires that it is not generally known that there is a heavy penalty for starting forest fires. In some instances such fires are started just to see the blaze creep along in the woods and in other cases it is through careless ness on the part of some one that fire are started. A man who is interested in forestry and tries to save a young timber tract has little encouragement to do so because he expects every year that some person will start a fire that will destroy his trees. The question that is agitating the farmers of this section is how can they protect their small groves from forest fires? If some guilty person was given the full benefit of the law for starting fires it might possibly help solve the problem.
