News of Interest to the Grangers

Whatever farmers are doing as farmers should interest every farmer. That the farmers of one neighborhood are able to maintain an organization, hold successful meetings regularly, and make the social and educational conditions of the community better, do business in a business way and save money by co-operating should move other farmers to do likewise.

The work the grange is doing in the country is a work that needs to be done. It is a work the schools are not fitted to do; that the churches are not organized to perform; that institutes and farmer's clubs will never be able to accomplish. Let all other associations fulfill their proper functions, but do not let anyone make you believe for a moment that the Grange has not a great mission, the task of making country life nobler and more enjoyable and country people better citizens and better neighbors, richer in all that makes life worth living.

Able Sermons.

Owing to the fact that an insufficient amount of money or pledges of money were received at the dedication services in the Baptist church last Sunday the dedication of the church was deferred until some future time. However, the services, with the exception of the actual dedication, were carried out according to programme.

The first service of the day was at 10.30 in the morning, when Rev. J. E. Dean, of Reynoldsville, preached a powerful sermon. The sermon was an appropriate one to the occasion and was full of rich thoughts and helpfulness to all who heard it.

The dedicatory sermon was preached at 2.30 p. m. by Rev. A. J. Meek, Ph. D., of Reynoldsville. Dr. Meek is one of the most able Baptist preachers in this part of the state, and his sermon on this occasion was a most excellent one, and although the meeting was a lengthy one he held the closest attention of the entire audience throughout. He used as his text a part of the twenty-second verse of the twenty-eighth chapter of Genesis: "And this stone which I have set up for a pillar, shall be God's house." After the sermon an effort was made to raise funds to liquidate the debt resting on the church, and Dr. Meek proved himself to be not only a good preacher, but a good collector as well, inasmuch as the cash and pledges amounted to \$1,234.00.—*Ridge-way Advocate.*

Mrs. Tom Wray Vamosed.

Wednesday of last week while Tom Wray, familiarly known as "Goose-neck," of "Poverty Flat," was at work his wife packed the most valuable portion of their household goods and shipped to parts supposed to be unknown to her husband. When Tom returned from work Wednesday evening he was very much surprised to find his house locked and no sign of any person around, but he was more surprised when he got into house and found that his wife had vamoused, taking some of the household goods with her. Tom has learned where his wife is and the only thing that seems to worry him now is that some person will harbor her at his expense.

Farmers settled this country. Farmers fought the battles of the revolution. Most of the founders of this government were farmers. The tillers of the soil were strongly in evidence on the battle fields from '60 to '64. Strong hands, clear heads, honest hearts—the best product of the farm, are more needed in public affairs to-day than ever. The Grange is the farmer's high school to fit him to go to the front again.

The farmer by the nature of his occupation is isolated. Isolation rusts. Contact brightens. To meet the competition and the combination of the present day, the farmer needs to have his wits sharpened. No one doubts that the successful farmer uses his brains as well as his hands. The Grange furnishes the opportunity for the farmers of a community to get together. Exchange of ideas, giving experiences and discussing subjects quicken thought. The plodding farmer does not belong to the Grange.

Park's Big Stock Co.

The readers of THE STAR will doubtless be pleased to hear of the annual visit of C. W. Park's Big Stock Co. here next week. The canvass pavilion will be pitched on the ball grounds. This year a number of improvements have been made in the lighting of the tent with electricity and also using electrical effects in the production of the entire repertoire. Special attention is called this year to the special scenery for each production, making the productions equal to any seen in the finest opera houses in any city, with a cast of actors and actresses that are absolutely stars in their refined parts.

The repertoire will open Monday night, June 29, with "The Irish Arab," one of those sly articles that make a pleasant countenance for the young as well as the old. "Gettysburg," "Pygmalion" and "Galatia," "Little Lord Foulery," "Resurrection," "Wages of Sin," and "Tracy the Outlaw," will be the repertoire for the week, with a concert after each performance, consisting of vaudeville bills. All this for the usual price, 10c for children, and 20 for adults.

Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption Coughs and Colds to be unequalled. A recent expression from T. J. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by H. Alex Stoke's, Druggist. Trial bottles free, regular size 50c, and \$1.00.
