AN IMPORTANT DECISION.

Judge Auten Affirms Constitutionality of the Peddler Ordinance Law.

The constitutionality of the borough ordinances throughout the state, prohibiting hawking and peddling on the streets from door to door by sample or otherwise, was sustained by Judge Auten, of Northumberland county in an opinion handed down Monday morning in the Rearick case. N. L. Rearick, the agent of the Citizens' Wholesale Supply Company, of Columbus, Ohio, was arrested in Sunbury some time ago by Special Officer Paul Fendrick at the instance of the Business Men's Association for selling goods by sample from door to door without license. He was given a hearing before Justice Carpenter, who in accordance with the borough ordinance, imposed a fine of \$25.00 and the costs. The defendant's counsel appealed the case to the United States district court for the middle district of Pennsylvania, asking to be discharged under a writ of habeas corpus, claiming that the ordinance was a violation of the inter-state commerce clause of the constitution of the United States. The application for a discharge was denied by the district court and the case was referred back to the court of the county. It was argued before Judge Auten, H. S. Knight, of Sunbury, representing the business men. Monday morning Judge Auten handed down his opinion affirming the action of Justice Carpenter in imposing the fine of \$25, which is practically declaring the ordinance to be all right.-Milton Standard.

Big Stick of Spruce.

W. G. Campbell, of Tacoma, Washington, formerly of this place, clipped the following from a Tacoma paper and sent it to THE STAR :

"The largest log ever floated on Puget Sound was towed in to the Capital Box Factory mills, from the Skagit river, last night by the tug Elf, Captain Olson.

This monster timber is 9 feet through at the small end, 14 feet through at the large end and 40 feet long and will scale about 21,000 feet. It is so large that there is no mill in the state of Washington, and probably none in the world. that can saw it as ft now lies. It will be blasted with powder into pieces and then sawed up into lumber by the Capital Box Factory mills. It is a part of a mammoth spruce tree that grew on the banks of the Skagit river.

Captain Olson, who has for years been engaged in the log-towing business on the Puget Sound, states that never before has he seen anything to equal this log. It was all he could do to handle the huge timber with the Elf, which usually handles with ease rafts composed of hundreds of small

The Crop Outlook.

The crop bulletin of the Pennsylvania weather service for the week ending July 16th says, the conditions have been highly favorable to the advancement of vegetation in general and the maturing of grains and grasses. Haying and harvesting are in progress, except in a few of the northern tier counties. This work however has been materially retarded by the frequent showers, and the cultivation of corn and potatoes, which are becoming very weedy, is at a standstill on account of the wet soil. The yield of wheat and eye and the hay crop will be heavier than early conditions gave reason to expect; oats and potatoes are developing rapidly and promise favorable returns ; timothy has made marked improvement and pastures are furnishing ample feed. Corn made rapid growth under the influence of the seasonable temperature of the past few days, but the crop as a whole is backward and the stand uneven and unsatisfactory. The outlook for garden truck, vine fruits and the berry crop is more promising. Apples are developing nicely; pears, plums, cherries and peaches range from fair to good in some

sections to practically a failure in others.

Unless some unforseen obstacles should present themselves in the matter of obtaining the right-of way, the Buffalo & Susquehanna Railroad is certain to be extended into Indiana County. Much of the land leased by James A. McCreight and John Ross in the vicinity of Plumville has proven to be excellent coal territory, and the Goodyears are taking it up as fast as practicable. When they are through buying in that field they will have from ten to fifteen thousand agres of coal there.-Punx-utawney Spirit.
