Bracket Off.
The bracket has been cut off the dam at Hopkins, the logs are all out of the creek and the water in Sandy Lick at this point is now down to the riffles, the lowest the water has been here for years. The water will hardly get much lower when the dam is cut out, which will not be until next year at least. This stream will not overflow its banks so often hereafter in this vicinity, which will be appreciated by the people living close to the creek.

Intoxicated Woman.
It is a sorry and disgraceful sight to see an intoxicated man reeling along the streets, but it seems a great deal worse to see a woman on the streets in a beastly state of intoxication. Such a scene was witnessed in West Reynoldsville last Friday afternoon. The woman had a small child with her. The child was taken to home of Squire J. D. Woodring and the woman was put in West Reynoldsville lock-up, where she lodged all night and was sober Saturday morning. She claimed Brookville as her abiding place and started for that town on the 8.18 a. m. train Saturday.

There will be no preaching services for two weeks on account of the absence of the pastor. Prayer meeting will be held this evening in the auditorium of the church building. The Sunday School will meet on Sunday morning in the Centennial Hall, where all services will be held until repairs are made.

Methodist Picnic.
Notwithstanding the frequent hard showers and breakage in the trolley system, which tied up all cars over two hours, at least 450 people attended the Methodist Episcopal Sunday school picnic at Wishaw last Thursday. The rain clouds did not keep the boys and girls from assembling at the church at the appointed time Thursday morning, and at nine o'clock a special trolley car was loaded with juvenile excursionists for Wishaw. Second car was to start from church at 9.30, but when car was coming up the grade on Bradford street near company office, the electric power petered out and it was over two hours before there was power enough to start the cars again. A break in a steam pipe at power house on Punxs's end of the line caused the stoppage of traffic. The rain and long delay marred the pleasure of the picnic to some extent, but the afternoon was pleasant and the picnicers had a delightful time. Had the weather been auspicious there would have been about 600 people at the picnic.

Skinner-McCullough Nuptials.

McCullough, of The Loop, Indiana Co., Pa., were married at high noon on Wednesday, July 29, 1903, at home of bride's parents. The bridal party stood under a beautiful arch while a ring ceremony was performed by Rev. J. S. Hays. The parlor was decorated with flowers, golden rod and lilies. Mr. Skinner's friends and acquaintances in Reynoldsville extend congratulations and best wishes.

An Exciting Game.
Two weeks ago a game of ball was played between married and single men of Reynoldsville, and the married men defeated the single men. Monday of this week they met on the diamond for a second game and this time the married men were not so jubilant at end of game, as they were walloped. Score was 10-19. The married men are not discouraged, oh, no! They boast they will defeat the single fellows in the third game. It will be an interesting game. Time for game has not been set yet.

MORE TROLLEY LINE!

The Winslow Township Franchise Granted Saturday.

Jefferson Traction Company to Begin Work Within Thirty Days or Franchise Null and Void.

Last Saturday afternoon J. K. Womeldorf and Joseph Johnston, supervisors of Winslow township, granted the Jefferson Traction Co. the franchise for a trolley line from Reynoldsville through Prescottville, Rathmel and Skunk Hollow to Clearfield county line, and from Prescottville to Soldier and Sykesville.

The company is to begin work on the proposed trolley line within 30 days and to have it completed within 18 months, or the franchise is null and void. We have known for some weeks that the Jefferson Traction Co. have been contemplating the extension of their line to Soldier and Sykesville, and have no official authority now that the line will be extended, but the fact that a Reynoldsville attorney secured the above franchise for this company is certainly good evidence that they intend extending the trolley line. We may be able to give our readers some positive facts concerning this matter next week.

Tearing Down Old Building.
The Reynoldsville Hardware Co. have gathered their stock into as small space as possible and have had it covered with a board roof, not as high as the first ceiling of the new store room will be, and there they propose to do business until the new store room is made ready for use. Men are now at work tearing down the old frame structure and in a few days it will all be removed and the brick layers can proceed with their work. The outside alley wall is already up high enough for second floor joists to be laid, but the brick-layers had to suspend work until the old structure was razed.

The new brick is to be three stories high, same as the brick building this company had erected several years ago, the second story of which they used as a furniture department. When the addition is completed the Reynoldsville Hardware Company will have a large and fine store and an imposing looking buff colored three story brick block, which will be a great credit to Reynoldsville.

All the pieces are solid ebony, inlaid with sterling silver, and Mr. Reed's monogram is on each piece. The National Cash Register Company offered this satchel and \$30.00 in gold to any provincial agent in the world who would turn in most orders to the company during the last ten days of June. Mr. Reed went after the prize and got it.

Dogs Must be Muzzled.
Last evening the town council passed a dog ordinance which makes it necessary for all dogs running loose on the streets of Reynoldsville to wear collars with tax number on all the time and to be muzzled during July and August of each year. The dogs and some of their masters may object to the muzzle, but for the safety of the public the ordinance was certainly a wise piece of legislation.
