Confederate Sons Organize. For the first time in the history of the North military organization, formed entirely of Southerners' sons and grandoons of the Confederate soldiers, has been formed in Pittsburg. It will be known as the Robert E. Lee camp. United Sons of Confederate Veterans.

### AT THE NATIONAL CAPITOL.

DYNAMITE KILLS TWO. One Victim's Head Blown Off, While Another is Terribly Mangled. Clarence D. Hopper and Roy Bouch

er, switchmen of the Michigan Cen-tral railroad, were instantly killed by an explosion of dynamite in a car in the yards at West Bay City. Robert Roblin, engineer; William Noble, fireman, and John Cracile, conductor,

were injured, the latter so severely that he may die. All of the trainmen were residents of Bay City, Mich. The explosion occurred as a switch engine was making up a train. The engine backed down upon several cars, the first containing a thousand pounds of dynamite, a consignment of rifles and quantity of reduced charge shells for indoor rifle practice. It is said that the force with which it struck the explosive-laden car exploded the dynamite. Another report had it that one of the shells exploded and set off lty. the dynamite. Hopper's body was badly cut by flying steel and Houcher was decapitated, his body being terribly mangled. A big hole was torn in the ground by the explosion, an a score of freight cars many loaded were demolished. Nearly 300 houses in the vicinity suffered broken win dows and several were so badly wreck ed as to be uninhabitable. The shock was felt in Essexville, three miles from the scene

### BRITISH MINISTERS RESIGN

Chamberlain, Ritchie and Hamilton

### Pass Up Their Portfolios.

Secretary of State for the Colonies Joseph Chamberlain, Chancellor of the Exchequer C. T. Ritchie and Secretary for India George Hamilton have resigned from the cabinet. Their resignations have been accepted by the They are due to inability to reconcile themselves with the govconnent's 'position on Chamberlain's new policy of a modified form of pro-Mr. Chamberlain in his letter of resignation says the question of preferential tariffs favoring the colonles cannot be pressed now success-fully. Lord Hamilton resigns because fully. he is an adherent of Chamberlain's policy, Chancellor Ritchie resigns being a zealous free trader, he cannot agree with Balfour, who is sympathetic with Chamberlain's stock and the balance, \$50,000,000, for views and purposes.

MORGAN ASKS FOR TIME.

### Syndicate Asked to Extend Time o Bond Conversion Scheme and Also Pay Assessments.

J. P. Morgan & Co. has sent out notices to members of the second Steel Corporation underwriting syndicate requesting an extension of life of the underwriting agreement for an additional period of nine months. An option is also given to those mem-bers of the syndicate who may be unwilling to grant the extension to take up their participations and withdraw. Accompanying the notice sent out by Morgan & Co, was a call for a cash payment based on a contingent liabil-The percentage of the call was not made generally clear, but those who figured the amount of cash called stated that the amount was somewha less than \$10,000,000, which a Wall in the Big Bend. Few districts have not materially suffered from rains. street report stated was the amount that J. P. Morgan & Co., as syndi-cate managers, had actually called. The members who remain in the syndicate and grant the extension of nine months will be called upon to pay a percentage, estimated to be less than

25 per cent of the entire cash liability, while the others who are anxious to retire from the syndicate will be compelled to pay up the cash liability of their participation in full. The sys dicate was formed nearly 18 months ago to guarantee the success of the

big stock conversion plan and is generally known as the second steel corporation syndicate. Its life expires in October next, and in the ordinary course of affairs would have been wound up on that date and the profits, if any, distributed, or if otherwise, the securities to which the underwriters were entitled returned. It will be recalled, that this syndicate agreed to supply \$80,000,000 of preferred stock for conversion into 5 per cent bonds of the corporation and in addition \$20. 000,000 in cash for which they were to receive the same class of bonds. The total issue of bonds amounted to \$250, 000,000, of which \$200,000,000 was to

cash. Of this entire amount a syndi-cate, which the Morgan house formed, stood ready to supply \$100,000,000, di vided, as has been stated, into \$\$0,000, 000 of preferred stock and \$20,000,000 in cash. The offer to the stockhold

ers was not well taken, and the burden IRON BOOM ENDED.

## Consumption Still Continues at an

Enormous Rate. James M. Swank, general manager ( the American Iron and Steel Association, in the forthcoming "Bulleof that association will say: "It tin' has been, recognized for some time that the boom in the iron trade of issue say that it ended with the close of the urgent demand for iron and steel in nearly all forms was slackening and it is an error to assume that the end were seriously burned. ity for the iron trade. Consumption of the killed. still continues at an enormous rate, few works have been closed even tem-porarily by a lessened demand for their pioducts, and prices are simply

tions. This is the whole story up to the present time." Declined Carnegie's Offer.

## **REVIEW OF TRADE.**

Sufficient Labor Cannot Be Secured to Handle Freight-Better Tone in the Iron Market.

R. G. Dun & Co.'s "Weekly Revie of Trade says: Business has made moderate progress during the past week, despite unusual opposition from the elements. When other industries are, to a considerable degree, depend-ent upon agricultural conditions, reports of serious injury to crops by cold wet weather are not calculated to stimulate confidence. Subsequently corrections indicated that the

amount of damage had been exaggerated, as usual, and prospects brightened. The car shortage is beginning to be felt, especially in the Pittsburg key has become amply verified. The to be felt, especially in the Pittsburg annihilating the Bulgarian people. The mobilization and concentration of such as a rule, even the textile mills reporting less idle machinery, and at Chicago there is notable pressure for implements and hardware. Lumber is in better demand as structural activity revives. Payments are seasonably prompt except where late crops delay settlements, and the outlook for fail and winter business contains much that is encouraging. Railway earnings thus far reported for September

show an average gain of 10.3 per cent over last year, in the iron and steel industry quotations have been declining for some months, and a large for every eventuality and to not the labor situation against taken by surprise." It now appears over the labor situation against more likely than ever that Servia will more likely than ever that Servia will opments in the building trades are opments in the building trades are most encouraging in this respect. Prices have held fairly steady durpective reductions. Sales of pig iron cant that purchasers are urgent for

quick delivery. Agricultural and structural steel shapes are moving powers or some intimation from them in response to Bulgaria's note. freely, with soveral new contracts about to be placed. Failures this week were 219 in the United States, against 199 last year, and 19 in Canada, com pared with 25 a year ago. Bradstreet's says: The outook for average crops is still a good one, nothing in the nature of actual shortages, such as oc-curred in 1991, is indicted, and while

the opinion possibly inclines to the view that the boom is over in several industries, none the less the be-lief is maintained that a good aver-age fall and winter trade is in prospect. New buying of pig iron has been of fair volume, most prices have failed to harden. Pittsburg reports a better tone in Iron, with orders for fir shed products coming in more free ly. Steel blilets have not been cut in Coke shippers complain of a scarcity of cars. Tin plate mills are crowded with orders. The ending of strikes is beloing structural material

## CROP REPORT.

### Weekly Summary of Conditions from Export Reports,

weather bureau's weekly sum The mary of crop conditions follows: The week was excessively wet in the Missouri and upper Mississippi valleys and upper lake region, while drought conditions over the greater part of the southern states and Ohio valley have become more serious. The tem-perature conditions in the central valleys and Atlantic coast districts were highly favorable, but abnormally cool weather prevailed in the central and northern Rocky mountain districts and arrival of new reports of wholesale massacres it is estimated that 60.000 upper Missouri valley, where thermometer readings ranging from two to six degrees below freezing were Bulgarians have been slaughtered in recorded on the 13th and 14th, with frosts, more or less damaging. Damaging frosts also occurred in the northern portions of New York and New

The curious habit of carrying a live ca anemone in each of its two claws is ascribed to the Mella, a genus of small crabs of the Maldive Archipelago. M. Borradaile states that the crab's claws are too frail for use in defense, and it is not clear whether the anemones are held as a means of protection or as a trap for food.

Work on the Trans-Andes railway is being carried on at a high speed. When the great tunnel piercing the Andes will be completed direct railroad connection will be established between Valparaiso and Buenos Ayres. At the present time goods can be transported by means of mule caravans from the Argentine terminus to the Chilean terminus in about twenty hours.

An interesting and rare case of infection of the mouth and subcutaneous tissues by a parasite nematode worm is recorded by Mr. Whittles in the Lancet. The patient had never been out of England, and the source of infection was surmised to be a pet Pomeranian dog. In a tropical disease affecting the skin, known as "crawcraw," a nematode has been described as the cause of the growths.

Some time ago B. Walter showed that an electric spark feels its way from the positive pole to the negative in a rapid succession of preliminary sparks of increasing length. By some excellent photographs with a moving camera, he has now proved that lightning similarly establishes a conducting path through the air by a series of minor flashes, and that, as a rule, the lightning passes from the cloud to the earth as a series of continuous discharges.

An interesting and exhaustive report has been issued by the Worcestershire (England) County Council upon the bacterial treatment of sewage by different methods, the analytical details being supplied by the county analyst, Cecil Duncan. The conclusion arrived at is that the best method for the treatment of domestic sewage is a closed septic tank with bacterial beds filled with coke, which was found to be better than coal, brick or stone, two bacterial beds being provided to be used alternately to avoid ponding.

If the remarkable specimen of Australian opal, which has been brought to light, turns out as well in the cutting as is hoped, the result will be a solid mass of beautiful stone fully eight inches long by five inches wide. and will probably be the largest piece of opal known in the world. At present the biggest gem is that in possession of the King of the Belgians, and is included in the crown jewels. It is valued at something over \$250,000 and weighs close upon sixteen ounces. The new specimen from the White Cliff fields has been christened "Big Ben." It is said that the purchaser of the specimen bought it for a trifling sum.

### Cinderella Revised.

With some petulance Cinderella notices that the pumpkin has been transferred into a golden carriage.

"Does it not delight you?" asks the fairy godmother.

"Oh, of course, it is very pretty and all that," concedes Cinderella; "but England. In California conditions surely, you do not expect me to go to were very favorable but cool. Except in Iowa, Northern Missouri and Eastthe ball in such plebeian style?" "Plebelan?" asks the fairy godmoth-
