Not Enough Coaches.

The Pennsylvania Railroad Company ssued 1,500 excursion orders for the Knights of Pythias rounion at Brookville last Thursday and did not put even one extra coach on any of the morning trains. When the 8.08 train pulled into Reynoldsville the cars were packed full, even the platforms and steps of the coaches were full and there were about three hundred people standing on the station platform who wanted to get on the already crowded train. The crowd at this place was notified that the train would run to Brookville and immediately return to Reynoldsville for the left-over passengers, making it necessary for the good natured crowd to remain at this place an hour longer. The through passengers were unloaded at Brookville and had to wait until the passenger train made the return trip to Reynoldsville. Both times the train left Reynoldsville the two coaches and baggage car and platforms were crowded with passengers. The afternoon trains were provided

Let Contract To-Night.

At six o'clock this evening all bids for paving Main street must be in the hands of the secretary of town council, as no bids will be received after that hour. The borough "dads" meet to-night to let the contract for paving Main street. It is not at all likely that council will make a contract with any bidder who wants to use other than Reynoldsville brick, and there is no reason why they should. There are no better paving brick made

in the country than are made by the brick plants at this place, and we understand a good quality of paving brick cannot be bought any cheaper at any other plant than they can at Reynolds ville, therefore, quality being as good and price as low as at any other plant, it is only right and proper for council to patronize home industries and thus

keep the money in circulation in Reynoldsville.
