To Our English Friends.
Two small items appeared in THE STAR last week, one clipped from the London Leader, which some of our English friends were displeased about, and we feel that an explanation is necessary. The two items referred to, with a number of other items, were furnished to us by a press association of Pittsburgh in what is called plate matter. In a hurry the plates were run in THE STAR without the matter being carefully looked over, and we did not know that the items were in the paper until our attention was called to them. We have a large number of friends among the English people, have a high regard for them and consider them an excellent class of people. Some of the neatest housekeepers and most energetic women we know of are English women.

About fifty members of Division No. 1, A. O. H. of Reynoldsville, accompanied by the Keystone band and a number of friends attended the second annual re-union of the Ancient Order of Hibernians of Jefferson, Clearfield, Indiana, Cambria, Elk and McKean counties, held at Punxsutawney Thursday of last week. From the Punxsutawney Republicans we clip the following report of the re-union:
"The rain in the morning was no doubt the means of keeping a great many people away who had made arrangements to come, but in spite of this quite a large crowd was present. The parade formed at the parochial schools in Lindsey at 1.30 and was headed by Burgess J. L. Shields and Chief of Police Palmer in a carriage. Visiting priests and county presidents followed in carriages and then came the members on foot. Many of the divisions were attired in natty white uniforms and presented a pretty appearance. Music was furnished by the Citizen's band of Punxsutawney, the Falls Creek band, the Keystone band of Reynoldsville and the Helvetia band, all of which are very good, and there was no scarcity of music.
"The line of march extended from Lindsey to Front street in this place, then back to Findley street to the fair grounds, where all the important events took place.
"The address of welcome was made by Burgess J. L. Shields, who handed over the keys to the city in a neat and eloquent address. National President Dolan, of Syracuse, N. Y., followed with a masterly oration and addresses were made by other prominent speakers present."

Adelsperger got the names of the eleven young men in the party and information was made against them before Squire E. Neff for shooting in the borough and disorderly conduct. The first of last week an officer went to DuBois and arrested two of the offenders and brought them to Reynoldsville. One of these two had to pay fines and costs to amount of \$14.50, and the other one paid \$5.75. Five of the other sports came to Reynoldsville without being arrested and paid \$5.25 apiece. There are four others that have not paid their fines yet, but they will pay. We have not been able to get the names of all the young fellows and will not publish the names of any of them this week.

JEFFERSON COUNTY BOY.
Controller Grout Compliments Work of His Deputy, James W. Stevenson, and Increases His Salary.
Before sailing for Europe yesterday Controller Grout gave James W. Stevenson, one of his two deputies, a pleasant surprise in the shape of an increase of salary of from \$6,000 to \$7,000 a year. Controller Grout broke the news to Mr. Stevenson in the following highly complimentary letter:
"On and after August 1, 1904, your salary is fixed at \$7,000 a year, the same as was received by your predecessor, Edgar J. Levey, at the time of your appointment. In view of your then lack of experience, a smaller sum was fixed, with the intention, however, that in course of time you should have the same salary as Mr. Levey had. Not only has a due period elapsed so that you are now possessed of complete experience in the work, but the increase is justified by a record of valuable services to the City of New York not surpassed, I undertake to say, by that of any other official, elected or appointed who has held office during the past two and one-half years. I do not refer solely to the sinking fund measure, conceived by you, which saves the taxpayers \$9,000,000 or \$10,000,000 annually for 25 years, but also to the efficient daily work which shows results that are to the general eye merged in the work of this department and of the Board of Estimate and Apportionment."
The Sinking Fund measure referred to by Controller Grout is that by which the surplus revenues of the general fund are included in the budget each year, thereby reducing, as Controller Grout says, the amount to be raised by taxation by \$9,000,000 or \$10,000,000 each year for the next twenty-five years. Deputy Controller Stevenson was highly complimented on the success of this measure.
Mr. Stevenson was appointed Deputy Controller in 1902, succeeding Edgar J. Levey, who had been in the department for many years, but who resigned to go into business. Before his appointment as Deputy Controller, Mr. Stevenson was private secretary to Controller Grout during the four years that the latter was Borough President of Brooklyn.—Brooklyn, N. Y., Eagle, July 27, 1904.
James W. Stevenson is a son of Henry Stevenson, of Sandy Valley, and son-in-law of M. M. Davis, Esq., of Reynoldsville.

When Mr. Higgins arrived here he was sick and he went to home of his father-in-law and was stricken with typhoid fever. After a hard tussle with the fever he began to get better and ten days ago his wife was stricken with fever and Mr. Higgins had a relapse. They are both in a critical condition.
