NERVO-VITAL DERILITY

Men, many of you are now reaping the result of your former folly. Your vitality is falling and you will soon be lost unless you do something for yourself. There is no time to lose. Impotency, like all diseases, is never on the standstill. With it you can make no compromise. Either you must master it or it will master you, and fill your whole future with misery, we and disappointment. I have treated so many cases of this kind that I am as familiar with them as you are with the very daylight. Once cured by me you will never again be bothered with nervousness, falling, loss of ambition or other symptoms which rob you of your vitality and absolutely unfit you for study, business, pleasure or marriage. My treatment for weak men will correct all these evils and restore you to what nature intended—a hale, healthy, happy man, with physical, mental and other powers complete.

A Question.

It is Rousseau who puts to his reader that curious question: What he would do if, by a single act of the will, and without stirring from home, he could make himself rich by killing an old mandarin in China. In some form or other that question comes up in every life and it is to be feared the old mandarin does not always survive. The all-pervading passion to get rich, and the many questionable methods in which wealth may be gained, leads to wonderfully subtle reasoning sometimes to avoid the twinges of a conscience that will not be silenced. It is so easy and convenient to believe that what one does not do with his own hand will not be accounted to him for wrong. And few there are who realize that "as a man thinketh in his heart so is he."

Old Men's Picnic.

Last Saturday, September 24, 1904, was the date of the 83rd anniversary of the birthday of David B. McConnell, who makes his home with his son, Frank A. McConnell at Frank's Tavern in this place, and the event was celebrated by holding an old men's picnic in Clark's grove on the farm of J. R. McConnell, near Brookville. The threaten rain in the morning kept a number of old men away who had been invited, however, a goodly number attended the picnic and the old men enjoyed the picnic immensely. Some of them declared it was the best time they had ever had in their lives. At noon a long table filled with an abundance of good things was surrounded by a lot of boys ranging from sixty to ninety years of age, and they proved conclusively that age does not always impair appetites. After the table had been relieved of a part of its burden, the picnickers were called together and Hon. Jerry G. Allen, of Allens Mills, was elected to preside with all the men present that were over 80 years old as vice-presidents, and there were a goodly number of them. Speeches were made by Archie McCullough, of Beechwoods, Dr. McKnight, W. A. Andrews and Major John McMurray, of Brookville. All over 60 years old had their picture taken in a group and all under 60 years old had their picture taken in another group.

David B. McConnell, the hero of the occasion, Frank A. McConnell and family, Ninian Cooper and James McFadden, of this place, drove to the picnic in a carriage Saturday morning.

The Negro.

The status of the negro in America was never more clearly stated than by a condemned negro murderer in Virginia not long since. Asked if he had any defense, he replied: "No, I presume that I ought to be hung, but I have only to say that in all my life no white man ever tried to make me better than I was. Whenever I got any money there were plenty of white men who would sell me beer and whiskey, but none who tried to influence me to be a good man." It is true. Americans have shed their blood to establish this race's equality, but practically none regard the negro as an equal. White men will use him, buy his vote or deprive him of it, as suits the occasion, but, immediate use past, they have no further interest in his welfare.

Plans and specifications can be seen at Lawyer G. M. McDonald's office, Reynoldsville. The supervisors reserve the right to reject any or all bids.

Rural Delivery.

Mention was recently made in the Record that a representative of the postoffice department was in this section looking over the field for the establishment of rural free delivery. The same has been favorably reported to the department and the following route has been mapped out, which covers a distance of 21 miles. Starting from Brookwayville mail will be left at John Robinson's, then to Holt's on the right of the Brookville road, then back to the crossing of the road at Sugar Hill near Atwells, serving the people of that section along the route, then to Shaw's and to the interior of the Beechwoods, leaving mail at McCurdy Hunter's, Daugherty's, Morrison's, Dennison's, and all places along the route back to Brookwayville. Examinations will be held for appointment of carrier within the next few weeks and there will probably be a number of applications for the job as it will pay no mean salary.—Brookwayville Record.

Gave Address.

Last Wednesday morning at the opening exercises of the public schools, Hon. S. B. Elliott gave an instructive address on the culture of the pine trees. He illustrated clearly how and where the seeds are formed and how nature has provided for their disposal. Mr. Elliott is a member of the State Forestry Commission and he explained the work of the commission and the School of Forestry which is located at Mt. Alto. Boys may enter this school by competitive examination, which, if successful, will entitle them to free scholarships. After having passed through the three years course of this school, the state furnishes its graduates with good lucrative positions. Mr. Elliott urged the boys to think of forestry when choosing a profession or calling for life.

Don't ask the editor to write up every evil work and rebuke every evil in the town and community, says the North East Breeze; but when convicted that such duties need attending to, write an article for the paper yourself and sign your name to it for publication.
